

Clover Creek Nursery - Current Plant List

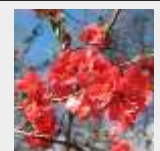

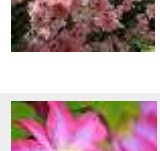

As of 4/18/2018

	Botanical Name	Common Name	Description
	Acer ginnala 'Flame' <i>Flame Amur Maple</i> \$8.97 Container: 2Gal		Flame amur maple is a beautiful, small garden tree that can be grown as a bushy shrub or a tree. The foliage turns a brilliant, fiery red in autumn. It is one of the most striking trees in the fall season. Yellow flowers in spring are hardly noticeable, but they do produce a red helicopter seed pot that is pretty. Size: 15-20'x15-2' Bloom Time: April to May Light : Full Sun to Partial Shade Uses: Ornamental Tree
	Acer Palmatum Atropurpurea <i>Japanese Red Maple</i> \$6.97 Container: 1Gal		The beautiful Japanese Red Maple is one of the most popular plants in the world. It brings a stately charm to any garden, patio or yard with its deep burgundy foliage and arching branches. The leaves darken as they mature in summer, but may turn a bright red in fall for a splash of color that lasts several weeks before winter. Japanese maples can be grown in the yard or in a container, and will adapt well to many different conditions. They need little care but will produce beauty year after year. Size: 20'x10' Bloom Time: Light : Full Sun to Partial Shade Uses: lawn tree
	Acer truncatum <i>Shantung maple</i> \$6.97 Container: 1Gal		The Shangtung maple is a Chinese maple. The leaves have a typical maple leaf shape, with an amazing fall display of reds, oranges, yellows and greens. This is a really nice, smaller tree, growing to only 20 feet or so. It is good for crummy soils, and high pH soils, and it does well with air pollution. It is a fast grower for a maple, too. Size: 20-25'x15-2' Bloom Time: April Light : Full Sun to Partial Shade Uses: Specimen, understory tree
	Achillea millefolium 'Paprika' <i>Paprika Yarrow</i> \$6.97 Container: 1Gal		Achillea is name after the Greek hero Achilles, and the plant was thought to have healing properties. Paprika sports cherry red flowers with gold centers that bloom all summer long, fading to light pink and creamy yellow as they age. Achillea is particularly showy in mass plantings, and makes for top-notch cut flowers as well. They are drought tolerant and salt tolerant. Use them in borders, mixed in with other summer bloomers. Unlike most perennials, Achillea's fernlike foliage is semi-evergreen. Size: 3'x2' Bloom Time: Late June-early July Light : Full Sun to Partial Shade Uses: Attracts butterflies and hummingbirds. Drought tolerant, cut flower
	Aquilegia coerulea 'Mckanna Giant' <i>Mckanna Giant Columbine</i> \$6.97 Container: 1Gal		Beautiful mix of colors, McKanna Giant is a great addition to your perennial garden. These get taller than most columbines, reaching 30" or more in height. Size: 30"x18" Bloom Time: Spring Light : Full Sun to Partial Shade Uses:
	Aquilegia SWAN 'Blue and White' <i>Swan Columbine</i> \$6.97 Container: 1Gal		Swan columbines have large flowers that usually have white inner petals and a darker color on the outside petals. They make beautiful cut flowers for a vase. Size: 18"x16" Bloom Time: Late spring to early summer Light : Full Sun to Partial Shade Uses: Accent, hummingbirds, border, containers, cut flower, mass plantin
	Aquilegia SWAN 'Burgundy and White' <i>Swan Columbine</i> \$6.97 Container: 1Gal		Swan columbines have large flowers that usually have white inner petals and a darker color on the outside petals. They make beautiful cut flowers for a vase. Size: 18"x16" Bloom Time: Late spring to early summer Light : Full Sun to Partial Shade Uses: Accent, hummingbirds, border, containers, cut flower, mass plantin
	Aquilegia 'Swan Red and White' <i>Swan Red and White Columbine</i> \$6.97 Container: 1Gal		Swan columbines have large flowers that usually have white inner petals and a darker color on the outside petals. They make beautiful cut flowers for a vase. Size: 18"x16" Bloom Time: Late spring to early summer Light : Full Sun to Partial Shade Uses: Accent, hummingbirds, border, containers, cut flower, mass plantin

	Botanical Name	Common Name	Description
	<p>Aquilegia vulgaris 'Salmon Rose'</p> <p><i>Salmon Rose Columbine</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 8"x12" Bloom Time: Spring</p>		<p>Salmon Rose is unlike most columbine. The flowers are fluffy doubles that resemble miniature clematis blooms. They face upward for a better view, too! Flowers are dusty-rose to salmon with a yellow center. Hummingbirds love these!</p> <p>Light : Full Sun to Full Shade Uses: Hummingbirds, rock gardens, mass plantings, borders, ground cover</p>
	<p>Aquilegia vulgaris WINKY 'Blue and White'</p> <p><i>Winky 'Blue and White' Columbine</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 18"x18" Bloom Time: Late spring, early summer</p>		<p>The winky series of columbine are mildew resistant and gorgeous! Blue and white flowers are upward facing and there are a ton of them! Grow these in your border garden, in containers or as edging for a bed.</p> <p>Light : Full Sun to Partial Shade Uses: Hummingbirds, rock gardens, mass plantings, borders, ground cover</p>
	<p>Arctostaphylos uva-ursi 'Vancouver Jade'</p> <p><i>Vancouver Jade Kinnikinnick</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 6"x24" Bloom Time: Mid spring to early summer</p>		<p>Kinnikinnick is an ideal ground cover for spreading over larger areas and for erosion control. Vancouver Jade sports pretty little pink bell-shaped flowers from mid spring all the way into early summer. In summer, scarlet berries appear, also very pretty! The foliage turns a colorful bronzy red in late fall, lasting through the winter, making this a beautiful plant all year long. It is also drought tolerant and deer resistant!</p> <p>Light : Full Sun to Partial Shade Uses: Groundcover, erosion control</p>
	<p>Arenaria montana 'Avalanche'</p> <p><i>Avalanche Mountain Sandwort</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 6"x18" Bloom Time: Mid spring-mid summer</p>		<p>A new and improved selection of the Sandwort, this species freely produces larger white flowers over a longer bloom period on more uniform, compact plants. It forms prostrate mats of foliage. It is the perfect substitute for moss in sunny areas and will quickly fill in the spaces between stepping stones or trail down the sides of rock walls. The bloom power of this plant creates an impressive show that has tremendous impact when grown en masse. It is even more spectacular when spring-flowering bulbs are mixed in.</p> <p>Light : Full Sun Uses: Groundcover, mass plantings, rock gardens, between flag stones</p>
	<p>Artemisia schmidtiana 'Silver Mound'</p> <p><i>Silver Mound Wormwood</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 12"x18" Bloom Time: Mid summer</p>		<p>Silvery lacy foliage on a compact, mounded plant makes for a great edging plant or accent around a taller shrub. Silver Mound is prized most for its foliage, which is evergreen. Its fine lacy texture is eye catching and pleasing. Use it along a path or in the front of a border for best effect.</p> <p>Light : Full Sun Uses: Ground Cover, Accent, border, mass plantings</p>
	<p>Aster dumosus 'Alert'</p> <p><i>Alert Aster</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 12"x16" Bloom Time: Summer to fall</p>		<p>Alert is a new hybrid New York aster, more compact than most English asters. Reddish-purple, bright flowers have yellow centers, growing to about 12" long stems, perfect for cut flowers.</p> <p>Light : Full Sun Uses: Fall color, attracts butterflies, mass plantings, containers</p>
	<p>Astilbe x arendsii 'Ellie'</p> <p><i>Ellie Astilbe</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 18"x18" Bloom Time: Early-mid summer</p>		<p>Ellie produces open and airy white plumes on deeply cut deep green foliage. All astilbes are impressive, but Ellie is one of the most showy of the white-blooming varieties. Like all astilbes, Ellie prefers moist, rich soil and does well in shade. Perfect for a woodland garden, in mass plantings or even as a specimen.</p> <p>Light : Partial Shade Uses: Mass plantings, borders, containers, rock gardens, woodland garden</p>
	<p>Astilbe x arendsii 'Red Sentinel'</p> <p><i>Red Sentinel Astilbe</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 2'x2' Bloom Time: Mid Summer</p>		<p>Red Sentinel flowers are a strong, bold scarlet-red. They are nice, full plumes of flowers that rise above the bushy mound of lovely green foliage. As an added bonus, the stems of the flower plumes are also a mahogany-red. Grow these in a shady spot with moist soil for best results. They also do really well in a tub or other container.</p> <p>Light : Partial Shade to Full Shade Uses: Accent, border, cut flowers, mass plantings, rain garden</p>

	Botanical Name	Common Name	Description
	Astilbe x arendsii 'Rheinland' <i>Rheinland Astilbe</i> \$6.97 Container: 1Gal	Size: 2'x2'	Rheinland is a solid, medium-sized astilbe with a bold pink flower. Their flowers rise in plumes above the plant, reaching 2 feet in height or more. Astilbe are great plants for shade gardens and they like moist soil, filling an important niche. Bloom Time: May to June Light : Partial Shade to Full Shade Uses: Mass planting, rain garden
	Aubrieta hybrida 'Axcent Blue' <i>Blue Axcent Rock Cress</i> \$6.97 Container: 1Gal	Size: 6"x12"	Bright bluish-purple flowers cover this rock cress hybrid all spring. They look beautiful spilling over containers or rock walls. They are evergreen and will spread to fill in an area about 1 foot around pretty quickly to choke out weeds. Bloom Time: Early spring - Early summer Light : Full Sun to Partial Shade Uses: Ground cover, massing, containers, borders
	Bellis perennis Bellissima™ Red <i>Red English Daisy</i> \$6.97 Container: 1Gal	Size: 8"x8"	English Daisies are biennials, but these will bloom the first year, and they self-sow readily in the same area. Cute double red button flowers will last well into summer with regular dead-heading. Bloom Time: April-July Light : Full Sun to Partial Shade Uses: Alpine or rock garden, border, containers, Edging, massed, cut flow
	Bellis perennis BELLISSIMA™ 'Rose' <i>Rose English Daisy</i> \$6.97 Container: 1Gal	Size: 8"x8"	English Daisies are biennials, but these will bloom the first year, and they self-sow readily in the same area. Cute double rosy-pink button flowers will last well into summer with regular dead-heading. Bloom Time: April-July Light : Full Sun to Partial Shade Uses: Alpine or rock garden, border, containers, Edging, massed, cut flow
	Berberis thunbergii 'Admiration' <i>Admiration Barberry</i> \$6.97 Container: 1Gal	Size: 2'x2'	Admiration deserves its name. This barberry forms a nice, compact 2' tall and wide mound of orangish-red leaves edged with yellow, really pretty. It's a great way to add bright color to a small space from spring through fall! Bloom Time: April-May Light : Full Sun to Partial Shade Uses: Borders, hedges, mixed gardens
	Berberis thunbergii 'Concorde' <i>Concorde Dwarf Barberry</i> \$6.97 Container: 1Gal	Size: 18-24"x18-2"	A versatile low profile red-leafed barberry adaptable to many garden needs. An excellent mixed border plant to add foliage color. Also usefull as a green color alternative for a small hedge. Use in Japanese garden designs near water features, or in wild, natural areas of your garden. Group this barberry with bright yellow and gold contrasting shrubs of Juniper, Barberry and Forsythia. Pink blooming Roses, Sunrose and Peony complement the summer and fall foliage. Bloom Time: April-May Light : Full Sun to Partial Shade Uses: Borders, hedges, mixed gardens
	Berberis thunbergii 'Golden Rocket' <i>Golden Rocket Barberry</i> \$6.97 Container: 1Gal	Size: 5'x2'	This is one barberry that you will not miss! Everything about it stands out. Bright golden foliage lights up the garden. It looks especially stunning against the coral colored stems. And the branches grow almost straight up like a pillar, or a rocket! The overall shape is a tall, narrow plant reaching for the sky. Finally, bright red berries in fall finish off the season nicely. Bloom Time: spring Light : Full Sun to Partial Shade Uses: Hedge, privacy, specimen,
	Berberis thunbergii 'Rosy Glow' <i>Rosy Glow Barberry</i> \$6.97 Container: 1Gal	Size: 3-6'x4-7'	Rosy Glow is one of the most striking of the barberries. It's leaves are not just burgundy, but they are red and purple and crimson and pink, with streaks and stripes mixing it all together. And the red stems are almost as colorful as the leaves. The yellow flowers in spring are nice, but unnecessary, as the leaves are the star of this plant. Watch out for the thorns when pruning, but they do make this a great choice for deer resistance. Bloom Time: April-May Light : Full Sun Uses: Specimen, hedge, borders
	Betula pendula 'Trost's Dwarf' <i>Trost's Dwarf Birch</i> \$6.97 Container: 1Gal	Size: 4'x4'	These dwarf birch trees have such pretty, lacy leaves, they almost look like a dwarf Japanese maple! Light green finely divided leaves that make the tree look fluffy from a distance. This is a true dwarf, growing to about 3' tall and wide. Bloom Time: Spring Light : Full Sun to Partial Shade Uses: Specimen

	Botanical Name	Common Name	Description
	Blechnum spicant <i>Deer Fern</i> \$6.97 Container: 1Gal		Deer ferns are a northwest native. They are perfect for shady spots. Two kinds of fronds give this fern some pizzazz. A nice, stately mound of sterile fronds are topped with wispy fertile fronds that sway in the wind. This evergreen beauty is also deer resistant! Size: 2'x2' Bloom Time: None Light : Partial Shade to Full Shade Uses: Accent, woodland garden, shade
	Brunnera macrophylla 'Jack Frost' <i>Siberian Bugloss</i> \$12.97 Container: 1Gal		Bugloss, or Brunnera as they are botanically known, are beloved for their large heart-shaped leaves and sprays of forget-me-not flowers in spring. This Jack Frost variety is extra special and beautiful all year long because the leaves are bright silver with mint-green veins and edges, making them seem like flowers themselves. This is a choice collector's plant, but it is also easy to grow. Although a shade plant, Jack Frost can handle direct sun in the Puget Sound area. Size: 16"x18" Bloom Time: Mid-late spring Light : Partial Shade to Full Shade Uses: Mass planting, rock garden, accent, cut flowers, specimen, attracts
	Calamagrostis acutiflora 'Avalanche' <i>Avalanche Feather Reed Grass</i> \$6.97 Container: 1Gal		Avalanche is a variegated form of the beloved Karl Foerster feather reed grass. It gives a magnificent display of wheat-like seed heads that appear in summer and last into winter. It makes a great backdrop behind smaller perennials, or mixed in with taller ones. It will slowly spread to about 2-3 feet wide and stay in one place, not reseeding. Best in full sun. It can get floppy if it has too much shade. It can grow in moist soil. Size: 4-6'x3' Bloom Time: Early summer-mid fall Light : Full Sun to Partial Shade Uses: Specimen, back of borders, containers
	Calamagrostis acutiflora 'Karl Foerster' <i>Feather Reed Grass</i> \$6.97 Container: 1Gal		Karl Foerster feather reed grass was the Perennial Plant of the Year in 2001. It gives a magnificent display of wheat-like seed heads that appear in summer and last into winter. It makes a great backdrop behind smaller perennials, or mixed in with taller ones. It will slowly spread to about 2-3 feet wide and stay in one place, not reseeding. Best in full sun. It can get floppy if it has too much shade. Size: 4-6'x3' Bloom Time: Early summer-mid fall Light : Full Sun to Partial Shade Uses: Specimen, back of borders, containers
	Campanula glomerata 'Superba' <i>Superba Bellflower</i> \$6.97 Container: 1Gal		Bellflowers are super popular, beautiful summer blooming perennials. Superba forms a lush mound of large green leaves that, in summer, is topped by tall stems of large, beautiful clusters of purple flowers. The plants will quickly fill out to 2 feet or more wide. Size: 2'x2' Bloom Time: Early to mid summer Light : Full Sun to Partial Shade Uses: Accent, border, cut flower, mass planting, woodland garden
	Cercidiphyllum japonicum <i>Katsura Tree</i> \$6.97 Container: 1Gal		The Katsura is one of the most ornamental of ornamental trees. It naturally grows into a rounded form, the leaves are also rounded, and they may have a bronze tint in early spring. Spectacular fall color of brilliant red, apricot and yellow leaves. The fall leaves also produce a sweet fragrance that will fill your yard. Size: 70'x50' Bloom Time: Light : Full Sun to Partial Shade Uses: Specimen
	Cercis canadensis <i>Eastern Redbud</i> \$6.97 Container: 1Gal		The Eastern Redbud is one of the beauties of spring. The flowers may emerge as early as March, though April is more typical. Bright, showy purplish-pink flowers cover this small tree for a few weeks until the flowers give way to bright green leaves. Suitable for a lawn tree or as a specimen in the garden. The flowers of the Eastern Redbud are edible! Remove the stamen first, and enjoy a sweet taste, similar to sweet peas! Size: 20'x20' Bloom Time: Late winter to early spring Light : Full Sun to Partial Shade Uses: Lawn tree, patio tree
	Chaenomeles japonica 'Cameo' <i>Cameo Flowering Quince</i> \$6.97 Container: 1Gal		Cameo is a favorite of the flowering quince, all of which are among the earliest blooming plants. Flowers usually arrive in early March. Cameo flowers are doubled, a refreshing coral-apricot that come before the leaves and stay for several weeks. Cameo is a profuse bloomer. Although flowering quinces like Cameo produce edible fruit, they are rather bitter, so are better used in jellies than as whole fruits. Size: 4'x6' Bloom Time: Late winter/Early spring Light : Full Sun to Partial Shade Uses: Specimen, hedge, border

	Botanical Name	Common Name	Description
	Chaenomeles japonica 'Texas Scarlet'	<i>Texas Scarlet Flowering Quince</i>	Texas Scarlet flowering quince is an attractive option for a protective hedge. Thorns will keep out intruders and wildlife. Texas Scarlet stays relatively small, reaching 3-4' in height, maybe a foot wider than tall. The flowers bloom in early spring, from March to April with scarlet red or watermelon red.
	\$6.97	Container: 1Gal	
	Size: 4x5'	Bloom Time: March to April	Light : Full Sun to Partial Shade
			Uses: Hedge, specimen
	Chaenomeles japonica 'Toyo Nishiki'	<i>Toyo Nishiki Flowering Quince</i>	Toyo Nishiki is our favorite flowering quince. Nishiki is a Japanese word that means 3 colors. The flowers of this beautiful plant can be white, pink, and red all at the same time! It is breathtaking! The flowers bloom slightly later than other quince, stretching into late April. The thorns make this a great protective hedge.
	\$15.97	Container: 2Gal	
	Size: 6x6'	Bloom Time: Mar or April	Light : Full Sun to Partial Shade
			Uses: protective hedge, specimen
	Clematis 'Asao'	<i>Asao Clematis</i>	A showy, early flowering, compact clematis perfect for small spaces, patios and containers. Masses of very large single flowers with deep pink petals that fade to white towards a yellow center bloom in late spring to early summer. May produce a second flush again in late summer to early fall. Deciduous.
	\$13.97	Container: 1Gal	
	Size: 6-10'x2'	Bloom Time: Pink	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Dr. Ruppel'	<i>Dr. Ruppel Clematis</i>	Dr. Ruppel flowers are 6-8" in diameter, colored an orchid purple with a darker fuschia stripe down the middle of each petal. It is one of the best striped clematis and is a very strong grower. It is Group 2 clematis, so it blooms once in late spring for a few weeks and then again in late summer for a few more weeks.
	\$13.97	Container: 1Gal	
	Size: 10'x2'	Bloom Time: Late spring and late summer	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Duchess of Edinburgh'	<i>Clematis 'Duchess of Edinburgh'</i>	Duccess of Edinburgh graces its vine with fine lovely double white petals. The sparkling white blossoms open in May and June, the reappear in September. Flowers are 4-6" across. Keep roots shaded and flowers in full sun for best effect.
	\$13.97	Container: 1Gal	
	Size: 9'x3'	Bloom Time: Late spring to early summer	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Ernest Markham'	<i>Clematis 'Ernest Markham'</i>	Ernest Markahm is a vigorous, late-flowering clematis with abundant flowers in summer. Blossoms are rich magenta, 4-6 inches across. Keep the roots shaded and flowers in full sun for best effect. Typically blooms sparsely in June-July, but then masses of slowers appear in August-October. One of the easiest clematis to grow.
	\$13.97	Container: 1Gal	
	Size: 12'x3'	Bloom Time: Summer	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Haku Ookan'	<i>Haku Ookan Clematis</i>	Large semi-double Purple-plum flowers are 6-8 inches across! Use group 2 (optional light pruning after flowering) method of pruning. Typically blooms in mid spring and again in fall.
	\$13.97	Container: 1Gal	
	Size: 10'x2'	Bloom Time: Spring, Summer, Fall	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Henryi'	<i>Henryi Clematis</i>	White flowers have a slight lavender tint.
	\$13.97	Container: 1Gal	
	Size: 6-10'x2-3'	Bloom Time:	Light : Full Sun to Partial Shade
			Uses: Containers, attracts butterflies and hummingbirds

	Botanical Name	Common Name	Description
	Clematis 'Huldine' <i>Huldine Clematis</i>		Huldine is a repeat bloomer, blooming over and over again from July through October with masses of 4" white flowers. \$13.97 Container: 1Gal Size: 12'x4' Bloom Time: July through October Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Jackmanii Superba' <i>Jacmanii Superba Clematis</i>		At a distance, Jackmanii Superba appears to have pure purple flowers. Up close, however, you will see there is a faint stripe of lighter purple or reddish purple in the center of each petal. Jackmanii Superba blooms in late spring and again in early autumn, possibly as late as October. \$13.97 Container: 1Gal Size: 12'x3' Bloom Time: Group 3: Blooms in late spring and early fall Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Lincoln Star' <i>Lincoln Star Clematis</i>		6" flowers are raspberry pink with a light pink to white edge \$13.97 Container: 1Gal Size: 8-10'x2-3' Bloom Time: Spring, summer, fall Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Little Mermaid' <i>Little Mermaid Clematis</i>		Little Mermaid is a special clematis because its coral flowers are a rarity among clematis. \$13.97 Container: 1Gal Size: 6-8'x2-3' Bloom Time: Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Mrs. N. Thompson' <i>Clematis 'Mrs. N. Thompson'</i>		The commanding color of Mrs. N. Thompson demands attention. Flowers are deep blue red petals with a scarlet central bar up each petal. She blooms in May and June, and then again in September. The large flowers are 4-6". Keep the roots in the shade and the flowers in the sun for best effect. \$13.97 Container: 1Gal Size: 6'x3' Bloom Time: Late spring to Early Fall Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Multi Blue' <i>Multi Blue Clematis</i>		Multi-blue sports fully double blue-violet flowers 4-5" across in late spring, usually late May to early June. The second wave of blooms in September are usually single or semi-double flowers. The flowers can start out double and change to single as they age, giving wondrous variety! This is a pruning group 2 clematis. \$13.97 Container: 1Gal Size: 10'x2' Bloom Time: Late spring, early fall Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Nelly Moser' <i>Clematis 'Nelly Moser'</i>		Nellie Moser is easy to grow and produces large, flat flower that span 6-8" in diameter. The blooms are white with gleaming lilac bars on each petal. Her main bloom season is May-June, with a second, smaller bloom in mid-August. Keep the roots in the shade and the flowers in the sun for best effect. \$13.97 Container: 1Gal Size: 8'x3' Bloom Time: May-June, August Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Niobe' <i>Niobe Clematis</i>		Niobe flowers are a deep dark ruby red, with golden yellow stamens that contrast nicely. The flowers are large, 5-7" and slightly fragrant. Red flowers in clematis is unusual, and Niobe is one of the best. Niobe blooms twice, first in early summer and again at the end of summer for a few weeks. Keep the base of the plant in full shade and the top can be in full sun. \$13.97 Container: 1Gal Size: 10'x6' Bloom Time: Mid spring, early fall Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Pamina' <i>Pamina Clematis</i>		Flowers are deep plum with white margins, a stunning display! \$13.97 Container: 1Gal Size: 8-10'x2-3' Bloom Time: May, October Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds

	Botanical Name	Common Name	Description
	Clematis 'Pink Champagne' <i>Pink Champagne Clematis</i> \$13.97 Container: 1Gal		6-8" flowers are vivid magenta with paler mauve stripes and creamy yellow centers. Main bloom in mid May to June, followed by a fall bloom in September. This is a pruning group 2 clematis Size: 10'x2' Bloom Time: May, August Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Proteus' <i>Proteus Clematis</i> \$13.97 Container: 1Gal		Fully double, lilac pink to mauve, star shaped flowers are amazing! These flowers can get 6-8" across, too! Blooms appear in late May and again in late August. Group 2 pruning method. Size: 10'x2' Bloom Time: Late May-June; late August-September Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Rhapsody' <i>Rhapsody Clematis</i> \$13.97 Container: 1Gal		5-7" flowers are sapphire blue that deepen as they age. Creamy yellow centers contrast nicely. These bloom profusely from June to September, and the later flowers will be smaller than the earlier ones. This is a group 3 clematis. Size: 10'x2' Bloom Time: Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'The President' <i>The President Clematis</i> \$13.97 Container: 1Gal		At a distance, The President appears to have pure purple flowers. Up close, however, you will see there are shades of lighter purple in the center and darker purple edges, with a little bluish tint mixed in. The President blooms in late spring and again in early autumn, possibly as late as October. Size: 12'x3' Bloom Time: Late spring and late summer Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Clematis 'Warsaw Nike' <i>Warsaw Nike Clematis</i> \$13.97 Container: 1Gal		Warsaw Nike is also called Midnight Showers. A fitting name as the flowers are a dark reddish-violet with golden centers. The flowers get to 5-6" across, and they have a velvety texture. This one is more tolerant of shady sites than other varieties. It is a group 2 clematis, blooming in June-July and again in September to October. Size: 10'x2' Bloom Time: June-July; Sept-Oct Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
	Coreopsis grandiflora 'Sunfire' <i>Sunfire Coreopsis</i> \$6.97 Container: 1Gal		Sunfire is a bushy form of coreopsis. The foliage is a mound of leathery green leaves. Sunfire is loaded with tons of flowers from early June until late October. The bright, golden flowers have a burgundy center. Great for borders or containers Size: 18"x18" Bloom Time: Early summer to early fall Light : Full Sun Uses: Border, containers, cut flower, accent, butterflies, deer resistant, ma
	Coreopsis verticillata 'Moonbeam' <i>Moonbeam COREOPSIS</i> \$6.97 Container: 1Gal		Moonbeam is another great coreopsis plant, with beautiful foliage in spring that is topped - covered, really - with creamy yellow daisy-like flowers from early June right on through to fall, often lasting well into October. Butterflies go nuts over these flowers, and the honeybees like them, too! Moonbeam is tolerant of hot, dry sites, once established. Size: 2'x2' Bloom Time: June to September Light : Full Sun Uses: Cut flowers, edging, sunny border, containers, mass plantings
	Cornus alba 'Bailhalo' <i>Ivory Halo® Dogwood</i> \$6.97 Container: 1Gal		A more compact version of the variegated red twig dogwood, Ivory Halo has beautiful green and ivory variegated leaves and brilliant red stems in winter. It grows as a compact, dense hedge, reaching about 4 to 5 feet tall and wide. It maintains a nice, neat rounded form with very little pruning. You can use this in mass or as a low hedge. Size: 4-5'x4-5' Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Hedge, mass planting, specimen, attracts birds, rain garden
	Cornus alba 'Bud's Yellow' <i>Yellowtwig Dogwood</i> \$6.97 Container: 1Gal		Bud's Yellow is a great all-around plant. It grows densely with dark green leaves to about 8' tall and 7' wide. It stays dense from top to bottom, so makes a good hedge. Its leaves turn bright yellow in fall, and then when winter comes the bright yellow stems are attention grabbing all throughout winter. There is a small white bloom in late spring. Size: 8'x7' Bloom Time: Late spring Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, hedge

	Botanical Name	Common Name	Description
	Cornus alba 'Elegantissima' <i>Variiegated Red Twig Dogwood</i> \$6.97 Container: 1Gal		Cornus alba 'Elegantissima' is a work-horse shrub, giving a great deal for the little it asks in the way of care and attention. In the spring, bright gray-green leaves emerge with a wide, irregular margin of pure white. This variegation remains vibrant and does not fade during summer. In autumn the display changes to gold, apricot and rose-red. Once the leaves have dropped in late fall, its vibrant red stems are revealed, adding interest to the winter scene.
	Size: 6'x6'	Bloom Time:	Light : Full Sun to Partial Shade Uses: Winter color, hedge, specimen
	Cornus kousa 'Beni Fuji' <i>Beni Fuji Chinese Dogwood</i> \$27.00 Container: 3 Gal		Beni Fuji is smaller than Satomi, with beautiful pink-red flowers in summer. It grows naturally as a bush, but can be trained to grow as a tree, too. This is one of the deepest pink Chinese dogwoods, with lots of flexibility!
	Size: 15'x12'	Bloom Time: Summer	Light : Full Sun to Partial Shade Uses: Specimen
	Cornus sericea 'Baileyi' <i>Baileyi Red Twig Dogwood</i> \$6.97 Container: 1Gal		The Bailey Red Twig Dogwood is the classic with stunningly bright red stems in winter months. Dark green leaves appear in spring and the stems fade to more of a burgundy red, which makes a beautiful contrast with the green. This plant can grow almost anywhere - wet, dry, sandy, clay. White flowers are nice, and they are replaced in late summer with white berries that are also nice. Plant this where nothing else grows.
	Size: 10'x10'	Bloom Time:	Light : Full Sun to Partial Shade Uses: Hedge, specimen, winter interest, attracts birds
	Corylus avellana contorta <i>Harry Lauder's Walking Stick</i> \$22.00 Container: 1Gal		Harry Lauder's Walking Stick, also known as contorted filbert or corkscrew hazelnut, is one of the most unusual plants you will ever see. Its twisting and spiraling branches are almost mesmerizing. The leaves are nice, and put on a decent fall display of yellow that lasts longer than most. But it is the crazy branches, most visible in winter, that make this a Plant of Merit, and a favorite of many gardeners.
	Size: 8'x8'	Bloom Time: April	Light : Full Sun to Partial Shade Uses: Specimen
	Cotinus coggygria 'Royal Purple' <i>Royal Purple Smokebush</i> \$8.97 Container: 1Gal		Royal Purple is a compact, purple-leaved smokebush. The flowers are not so noticeable, but as they fade the plant forms billowy "smoke-like" puffs from the flowers that last throughout the summer.
	Size: 10'x15'	Bloom Time: May to July	Light : Full Sun Uses: Specimen, hedge
	Cotinus coggygria 'Royal Purple' <i>Royal Purple Smokebush</i> \$6.97 Container: 1Gal		Royal Purple is a compact, purple-leaved smokebush. The flowers are not so noticeable, but as they fade the plant forms billowy "smoke-like" puffs from the flowers that last throughout the summer.
	Size: 10'x15'	Bloom Time: May to July	Light : Full Sun Uses: Specimen, hedge
	Cytisus x praecox 'Hollandia' <i>Holland Broom</i> \$6.97 Container: 1Gal		Holland Broom is a stunning, beautiful shrub. Long sprays of lovely, fragrant pea-like flowers are shades of rose-pink. The dense, green foliage makes a nice architectural addition. It can grow to 5' tall and wide, but you can easily keep these pruned back to just 2' tall and wide. This one thrives in poor soils, especially rocky or sandy ones.
	Size: 5'x6'	Bloom Time: Mid to late spring	Light : Full Sun Uses: Evergreen, Border, Container, mass planting, urban garden, good f
	Delosperma ashtonii 'Blut' <i>Hardy Ice Plant</i> \$6.97 Container: 1Gal		Hardy ice plants come from the mountains of South Africa, and they grow well in our mild winter climate. This variety has bright purple flowers all summer long and it will definitely brighten up your rock garden, container, border or flower bed. Ice plants make great ground covers. They form mats of evergreen foliage that will choke out weeds and look nice all year long. These take no effort to grow, need almost no water and grow and spread quickly.
	Size: 4"x8"	Bloom Time: Early to late summer	Light : Full Sun Uses: Ground cover, rock gardens, xeriscaping, edging. Attracts butterfly

	Botanical Name	Common Name	Description
	Delosperma 'Fire Spinner' <i>Fire Spinner® Ice Plant</i> \$6.97 Container: 1Gal		This amazing flower was discovered in the wilds of South Africa's East Cape at 6,000' and brought to the US. It is a 2012 Plant Select Winner, and it will definitely brighten up your rock garden, container, border or flower bed. Ice plants make great ground covers. They form mats of evergreen foliage that will choke out weeds and look nice all year long. It will spread to cover 2 feet in 2 years. It is covered in magenta and orange blooms from late spring to early summer, and will continue to bloom right into fall. They prefer full sun and well drained soil. Very drought tolerant. Fire spinner will attract butterflies, too!
	Size: 2'x24"	Bloom Time: Late spring to mid fall	Light : Full Sun Uses: Ground cover, rock gardens, xeriscaping, edging. Attracts butterfly
	Delosperma floribundum STARBURST® <i>Starburst Hardy Ice Plant</i> \$6.97 Container: 1Gal		Hardy ice plants come from the mountains of South Africa, and they grow well in our mild winter climate. This variety has bright purple flowers all summer long and it will definitely brighten up your rock garden, container, border or flower bed. Ice plants make great ground covers. They form mats of evergreen foliage that will choke out weeds and look nice all year long. These take no effort to grow, need almost no water and grow and spread quickly.
	Size: 4'x12"	Bloom Time: Early to late summer	Light : Full Sun Uses: Ground cover, rock gardens, xeriscaping, edging. Attracts butterfly
	Delosperma nubigenum <i>Yellow Ice Plant</i> \$6.97 Container: 1Gal		Hardy ice plants come from the mountains of South Africa, and they grow well in our mild winter climate. This variety has bright yellow flowers all summer long and it will definitely brighten up your rock garden, container, border or flower bed. Ice plants make great ground covers. They form mats of evergreen foliage that will choke out weeds and look nice all year long. These take no effort to grow, need almost no water and grow and spread quickly.
	Size: 4'x8"	Bloom Time: Early to late summer	Light : Full Sun Uses: Ground cover, rock gardens, xeriscaping, edging. Attracts butterfly
	Dianthus gratianopolitanus 'Fire Witch' <i>Fire Witch Dianthus</i> \$6.97 Container: 1Gal		Fire Witch is so named because the flowers have jagged edges like flames of fire. The bright pink flowers are fragrant and really look fantastic against the silvery blue foliage. The flowering is heaviest in spring, but Fire Witch will repeat bloom throughout the summer and early fall.
	Size: 12'x12"	Bloom Time: Spring, summer, into fall	Light : Full Sun Uses: Containers, borders, edging, mass planting, rock gardens
	Dianthus STAR 'Noreen' <i>Peppermint Star Dianthus</i> \$6.97 Container: 1Gal		Fragrant flowers are pink with a red center! Silver green foliage is evergreen, beautiful year round.
	Size: 6'x12"	Bloom Time: Mid spring to mid summer	Light : Full Sun Uses: Containers, borders, edging, mass planting, rock gardens
	Dicentra spectabilis 'Alba' <i>Old-fashioned Bleedingheart</i> \$6.97 Container: 1Gal		Similar to the traditional bleeding heart, but with pure white flowers! Grows best in rich, moist soil with partial shade. The flowers hang like lockets, dangling from arching stems in late spring and early summer.
	Size: 3'x3'	Bloom Time: Late spring-early summer	Light : Partial Shade Uses: Border, containers, cut flowers, specimen, woodland garden, rain g
	Dicentra spectabilis 'Rosea' <i>Rosea Bleeding Heart</i> \$6.97 Container: 1Gal		Old-fashioned Bleeding Hearts are one of the most popular of all old-fashioned or heirloom plants. Plants form a bushy mound of up to 3 feet in height and spread. The leaves have a somewhat ferny appearance. Dangling bright-pink flowers hang down from arching stems. The flowers look just like pink heart lockets. You can shear these down to 6" after blooming to freshen up the foliage. Grow these in containers or in the yard, but keep them nearby so you can enjoy cut flowers in your home, too!
	Size: 3'x3'	Bloom Time: Late spring-early summer	Light : Partial Shade Uses: Border, containers, cut flowers, specimen, woodland garden, rain g
	Euonymus alata 'Chicago Fire' <i>Chicago Fire Burning Bush</i> \$6.97 Container: 1Gal		The dwarf burning bush makes a great addition to the landscape. It is ideal as a border plant, though it can also be used in hedges or as a specimen plant. There's not much of a flower to speak of. They are grown for their beautiful foliage, which looks nice and graceful throughout the spring and summer. However, it is in the fall when the "burning bush" is set on fire. Its leaves turn an extraordinarily brilliant shade of red that lasts until leaf drop.
	Size: 4'x4'	Bloom Time:	Light : Full Sun to Partial Shade Uses: Hedge, specimen, foundation

	Botanical Name	Common Name	Description
	Euonymus fortunei 'Emerald Gaiety' <i>Emerald Gaiety Euonymus</i> \$6.97 Container: 1Gal	Size: 4'x4'	'Emerald Gaiety' is a variegated, shrubby euonymus with a spreading habit that typically grows to 3-5' tall over time. It is erect and densely branched, featuring rounded glossy deep emerald green leaves (to 1 3/4" diameter) with attractive irregular creamy white margins. The white margins may turn bright pink as winter approaches. Inconspicuous, greenish-white flowers may appear in June. 'Emerald Gaiety' is a versatile plant that can be used in foundations, as a low hedge, as a specimen, in mass plantings and it can even be trained to climb. Bloom Time: June Light : Full Sun to Partial Shade Uses: Low hedging, edging, containers, borders
	Euonymus fortunei 'Emerald N Gold' <i>Emerald n Gold Euonymus</i> \$6.97 Container: 1Gal	Size: 2'x3'	Emerald 'n' Gold euonymus shrubs are typically pruned to about 3 feet tall by 4 feet wide. The trademark of Emerald 'n' Gold euonymus shrubs is their variegated foliage – green on the inside, golden on the outside. A touch of pink may come into the leaves in fall or winter. They prefer well-drained soils. They are not fussy about sun, but will look best in full-sun. These plants are so versatile they can be used as ground cover, for erosion control, as foundation plants, or even as a low hedge. They are also showy enough to be specimen plants. Bloom Time: June Light : Full Sun to Partial Shade Uses: Low hedging, edging, containers, borders
	Euphorbia 'Blackbird' <i>Blackbird Euphorbia</i> \$6.97 Container: 1Gal	Size: 2'x2'	Blackbird is a stunner year-round. It's leaves are deep dark red with tinges of green and bronze mixed in. In full sun it will turn almost black. In fall the foliage turns a brighter red and in winter the leaves turn nearly black until spring. From March to May the plant is topped with 6" tall plumes of bright yellow flower heads. Cut back the foliage after flowering to encourage new growth. Use as a specimen in the garden, as edging, or in patio containers. Bloom Time: March-May Light : Full Sun Uses: Specimen, edging, containers
	Festuca glauca 'Elijah Blue' <i>Elijah Blue Fescue</i> \$6.97 Container: 1Gal	Size: 10"x12"	Elijah Blue is the most popular variety of blue fescue. The blades keep their blue color well, even in hot summers and cold wet winters. In our mild winters they are evergreen, though sheering them back in late winter will keep them clean and ready for spring. Bloom Time: Late spring to early summer Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, edging, mass planting
	Forsythia x intermedia 'Lynwood Gold' <i>Lynwood Gold Forsythia</i> \$6.97 Container: 1Gal	Size: 8'x8'	Forsythias are valued for their early season floral displays. When the rest of the yard is still thinking about waking up from winter, Forsythia is on the scene with a brilliant profusion of bright yellow flowers. This can happen as early as the end of February and usually lasts about 3 weeks. Lynwood Gold has long been held as one of the best of the Forsythias, with its larger yellow flowers that grow up the entire length of most branches. Bloom Time: Late winter/Early spring Light : Full Sun to Partial Shade Uses: Specimen, hedge, early spring color
	Fothergilla gardenii 'Blue Mist' <i>Blue Mist Fothergilla</i> \$6.97 Container: 1Gal	Size: 3'x3'	Fothergillas are beautiful plants. In spring the white bottle-brush flowers, unwilling to share the stage, pop out before the leaves in all their honey-scented glory. As the flowers fade, the silvery-blue leaves march out. These leaves are wavy on the edges and the blue is really nice! In fall the leaves turn some stunning shades of yellow, orange and red, putting on quite a show! Bloom Time: Spring Light : Full Sun to Partial Shade Uses: Specimen, accent, shrub border, informal hedge.
	Genista Lydia <i>Lydia Broom</i> \$6.97 Container: 1Gal	Size: 2'x3'	Genista Lydia is part of the broom genus of plants. It has an elegant style with it's long thin stems and compact habit. Lydia makes a huge impact in late May/early June, when it is completely covered with bright yellow flowers for several weeks. It is a dwarf shrub that is drought tolerant. Prune after it blooms to keep it in a tight, compact form. Bloom Time: Late spring to early summer Light : Full Sun Uses: Edging, border, accent, mass plantings, architectural interest
	Geranium 'Dragon Heart' <i>Dragon Heart Cranesbill</i> \$6.97 Container: 1Gal	Size: 2'x3'	This is a really spectacular hybrid geranium with 2" wide magenta-purple flowers with a dark, nearly-black eye. The flowers emerge in late spring and will often last until late summer in our Puget Sound climate. Bloom Time: Late spring to late summer Light : Uses: Edging, rock gardens, containers, attracts butterflies

	Botanical Name	Common Name	Description
	Geranium pratense 'Midnight Blues' <i>Midnight Blues Hardy Geranium</i> \$6.97 Container: 1Gal		
	Size:	Bloom Time:	Light : Uses:
	Geum chiloense 'Lady Strathenden' <i>Lady Strathenden Geum</i> \$6.97 Container: 1Gal	Lady Strathenden is a classic cottage garden plant. She has brightest yellow flowers that often show up as early as May, and will last through the summer into August. If you deadhead the spent blooms you may see continue reblooming all the way into October! The Lady is super easy to grow and always reliable, too! She's even evergreen in our mild winters!	
	Size: 2 1/2' x 18"	Bloom Time: Late spring to late summer	Light : Full Sun to Partial Shade Uses: Accent, border, containers, butterflies, evergreen, cut flowers
	Geum chiloense 'Mrs. Bradshaw' <i>Mrs. Bradshaw Geum</i> \$6.97 Container: 1Gal	Add a splash of color all summer long with Mrs. Bradshaw geum. She will start to bloom in late May, and she just keeps right on blooming until late September, even October. She stands taller than she is wide, often reaching more than 2 1/2 feet tall, but only about a foot to 18 inches wide.	
	Size: 30"x18"	Bloom Time: Late spring to late summer	Light : Full Sun to Partial Shade Uses: Accent, butterflies, border, containers, cut flower, mass plantings
	Geum 'Flames of Passion' <i>Flames of Passion Geum</i> \$6.97 Container: 1Gal	Flames of Passion is a repeat bloomer, giving you lovely flowers all summer long. The flowers are semi-double, scarlet red. These are best grown near the front of a border as a mass planting.	
	Size: 18"x18"	Bloom Time: Early to late summer	Light : Full Sun to Partial Shade Uses: Accent, Hummingbirds, butterflies, containers, border, cut flower
	Hamamelis x intermedia 'Arnold's Promise' <i>Arnold's Promise Witch Hazel</i> \$17.00 Container: 2Gal	Arnold Promise is a perfect plant for adding winter color. In February it provides a burst of color with its unusual flowers. These flowers are even more pronounced because they come before the leaves, and the branches are completely covered by bright colored flowers without anything else to obscure them. the flowers have slender ribbon-like petals, and Arnold Promise petals are a bright yellow. The eye of each flower has a bold dark red, making these flowers POP!	
	Size: 12"x12'	Bloom Time: Feb-March	Light : Full Sun to Partial Shade Uses: Specimen, accent
	Hamamelis x intermedia 'Diane' <i>Diane Witch Hazel</i> \$17.00 Container: 2Gal	Diane blooms starting in January and can last well into March. The flowers are red with orange tints, truly a beautiful contrast to other early bloomers like forsythia or yellow witch hazels.	
	Size: 12"x12'	Bloom Time: Jan-March	Light : Full Sun to Partial Shade Uses: Specimen, accent
	Helleborus 'Mardi Gras Mix' <i>Mardi Gras Hellebore</i> \$17.00 Container: 1Gal		
	Size:	Bloom Time:	Light : Uses:
	Helleborus orientalis 'Conny' <i>Conny Hellebore</i> \$17.00 Container: 1Gal		
	Size:	Bloom Time:	Light : Uses:

	Helleborus x lem. 'Madame Lemonnier'		
	<i>Madame Lemonnier Hellebore</i>		
	\$17.00	Container: 1Gal	
	Size:	Bloom Time:	Light : Uses:
	Hemerocallis 'Always Afternoon'		Always Afternoon has been lavished with all kinds of awards. Yellow buds open to multi-colored flowers that are rose on the petals, yellow in the middle and purple in between. A.A. is an early bloomer and will rebloom throughout the summer and into fall.
	<i>'Always Afternoon' Daylily</i>		
	\$6.97	Container: 1Gal	
	Size: 2'x2'	Bloom Time: Early, reblooming	Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Custard Candy'		Custard Candy is a premium daylily. It is a high-performance plant, especially in the flower department. Flowers are everything you want in a daylily - vibrant, profuse, big, and reblooming.
	<i>'Custard Candy' Daylily</i>		
	\$6.97	Container: 1Gal	
	Size: 2'x2'	Bloom Time: Summer, reblooms	Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Fooled Me'		Fooled Me is a high-performance daylily. It has awesome bloom performance, the flowers are vibrant and it is a vigorous plant. The flowers are golden yellow with a deep red eye and a deep red picotee edge to the petals.
	<i>Fooled Me Daylily</i>		
	\$6.97	Container: 1Gal	
	Size: 2'x2'	Bloom Time: Early midseason	Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Fragrant Returns'		Most daylilies are somewhat fragrant, but Fragrant Returns is a lot stronger and sweeter than most of them. Flowers last into the night sometimes. This one is also slightly smaller with thinner leaves, making it an excellent container choice.
	<i>Fragrant Returns Daylily</i>		
	\$6.97	Container: 1Gal	
	Size: 18"x18"	Bloom Time: Early to mid summer	Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders, containers

	Botanical Name	Common Name	Description
	Hemerocallis 'Happy Returns' <i>Happy Returns Daylily</i> \$6.97 Container: 1Gal	Size: 2'x3'	Happy Returns is a perfect yellow daylily. It is a lighter yellow than Stella d' Oro and the plant is a more traditional size. It blooms profusely with beautiful yellow flowers. It is a cold hardy, ever-blooming variety that will keep on producing yellow flowers from late spring to frost. She is best in full sun or light shade, planted en masse. Bloom Time: Summer-fall Light : Full Sun to Partial Shade Uses: Accents, rock gardens, mass plantings, containers, cut flowers, drou
	Hemerocallis 'Moonlit Masquerade' <i>Moonlit Masquerade Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Make no mistake, Moonlit Masquerade is a special daylily. It is one of the more beautiful, long bloming, vigorous and pest-resistant varieties you can find. The flowers are nearly white, but with a rich burgundy-red eye and green-yellow throat. It is an early/mid-season bloomer and will repeat bloom throughout the summer. The flowers are also edible. Bloom Time: Late spring/early summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'On and On' <i>On and On Daylily</i> \$6.97 Container: 1Gal	Size: 18"x18"	On and On loves to keep on blooming, on and on! The bloom season starts in late spring and lasts for several weeks. However, it will continue to rebloom after that the rest of the summer and even into fall. Unlike most daylilies, the baby pink flowers of On and On are slightly fragrant! This is a bit smaller variety of daylily, fitting more easily into smaller spaces or even containers. Bloom Time: Late spring to summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'South Seas' <i>South Seas Daylily</i> \$6.97 Container: 1Gal	Size: 2.5'x2'	South Seas flowers have been described as golden orange, peach, coral, salmon, or a combination of all of these. Whatever word you use to describe them, these flowers will surely stand out and make others take notice! Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Spiritual Corridor' <i>Spiritual Corridor Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	A softer tone of mauve lavender, cream and yellow flowers with really frilly edges and a soft but enjoyable fragrance. Bloom Time: Early to mid-summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Whimsical' <i>Whimsical Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Nice big blooms that are lavender with white stripes and a yellow eye make this a favorite at our nursery! Flowers are primarily in midsummer, but you may see some reblooming after that. The blossoms appear to be dusted with little diamonds, giving them a frosted or sparkly appearance. Bloom Time: Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hesperaloe parviflora <i>Red Yucca</i> \$6.97 Container: 1Gal	Size: 3'x3'	Red yucca is not a true yucca. However, it resembles its namesake in some ways. It has a deserty look to it, with long slender grass-like straps for leaves. Flowers rise up above the plant another 2 feet. These rose-pink flowers may bloom most of the year, though they are concentrated in early summer. Bloom Time: Most of the year Light : Full Sun Uses: Rock garden, accent, specimen
	Heuchera 'Circus' <i>Circus Coral Bells</i> \$6.97 Container: 1Gal	Size: 18"x18"	Beautiful shades of peach when the leaves first open, veined with red. The peach turns chartruese (a kind of green) as they mature, but the red veins remain, and a silver sheen is added. Hot pink bell flowers appear in summer. Great for containers and beds. Bloom Time: Late spring Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, cut flowers, edging, mass
	Heuchera 'Peppermint Spice' <i>Peppermint Spice Coral Bells</i> \$6.97 Container: 1Gal	Size: 24"x16"	Peppermint spice is a delightful coral bells, with mint green leaves that are veined dark red to purple to almost black at times. The leaves are extraordinary, and the deep rosy-pink flowers add a perfect dash of peppermint spice to the mix. One of the nicest coral bells around! Bloom Time: Late spring to mid summer Light : Partial Shade Uses: Specimen, mass plantings, border, edging, rock garden

	Botanical Name	Common Name	Description
	Heuchera villosa 'Kassandra' <i>Kassandra Coral Bells</i> \$6.97 Container: 1Gal	Size: 18"x18" Bloom Time: Late spring to early summer	Unusual coral bells with leaves of varying sizes and colors. The overall tone is caramel to orange, but each leaf is unlike its neighbors. It makes for a colorful display. It can take a bit more sun in our Puget sound region Light : Partial Shade to Full Shade Uses: Accent, alpine and rock gardens, borders, containers, edging, mass
	Hosta 'Blue Angel' <i>Blue Angel Hosta</i> \$6.97 Container: 1Gal	Size: 3'x5' Bloom Time: Summer	Blue Angel is noted for its large size and bluish leaves. All blue hostas are more slug-resistant than other varieties. The leaves of Blue Angel can be as wide as 18", and the plant, if given enough space, can span as much as 6 feet across and 3 feet high! It will grow best in shade or partial sun and is particularly nice when grown at the base of a small tree or large shrub. We particularly like hostas when clustered with other varieties. Light : Partial Shade to Full Shade Uses: Specimen, under trees, woodland gardens, massed with other varie
	Hosta 'Earth Angel' <i>Earth Angel Hosta</i> \$6.97 Container: 1Gal	Size: 3'x5' Bloom Time: Early summer	Earth Angel is a large hosta, often spreading to 5' wide and 3' tall, with the flowers rising another 12-18" above when in bloom. The leaves are thick, blue-green with yellow margins that are streaked. Light : Partial Shade Uses: Specimen, woodland garden, under trees, mass plantings
	Hosta 'Electrocution' <i>Electrocution Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'Eternal Flame' <i>Eternal Flame Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'First Frost' <i>First Frost Hosta</i> \$6.97 Container: 1Gal	Size: 18"x36" Bloom Time: Late summer	First Frost is a lovely variegated hosta with deep blue leaves edged with a wide margin of yellow. They are more slug resistant than many hostas, and they maintain their color very well. Light : Partial Shade to Full Shade Uses: Specimen, woodland garden, under trees, mass plantings
	Hosta fortunei 'Patriot' <i>Patriot Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'Great Expectations' <i>Great Expectations Hosta</i> \$6.97 Container: 1Gal	Size: 2'x4' Bloom Time: July	Great Expectations has thick, dense leaves colored yellow with blue-green. They are more resistant to slugs, like most blue hostas. To keep things interesting, the color of the leaf centers change throughout the season, starting out chartreuse and gradually paling to yellow, creamy yellow and eventually creamy white. The flowers bloom in July, masses of white flowers just above the foliage. Great Expectations does particularly well in mass plantings and borders, but do need a mostly shady environment. Light : Partial Shade to Full Shade Uses: Borders, specimen, mass plantings, under trees

	Botanical Name	Common Name	Description
	Hosta 'Island Breeze' <i>Island Breeze Hosta</i>	\$6.97 Container: 1Gal	Size: Bloom Time: Light : Uses:
	Hosta 'Little Sunspot' <i>Little Sunspot Hosta</i>	\$6.97 Container: 1Gal	Size: 12"x36" Bloom Time: Light : Partial Shade to Full Shade Uses:
	Hosta 'Night Before Christmas' <i>Night Before Christmas Hosta</i>	\$6.97 Container: 1Gal	Size: Bloom Time: Light : Uses:
	Hosta 'Revolution' <i>Revolution Hosta</i>	\$6.97 Container: 1Gal	Size: Bloom Time: Light : Uses:
	Hosta 'Stained Glass' <i>Stained Glass Hosta</i>	\$6.97 Container: 1Gal	Size: Bloom Time: Light : Uses:
	Hosta 'Sum and Substance' <i>Sum and Substance Hosta</i>	\$6.97 Container: 1Gal	Size: Bloom Time: Light : Uses:
	Hydrangea anomala petiolaris <i>Climbing Hydrangea</i>	\$20.97 Container: 2Gal	The beauty of a hydrangea on a climbing vine! Climbing hydrangeas are quite vigorous. They will typically cling to whatever you grow them on, reaching a length of as much as 50'! You can also grow it as a ground cover, and a single plant can spread to cover a 200 square foot area. Flowers emerge as flattened clusters, usually by mid-May. The flowers are fragrant and the floral display is spectacular. In winter, the bark is exfoliating, reddish brown, adding some winter interest. Size: 30'x5' Bloom Time: May to July Light : Partial Shade to Full Shade Uses: Climbing vine
	Hydrangea quercifolia 'Snow Queen' <i>Snow Queen Hydrangea</i>	\$6.97 Container: 1Gal	Snow Queen is an 'oak leaf' hydrangea, meaning the leaves look like the leaves of an oak tree. She has a regal appearance, for sure. Massive panicles of white flowers appear in late spring, usually late May, and will last into July or August. The leaves turn beautiful shades of bronze, maroon and purple in the fall! Size: 4'x6' Bloom Time: Late spring to mid summer Light : Full Sun to Partial Shade Uses: Specimen, border

	Botanical Name	Common Name	Description
	Hypericum Calycinum <i>St. John's Wort</i> \$6.97 Container: 1Gal	Size: 18"x6' Bloom Time: Early-Mid summer	This shrub makes a great ground cover that spreads by underground runners. Individual plants grow to between 6-9 inches, and produce bright yellow 3" flowers in early-mid summer. These plants will choke out all weeds. The dark green leaves turn bronze in fall. St. John's Wort is also excellent for edges along borders. Their consistent height provides a smooth, rounded texture that looks nice all year long. They are particularly useful for extreme slopes where erosion control is needed. Light : Full Sun to Partial Shade Uses: Ground cover, erosion control
	Hypericum calycinum 'Fiesta' <i>Variegated St. John's Wort</i> \$6.97 Container: 1Gal	Size: 18"x6' Bloom Time: Early-Mid summer	This shrub makes a great ground cover that spreads by underground runners. Individual plants grow to between 6-9 inches, and produce bright yellow 3" flowers in early-mid summer. These plants will choke out all weeds. The dark green and yellow leaves turn bronze in fall. St. John's Wort is also excellent for edges along borders. Their consistent height provides a smooth, rounded texture that looks nice all year long. They are particularly useful for extreme slopes where erosion control is needed. Light : Full Sun to Partial Shade Uses: Ground cover, erosion control
	Iberis sempervirens 'Purity' <i>'Purity' Candytuft</i> \$6.97 Container: 1Gal	Size: 8"x3' Bloom Time: Mid spring-Early summer	Candytuft is a spring-blooming favorite. It makes a beautiful, stunning ground cover, and is especially nice cascading over a wall or rock garden, or spilling over the edge of a container. The 'Purity' variety is known for profuse blooming of especially bright white flowers for a longer bloom period than most other candytufts. Candytuft is easy to care for. It is drought tolerant, once established. It can grow in full shade, but flowering will not be as strong. Candytuft makes a great neighbor with Lithodora and other blue flowering plants. Light : Full Sun to Partial Shade Uses: Rock garden, border, containers, edging, ground cover, massed
	Iris pallida 'Aureo-variegata' <i>Variegated Iris</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Jasminum officinale 'Fionas Sunrise' <i>Fionas Sunrise Jasmine</i> \$10.97 Container: 1Gal	Size: 10"x4' Bloom Time: Summer	Fionas Sunrise is a beauty! It can be grown as a climber or as a trailer/scrambler on the ground. The foliage is a lovely golden color that keeps well all season long. Flowers are white and very fragrant. As a climber, she pairs well with clematis, especially purple flowered varieties such as The President or Jackmanii. Light : Full Sun to Partial Shade Uses: Climbing vine, ground cover, informal hedge, fragrant flowers, attra
	Juniperus squamata 'Blue Star' <i>Blue Star Juniper</i> \$6.97 Container: 1Gal	Size: 3"x4' Bloom Time:	Blue Star is a slow-growing, dwarf evergreen shrub with beautiful silver-blue foliage. It grows to about 1 foot tall in 5 years, but will eventually reach 2-3' tall. It is easily grown in average, well-drained soils in full sun. It is somewhat drought-tolerant and is also deer resistant. Pruning is not needed. Light : Full Sun Uses: Specimen, borders, edging. Rock gardens when young. Also masse
	Kalmia latifolia 'Keepsake' <i>Keepsake Mountain Laurel</i> \$8.97 Container: 1Gal	Size: 4.5"x4.5' Bloom Time: Late spring, early summer	This mountain laurel has found a way to lengthen the bloom season by having buds that are almost as pretty as the flowers themselves! Raspeberry red buds last for several weeks before opening to dark reddish burgundy flowers edged with white. The floral display is amazing as every bit of the plant is covered in flowers! One more dash of beauty - the new foliage emerges a bright bronze-red before fading to green. Light : Uses: Specimen, hedge
	Kerria japonica 'Pleniflora' <i>Japanese Kerria</i> \$14.97 Container: 2Gal	Size: 5'x5' Bloom Time: Early to mid summer	Japanese Kerria is a very easy plant to grow. It will grow quickly and fill in a space of 4-6 feet in a couple seasons. It produces long arching branches that fill with bright yellow, or yellowish-orange 1-2" pompoms in mid summer. Once the main blooming season is done they will continue sporadic blooming the rest of the season until fall. They bloom brightest in full sun, but they also thrive in shady locations. You can grow these as specimen plants, or train them into hedges. Light : Full Sun to Partial Shade Uses:

Botanical Name	Common Name	Description
 Koelreuteria paniculata <i>Goldenrain Tree</i> \$6.97 Container: 1Gal		Golden rain tree is a fantastic medium-sized shade tree. It grows to 30-40' over many years, providing cooling shade in warm summer months. Leaves come out pinkish bronze in early spring before fading to green. Expect a nice yellow fall color, too. In summer, bright yellow flowers grow on chains 12" or more long. The name goldenrain comes from the fact the flowers rain down to the ground, covering it with a carpet of gold!
Size: 30'x30'	Bloom Time: June to July	Light: Full Sun Uses: Specimen, shade tree
 Laburnum anagyroides <i>Golden Chain Tree</i> \$6.97 Container: 1Gal		Do you want to make a huge, stunning impact of flowers in your yard in May? The Golden Chain Tree will knock your socks off with its profusion of flowers that hang down in "chains" 6 to 12 inches long. The whole tree is covered by these chains! Once the flowering is done the flowers fade and are replaced with bright green seed pods that continue the visual interest for several more weeks.
Size: 20'x15'	Bloom Time: Late spring-Early summer	Light: Full Sun to Partial Shade Uses: Specimen
 Lagerstroemia BARISTA™ 'Frappe Pink' <i>Frappe Pink Crape Myrtle</i> \$19.97 Container: 2Gal		A compact crapemyrtle, growing to just 2 1/2 to 3 feet tall and wide! Coral red buds open to pink flowers starting in late summer. Frappe Pink has the most flowers of any of the new crapemyrtles, really amazing! New growth comes out glossy deep red, striking against the dark green mature leaves.
Size: 2-3'x2-3'	Bloom Time: Late summer to early fall	Light: Full Sun Uses: Specimen
 Lamium maculatum 'Orchid Frost' <i>Creeping Lamium</i> \$6.97 Container: 1Gal		Creeping Lamium is a great choice for a tough yet showy groundcover. It spreads quickly and chokes out other weeds, even weeds that are already there. The small leaves are stunning blue-green covered with silver. Rose-pink flowers appear in spring and continue off and on all summer until fall. Once established it is drought-tolerant.
Size: 8"x24"	Bloom Time: Late spring to fall	Light: Uses: Ground cover, attracts butterflies, containers, mass planting, evergr
 Lavandula angustifolia 'Mini Blue' <i>Mini Blue Lavender</i> \$6.97 Container: 1Gal		Mini blue is a very compact form of the beloved English lavender, growing to only about 10-12 inches tall, and maybe 14 inches wide. It is great for containers as well as in the ground. It needs good drainage, can handle some shade, and will bloom all summer long.
Size: 12"x14"	Bloom Time: Early to late summer	Light: Full Sun to Partial Shade Uses: Fragrant, cut flowers, dried flowers, edging, borders, attracts bees a
 Lavandula angustifolium 'Twickle Purple' <i>Twickle Purple English Lavender</i> \$6.97 Container: 1Gal		Flowers are slightly reddish-purple, or plum colored.
Size: 18"x18"	Bloom Time: June to August	Light: Full Sun to Partial Shade Uses: Fragrant, cut flowers, dried flowers, edging, borders, attracts bees a
 Leucanthemum x superbum 'Alaska' <i>Alaska Shasta Daisy</i> \$6.97 Container: 1Gal		Shasta daisies are a must in any border garden. They are beautiful yet familiar. Alaska is the most popular shasta daisy. The flowers are large, single white flowers with yellow eyes. Great for cut flowers. They butterflies go nuts over these!
Size: 3'x2'	Bloom Time: Early summer to early fall	Light: Full Sun to Partial Shade Uses: Accent, border, containers, butterflies, mass planting
 Leucothoe SCARLETTA® 'Zeblid' <i>Scarlet Fetterbush</i> \$6.97 Container: 1Gal		Scarlet fetterbush is a great foliage plant for shadier spots. It can handle some sun and does well under trees where there is dappled sun. The green leaves are glossy and pretty, and the new growth is scarlet. White bell-shaped flowers in spring are nice, but the foliage is even better.
Size: 3'x3'	Bloom Time: Spring	Light: Partial Shade to Full Shade Uses: Hedge for shady spots

Botanical Name	Common Name	Description
 Liriodendron tulipifera <i>Tulip Tree</i> \$6.97 Container: 1Gal Size: 60'x30' Bloom Time: May to June Light : Full Sun Uses: Shade tree, specimen		The tulip tree is large stately tree. They grow slowly, reaching 60' in 30 years or more. The flowers are tulip-shaped, yellow with an orange band at the base of each petal.
 Lithodora diffusa 'White Star' <i>White Star Lithodora</i> \$6.97 Container: 1Gal Size: 6"x15" Bloom Time: Late spring to mid summer Light : Full Sun to Partial Shade Uses: Ground cover, around garden steps		White Star lithodora is similar to the popular Grace Ward, but each flower has a white star pattern with a blue outline. It spreads as a dark green mat that produces its first few flowers as early as March, but is really going to town blooming in May & June, continuing to bloom at sporadically all the way to first frost.
 Lonicera japonica 'Halliana' <i>Hall's Honeysuckle</i> \$10.97 Container: 1Gal Size: 20-30' Bloom Time: Late spring to mid summer Light : Full Sun Uses: Specimen, vine		Hall's is a fairly easy honeysuckle vine. The flowers are yellow and white and richly fragrant. The main blooming season is in late May, but it will usually rebloom throughout June and July as well. Once established Halliana will be quite drought-tolerant, needing very little water to maintain in the driest summers.
 Lonicera japonica 'Mint Crisp' <i>Mint Crisp honeysuckle</i> \$10.97 Container: 1Gal Size: 20-30' Bloom Time: Mid Summer - mid fall Light : Full Sun Uses: Specimen, vine		Year round beauty sets this honeysuckle apart! The variegated foliage is green with cream speckling, plus touches of pink in winter! The flowers open pure white, then maturing to cream and then yellow. Super fragrant, long lasting, this one is a winner!
 Lonicera nitida 'Baggesen's Gold' <i>Baggesen's Gold Box Honeysuckle</i> \$6.97 Container: 1Gal Size: 5'x5' Bloom Time: Late spring-early summer Light : Full Sun to Partial Shade Uses: border, accent, mass planting, salt tolerant, low hedge		Baggesen's Gold adds a burst of sunshine to the garden all year long, with its tiny, evergreen leaves on arching branches. The leaves are bright gold in sun or chartreuse in shade. You can use this to replace a dwarf boxwood. He can grow in most soil conditions, requires little care. Although grown primarily for the foliage, the sporadic flowers are sometimes fragrant.
 Lonicera nitida 'Red Tip' <i>Red Tip Box Honeysuckle</i> \$6.97 Container: 1Gal Size: 4'x4' Bloom Time: Late spring-early summer Light : Full Sun to Partial Shade Uses: border, accent, mass planting, salt tolerant, low hedge, foundation		Red tip box honeysuckle is perfect for a formal or informal hedge, for creating an edge or accent to a border garden or for foundation plantings. They require very little care. They are slow growers, so a little trimming here and there to keep them neat is all that is required. New growth is red. As it matures, the leaves fade to green, but they keep hints of red.
 Lonicera periclymenum 'Caprilia Imperial' <i>Caprilia Imperial Honeysuckle</i> \$10.97 Container: 1Gal Size: Bloom Time: Light : Uses:		
 Lonicera sempervirens 'Cedar Lane' <i>Cedar Lane Honeysuckle</i> \$9.97 Container: 1Gal Size: 12' Bloom Time: Late spring to summer, reblooms Light : Full Sun to Partial Shade Uses: Specimen, vine		Cedar Lane puts on an amazing show. It doesn't get as long as other honeysuckles, which makes it a bit more manageable for some people. Brilliant red flowers with yellow throats adorn this vine in late spring and it reblooms throughout summer and often well into fall. Cedar Lane can be grown as a vine, but can also mound up like a shrub or stretch along the ground almost like a groundcover.

	Botanical Name	Common Name	Description
	Lupinus polyphyllus 'Russell Blue' <i>Russell Blue Lupine</i> \$6.97 Container: 1Gal		Lupine is a beloved meadow wildflower. They are quite at home amidst a grassy field. They will rise up in low mounds with in mid spring, and then send up their beautiful stalks of blue flowers. Once planted in your field they can spread on their own, eventually leaving a beautiful trail of blue throughout. They can also be grown in a border garden or even a large container. They make great cut flowers! Size: 3'x18" Bloom Time: Spring to Summer Light : Full Sun to Partial Shade Uses: Meadow planting, container, cut flowers
	Lupinus polyphyllus 'Tutti Frutti Mix' <i>Tutti Frutti Lupine</i> \$6.97 Container: 1Gal		A stunning variety of lupine, these produce 2-colored mixed flowers of nearly every color in the rainbow, including some never seen in any lupine before! Red, pink, yellow, purple, blue, cream and orange. Size: 4x2' Bloom Time: Late spring to mid summer Light : Full Sun Uses: Accent, border, massed, cut flower, attracts hummingbirds and but
	Lychnis chalcedonica (Maltese Cross) <i>Maltese Cross</i> \$6.97 Container: 1Gal		Maltese cross is a tough, rugged plant. It is super easy to grow in full sun areas. It can handle any soil. It grows very upright, reaching 4' when in bloom, but only 18" wide. Large clusters of scarlet-orange flowers last all summer long. Size: 4x18" Bloom Time: Summer Light : Full Sun Uses: Mass planting, rabbit and deer resistant, border, cut flower, attracts
	Lychnis haageana 'Lumina Bronze Leaf Red' \$6.97 Container: 1Gal		Stunning dark burgundy-black foliage is topped by bright orange flowers, an amazing contrast! Great for bees, butterflies and hummingbirds, too. Spills over edges in rock gardens or containers. Size: 15"x12" Bloom Time: Spring Light : Full Sun to Partial Shade Uses: Attracts butterflies and hummingbirds, Edging, mixed border, rock
	Magnolia stellata 'Royal Star' <i>Royal Star Magnolia</i> \$23.00 Container: 2Gal		Royal Star magnolia lives up to its royalty! This one is really more of a tall shrub than a tree, topping out at 12-15'. White star shaped flowers appear in late winter or early spring. In the mornings that are bunched up like a cup, but by mid-morning their starts shine brightly! Size: 15'x12" Bloom Time: March Light : Full Sun to Partial Shade Uses: Specimen, attracts butterflies
	Monarda didyma 'Jacob Kline' <i>Jacob Kline Bee Balm</i> \$6.97 Container: 1Gal		Bee balm is a favorite for the perennial border. We love their beautiful shaggy flowers! Jacob Kline has deep red ones that last from mid summer until fall. These flowers are edible, and can be added to salads or eaten fresh. The foliage is fragrant, too! Size: 4x2' Bloom Time: Mid summer to early fall Light : Full Sun to Partial Shade Uses: Attracts hummingbirds and butterflies, fragrant, mass plantings, edi
	Monarda didyma 'Marshall's Delight' <i>Marshall's Delight Bee Balm</i> \$6.97 Container: 1Gal		Bee balm is a favorite for the perennial border. We love their beautiful shaggy flowers! Marshall's Delight has deep pink ones that last from mid summer until fall. These flowers are edible, and can be added to salads or eaten fresh. The foliage is fragrant, too! Size: 4x2' Bloom Time: Mid summer to early fall Light : Full Sun to Partial Shade Uses: Attracts hummingbirds and butterflies, fragrant, mass plantings, edi
	Nandina domestica 'Gulf Stream' <i>Gulf Stream Heavenly Bamboo</i> \$6.97 Container: 1Gal		This is one of our favorite evergreen plants. It looks great in every season, with the foliage changing constantly throughout the year. New growth in the spring is bronze with orange tints. Older leaves are blue-green, but often turn to gold or red. In winter it is at its best, all lit up with reds and oranges. Tough, easy to grow and well-adapted to urban conditions. Size: 3-4'x4-5' Bloom Time: N/A Light : Full Sun to Partial Shade Uses: Specimen, year-round interest, hedge, evergreen

Botanical Name	Common Name	Description
 Nandina domestica 'Harbour Dwarf' <i>Harbor Dwarf Heavenly Bamboo</i> \$6.97 Container: 1Gal Size: 18"x30" Bloom Time: N/A		This is one of our favorite evergreen plants. It looks great in every season, with the foliage changing constantly throughout the year. New growth in the spring is bronze with orange tints. Older leaves are blue-green, but often turn to gold or red. In winter it is at its best, all lit up with reds and oranges. Tough, easy to grow and well-adapted to urban conditions. Light : Full Sun to Partial Shade Uses: Specimen, year-round interest, hedge, evergreen
 Nepeta faassenii 'Blue Wonder' <i>Blue Wonder Catmint</i> \$6.97 Container: 1Gal Size: 12"x12" Bloom Time: Late spring to late summer		Blue Wonder has a massive amount of lavender-blue flowers. The flowers are sterile, so no worries about spreading. Catmint is very drought tolerant, attracts bees and butterflies, is very deer and rabbit resistant, and blooms a long time - from May until frost. It is also very easy to grow! Oh, and it's also very fragrant! Light : Full Sun to Partial Shade Uses: Drought-tolerant, Cut flowers, attracts butterflies and bees. Fragran
 Paeonia 'Coral Sunset' <i>Coral Sunset Peony</i> \$16.97 Container: 2Gal Size: 3'x3' Bloom Time: May		Spectacular flowers in May and early June are huge, fragrant and beautiful! Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Bowl of Beauty' <i>Bowl of Beauty Peony</i> \$16.97 Container: 2Gal Size: 3'x3' Bloom Time: May		Spectacular flowers in May and early June are huge, fragrant and beautiful! Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Bowl of Beauty' <i>Bowl of Beauty Peony</i> \$11.97 Container: 1Gal Size: 3'x3' Bloom Time: May		Spectacular flowers in May and early June are huge, fragrant and beautiful! Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Celebrity' <i>Celebrity Peony</i> \$11.97 Container: 1Gal Size: 3'x3' Bloom Time: May		Magenta with pink and white mixed into the flower. Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Kansas' <i>Kansas Peony</i> \$16.97 Container: 2Gal Size: 3'x3' Bloom Time: May		Kansas is an award-winning peony, with large deep reddish-pink flowers. Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Kansas' <i>Kansas Peony</i> \$11.97 Container: 1Gal Size: 3'x3' Bloom Time: May		Kansas is an award-winning peony, with large deep reddish-pink flowers. Light : Full Sun Uses: Specimen, mass plantings, borders
 Paeonia lactiflora 'Karl Rosenfield' <i>'Karl Rosenfield' Chinese Peony</i> \$11.97 Container: 1Gal Size: 3'x3' Bloom Time: Late spring-early summer		Karl Rosenfield peonies have been a favorite in Clover Creek Nursery for many years now. The plant forms an upright bush of dark green leaves that stay attractive all season long. In late spring, large round buds open to reveal huge double flowers of bright magenta-red touched with just a bit of yellow in the center. For best flowering keep these in full sun. In fall trim off the old stems to the ground. These are beautiful enough to grow as a specimen, but are even more impressive in mass plantings. Light : Full Sun Uses: Border, cut flower, massed, specimen

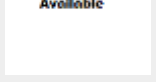

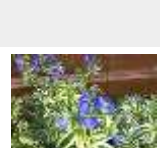

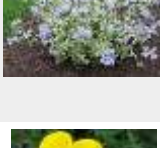

Image	Botanical Name	Common Name	Description
	Papaver orientale 'Allegro' <i>Allegro Oriental Poppy</i> \$6.97 Container: 1Gal		Poppies are a fun plant that grow in almost any sunny location. Their foliage is ferny and even hairy. In late spring they produce large flower buds that are also fuzzy. Once they open they produce huge bright colored orange flowers that look like they were made out of crepe paper. The insides of the flowers are black. After the blooming is done the plants go dormant and all but disappear by late summer. They make fantastic cut flowers.
	Size: 2'x2'	Bloom Time: Late spring to early summer	Light : Full Sun Uses: Accent, border, cut flower, specimen, mass planting, attracts hummingbirds
	Papaver orientale 'Crimson Red' <i>Crimson Red Oriental Poppy</i> \$6.97 Container: 1Gal		Bold Red flowers with dark black centers make this a must in the garden! They truly delight gardeners everywhere! The flowers are a ruffled and the hummingbirds go nuts over them. The flowers make great cut flowers. Pick them just as the buds begin to open for best results.
	Size: 3'x2'	Bloom Time: Late spring	Light : Full Sun Uses: Accent, border, cut flower, specimen, mass planting, attracts hummingbirds
	Penstemon barbatus 'Prairie Dusk' <i>Prairie Dusk Penstemon</i> \$6.97 Container: 1Gal		Penstemons are native wildflowers, so they are super easy to grow here. Prairie dusk is especially hardy and easy to grow. Upright spikes of purple flowers start blooming in June and last all summer. Great for a hot, dry site. Penstemons are a favorite of butterflies and hummingbirds.
	Size: 2'x18"	Bloom Time: Early to late summer	Light : Full Sun Uses: Attracts butterflies and hummingbirds, Accent, border, containers,
	Penstemon 'Dark Towers' <i>Dark Towers Penstemon</i> \$6.97 Container: 1Gal		Dark Towers is a beautiful, taller form of penstemon with dark purple black foliage tinted with red. The pink flowers against that dark foliage is beautiful, and can last from May all the way to September. The bell-shaped flowers grow on spikes that rise up to 3' above the ground.
	Size: 3'x2'	Bloom Time: Early to late summer	Light : Full Sun Uses: Attracts butterflies and hummingbirds, Accent, border, containers,
	Penstemon heterophyllus 'Electric Blue' <i>Electric Blue Penstemon</i> \$6.97 Container: 1Gal		Penstemons are a fall-blooming American native that provides late-season food for hummingbirds and butterflies. These are a carefree and drought resistant plant. The flowers rise above the plant on flowering spikes and are a purple-bluish, but can sometimes turn "Electric Blue" when the conditions are right. They make great cut flowers, too!
	Size: 18"x18"	Bloom Time: Mid-late summer	Light : Full Sun to Partial Shade Uses: Attracts butterflies and hummingbirds, Accent, border, containers,
	Philadelphus lewissii 'Blizzard' <i>Blizzard Mock Orange</i> \$6.97 Container: 1Gal		
	Size:	Bloom Time:	Light : Uses:
	Phlox subulata 'Candy Stripe' <i>Candy Stripes Creeping Phlox</i> \$6.97 Container: 1Gal		Masses of tiny white flowers with a pink mid stripe cover the top of this mat forming creeper for a long period. The Candy Stripe phlox forms a carpet of color for bank plantings or rock gardens. It is also an evergreen perennial, so even when not in bloom it provides color and beauty, and will last for many years to come.
	Size: 6'x2'	Bloom Time: Mid spring	Light : Full Sun to Partial Shade Uses: Edging, accent, borders, ground cover
	Phlox subulata 'Coral Eye' <i>Coral Eye Creeping Phlox</i> \$6.97 Container: 1Gal		Excellent ground cover for full sun to partial shade areas. This variety is smothered with soft baby-pink flowers that have a coral-red eye. These look best when planted en masse, or you can mix and match different varieties.
	Size: 6'x2'	Bloom Time: Mid spring	Light : Full Sun to Partial Shade Uses: Edging, accent, borders, ground cover

	Botanical Name	Common Name	Description
	Phlox subulata 'Emerald Blue' <i>Emerald Blue Creeping Phlox</i>	\$6.97 Container: 1Gal	A spectacular ground cover, Emerald Blue Creeping Phlox grows vigorously forming dense spreading, spilling mounds covered in beautiful blue blossoms. Masses of flowers create a carpet of bright blue blossoms for bank plantings or rock gardens. It is also attractive when not in bloom. Emerald Blue Creeping Phlox is ideal for pots and hanging planters, too and will spill over the edges of retaining walls for a graceful effect.
	Size: 6"x2'	Bloom Time: Mid spring	Light : Full Sun to Partial Shade Uses: Edging, accent, borders, ground cover
	Phormium 'Evening Glow' <i>Evening Glow New Zealand Flax</i>	\$6.97 Container: QT	Shiraz is a compact form of the New Zealand flax, growing to about 2-3 feet tall, and slightly wider. The burgundy wine foliage maintains its color year-round, sometimes with tints of red. White flowers appear in summer. This one goes really well with smaller grasses of yellow to gold colors. Hardy to 15 degrees, so keep in a sheltered, warm, dry and sunny part of the yard.
	Size: 3'x3'	Bloom Time:	Light : Full Sun Uses: Specimen, accent, Dry sunny spot
	Phormium 'Jack Spratt' <i>Jack Spratt New Zealand Flax</i>	\$6.97 Container: QT	Shiraz is a compact form of the New Zealand flax, growing to about 2-3 feet tall, and slightly wider. The burgundy wine foliage maintains its color year-round, sometimes with tints of red. White flowers appear in summer. This one goes really well with smaller grasses of yellow to gold colors. Hardy to 15 degrees, so keep in a sheltered, warm, dry and sunny part of the yard.
	Size: 3'x3'	Bloom Time:	Light : Full Sun Uses: Specimen, accent, Dry sunny spot
	Phormium 'Platt's Black' <i>Platt's Black New Zealand Flax</i>	\$6.97 Container: QT	Shiraz is a compact form of the New Zealand flax, growing to about 2-3 feet tall, and slightly wider. The burgundy wine foliage maintains its color year-round, sometimes with tints of red. White flowers appear in summer. This one goes really well with smaller grasses of yellow to gold colors. Hardy to 15 degrees, so keep in a sheltered, warm, dry and sunny part of the yard.
	Size: 3'x3'	Bloom Time:	Light : Full Sun Uses: Specimen, accent, Dry sunny spot
	Phormium 'Shiraz' <i>Shiraz New Zealand Flax</i>	\$6.97 Container: QT	Shiraz is a compact form of the New Zealand flax, growing to about 2-3 feet tall, and slightly wider. 	Physocarpus opulifolius 'Center Glow' <i>Center Glow Ninebark</i>	\$6.97 Container: 1Gal	Center glow is a new striking ninebark plant. Gorgeous new foliage come out a bright rosy red with a golden yellow center. The leaves mature to deep burgundy. White flowers bloom late spring, followed by bright red fruit. And then there's the curling layers of bark to enjoy in winter.
	Size: 6'x6'	Bloom Time: May-June	Light : Full Sun Uses: Specimen, hedge, border, in mass
	Physocarpus opulifolius 'Monlo' <i>Diablo Ninebark</i>	\$6.97 Container: 1Gal	This plant has become all the rage recently in gardening circles. It grows similarly to the species, but its leaves emerge deep purple. In our cooler-summer region those leaves will maintain that color all summer long. It can be trained to grow in a 'standard' tree form, which reveals the crème peeling bark. The pink to white flower clusters really make a huge impact against those wonderful leaves! Ninebark will respond well to heavy pruning each year. Looks best in mass plantings, or as a border.
	Size: 8'x8'	Bloom Time: May-June	Light : Full Sun to Partial Shade Uses: Specimen, hedge, border, in mass
	Pieris japonica 'Katsura' <i>Katsura Pieris</i>	\$9.97 Container: 1Gal	Katsura pieris puts on a stunning display of wine-red new growth several times a year. Wow, it is powerful! The winter flowers are a pinkish-lilac color that makes a nice display, too.
	Size: 5'x4'	Bloom Time: March, April	Light : Full Sun to Partial Shade Uses: Specimen, hedge

	Botanical Name	Common Name	Description
	Pieris japonica 'Little Heath' <i>Little Heath Pieris</i> \$6.97 Container: 1Gal	Size: 2-3'x2-3' Bloom Time: Spring	Little heath is like a junior version of Flaming silver. The leaves are smaller and the plant is smaller, growing to only 2-3' tall and wide. Evergreen leaves are green with creamy margins, and new growth comes out a reddish-pink to coral color! It does that several times a year, too. Light : Full Sun to Partial Shade Uses: Specimen, border, containers, hedge
	Pieris japonica 'Mountain Fire' <i>Mountain Fire pieris</i> \$6.97 Container: 1Gal	Size: 6'x5' Bloom Time: March, April	Pieris plants are one of those rare plants that are spectacular in every season. In late winter they hang heavily with massive clusters of bell-shaped flowers. In spring new growth emerges bright red. They continue to change colors all through the summer and fall-red, yellow, orange, green. Bead-like flower buds set late in the summer and look great all winter atop the evergreen leaves. Then they start all over again. The new growth of Mountain Fire is particularly stunning, and the flower clusters particularly full. Light : Full Sun to Partial Shade Uses: Specimen, hedge
	Polemonium caeruleum 'Brise D'Anjou' <i>Variegated Jacob's Ladder</i> \$6.97 Container: 1Gal	Size: 18"x12" Bloom Time: Late spring to mid summer	Brise d'Anjou is a first-class foliage plant. The variegation is amazing! Definitely put this at the front of the border garden. Heads of violet-blue flowers begin to appear in early summer. Protect from afternoon sun Light : Partial Shade Uses: Accent, rock garden, attracts butterflies, border, containers, edging
	Polemonium reptans 'Stairway to Heaven' <i>Stairway to Heaven Jacobs Ladder</i> \$6.97 Container: 1Gal	Size: 16"x18" Bloom Time: Late spring to mid summer	Stairway to Heaven is a first-class foliage plant. The variegation is amazing! Definitely put this at the front of the border garden. Heads of violet-blue flowers begin to appear in early summer. Protect from afternoon sun. New, fresh leaves continue to appear all season, so this one always looks like the first day of spring! Light : Partial Shade Uses: Accent, rock garden, attracts butterflies, border, containers, edging
	Potentilla fruticosa 'Goldfinger' <i>Goldfinger Potentilla</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: June-October	'Goldfinger' potentilla is a low-mounding shrub that provides summer-long color. The single, roselike, buttercup-yellow flowers bloom from early summer to frost on a mound of finely textured light-green foliage, making it a strong addition to a shrub or flower border. The potentilla is a low-maintenance plant that rarely needs pruning. Just plant in a sunny spot and keep watered! Light : Full Sun Uses: Hedge, Border, Specimen
	Potentilla fruticosa 'Pink Beauty' <i>Pink Beauty Potentilla</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: June-October	Pink Beauty is a prolific bloomer, with light pink flowers that cover this shrub from early summer well into fall. Flowers fade somewhat in the hot summer months, but keep a pink tint at all times. Light : Full Sun Uses: Hedge, Border, Specimen
	Potentilla fruticosa 'Red Sunset' <i>Red Sunset Potentilla</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: Late spring - early fall	As with other potentillas, Red Sunset is a great, mounded shrub that grows well in full sun to partial shade, and is moderately drought tolerant. It is covered with large red-orange buttercup flowers all summer, usually beginning to bloom in late May and continuing into September or October. It can grow in any soil conditions and is very easy to care for. Light : Full Sun to Partial Shade Uses: Border, Specimen, informal hedge
	Prunus cerasifera 'Thundercloud' <i>Thundercloud Flowering Cherry</i> \$6.97 Container: 1Gal	Size: 20'x15' Bloom Time: Spring	Thundercloud is a super popular ornamental tree. The flowers come out first, in early spring, a beautiful pink that covers the tree completely. As the flowers fade, bright red leaves emerge, fading to a rich, dark purple that lasts until fall. Leaves turn bright red again for a few weeks before dropping.. Light : Full Sun to Partial Shade Uses: Ornamental tree, specimen

	Botanical Name	Common Name	Description
	Prunus laurocerasus 'Otto Luyken' <i>Otto Luyken English Laurel</i> \$6.97 Container: 1Gal	Size: 3'x6' Bloom Time: Spring	English laurels have long been used for evergreen hedging, especially in urban areas. They do a phenomenal job of keeping out pollution and noise from city streets. This variety is a compact spreading version, with narrower, darker green leaves and more noticeable flowers than the standard kinds. Light : Full Sun to Partial Shade Uses: Hedge, specimen, border, urban garden
	Prunus serrulata 'Kwanzan' <i>Kwanzan Flowering Cherry</i> \$6.97 Container: 1Gal	Size: 20'x15' Bloom Time: Spring	Kwanzan is one of the most popular flowering trees in the Puget Sound region. It is covered in clusters of large, double deep pink blooms, surrounded by the bronze-red new foliage each spring. It makes the perfect front yard tree! Light : Full Sun Uses: Specimen, coastal areas, mass planting, small shade tree
	Prunus x cistena <i>Purple Leaf Sandcherry</i> \$14.97 Container: 2Gal	Size: 6'x4' Bloom Time: May	Similar in appearance to the cherry and plum trees, but this is a small, beautiful shrub. It opens with pink flowers that are fragrant! As the flowers fade they are replaced with deep reddish-purple leaves that last until fall. Even the bark is an attractive reddish-brown. Light : Full Sun to Partial Shade Uses: Specimen, container, small groupings
	Prunus x cistena <i>Purple Leaf Sandcherry</i> \$6.97 Container: 1Gal	Size: 6'x4' Bloom Time: May	Similar in appearance to the cherry and plum trees, but this is a small, beautiful shrub. It opens with pink flowers that are fragrant! As the flowers fade they are replaced with deep reddish-purple leaves that last until fall. Even the bark is an attractive reddish-brown. Light : Full Sun to Partial Shade Uses: Specimen, container, small groupings
	Pulmonaria 'Trevi Fountain' <i>Trevi Fountain Lungwort</i> \$6.97 Container: 1Gal	Size: 12"x24" Bloom Time: early to late spring	Lungwort is a valuable plant for the spring shade garden. Its flowers provide bees with pollen and nectar early in the season. Trevi Fountain has stunning cobalt-blue flowers that you will love, especially as they are set over green leaves heavily spotted with silver. Flowers last until early summer. Light : Partial Shade to Full Shade Uses: Rock garden, border, containers, edging, rabbit resistant, ground cover
	Rhododendron 'PJM Regal' <i>PJM Regal Rhododendron</i> \$10.97 Container: 1Gal	Size: 6'x7' Bloom Time: Spring	PJM Regal is a popular form of rhododendron. Smothered in bright clusters of lightly-fragrant purple-fuschia flowers in mid-spring. Leaves turn purplish in fall, lasting through winter. The foliage has a slight lemon fragrance. PJMs are the easiest varieties of rhododendrons to grow, requiring very little care. PJMs also prefer a little more sun than most rhodies. Light : Full Sun to Partial Shade Uses: Specimen, mass planting, accent
	Ribes 'Pixwell' <i>Pixwell Gooseberry</i> \$9.97 Container: 1Gal	Size: 4'x4' Bloom Time: May to June	Pixwell is one of the best producers of gooseberries. The berries begin to ripen in July, large, tart, pink fruit that is nutritious. Pixwell has higher than normal fruit yields, and the plant grows quickly. Gooseberries are eaten fresh, as well as being used in baking, jams and even wine. Light : Full Sun to Partial Shade Uses: Fruit, Hedge
	Rosa KO 'Radtkopink' <i>Pink Double Knockout Rose</i> \$11.00 Container: 1Gal	Size: 3-4'x3-4' Bloom Time: May to frost	A rose that is easy to care for?! That's the Knockout Rose! Knockout flowers in a no-care rose! Knockouts can tolerate shade, do not get the diseases other roses get, and don't need much, if any, pruning! Just plant them and enjoy the beautiful flowers all summer long! Flowers are pink doubles with a slight spicy fragrance! It is even fast growing, but grows into a neat, compact shrub. Light : Full Sun to Partial Shade Uses: Specimen, rose garden, cut flowers, containers, border, foundation
	Rosa KO® 'Radtko' <i>Double Knock Out Rose</i> \$11.00 Container: 1Gal	Size: 3-4'x3-4' Bloom Time: May to frost	A rose that is easy to care for?! That's the Knockout Rose! Knockout flowers in a no-care rose! Knockouts can tolerate shade, do not get the diseases other roses get, and don't need much, if any, pruning! Just plant them and enjoy the beautiful flowers all summer long! Flowers are double red and fragrant! It is even fast growing, but grows into a neat, compact shrub. Light : Full Sun to Partial Shade Uses: Specimen, rose garden, cut flowers, containers, border, foundation

	Botanical Name	Common Name	Description
	Rosmarinus officinalis 'Arp' <i>Arp Rosemary</i>	\$6.97 Container: 1Gal	Arp is one of the most cold-hardy rosemarys, so it is the best one for us in the mild Puget Sound region. Arp is an upright shrub, it can grow to 4' tall or more, but in our climate it will usually stay a little shorter than 4'. Rosemary is great for cooking, going well with most meats. You can grow Arp in a large container where you can take clipping easily when cooking. Rosemary also blooms off and on all year long.
Size: 3-4'x2-3'	Bloom Time: Repeatedly throughout the year	Light : Full Sun	Uses: Herb gardens
	Rubus 'Black Satin' <i>Black Satin Blackberry</i>	\$10.97 Container: 1Gal	Black Satin is a thornless blackberry that is a prolific producer of gorgeous satiny black berries. These berries are deliciously sweet and juicy. Small, soft pink flowers appear on second year wood, turning to a large crop of fruit in midsummer. The canes grow semi-erect, but staking is still advised.
Size: 6'x5'	Bloom Time: Mid-spring	Light : Full Sun	Uses: Edible fruit
	Rubus idaeus 'Coho' <i>Coho Red Raspberry</i>	\$9.97 Container: 1Gal	Coho is a floricanne fruiting red reaspberry. It was named after the Coho salmon because of the brilliant red of the fruits of this plant. Coho is a high-yield producer of late-season raspberries. They are bright red and very firm, making them easy to pick and eat!
Size: 6'x5'	Bloom Time: Mid-spring	Light : Full Sun	Uses: Edible fruit
	Rubus idaeus 'Fall Gold' <i>Fall Gold Raspberry</i>	\$9.97 Container: 1Gal	Fall Gold berries taste just like red berries, but they are a beautiful gold color! They look beautiful on the plant or on the plate! Fall Gold is a self-fertile plant, so you don't need any other varieties to get fruit. Even better, once a cane has matured to produce fruit in the fall, it will produce another crop the following spring!
Size: 4'x3'	Bloom Time: Spring	Light : Full Sun	Uses: Edible fruit.
	Rubus spectabilis 'Golden Ruby' <i>Golden Ruby Salmonberry</i>	\$9.97 Container: 1Gal	
Size:	Bloom Time:	Light :	Uses:
	Rubus ursinus x idaeus 'Thornless' <i>Thornless Boysenberry</i>	\$10.97 Container: 1Gal	Enjoy fresh-grown boysenberries without the hassle of thorns! Boysenberries are great fresh or baked in a dessert. Or freeze them to enjoy year round. You can plant this next to a fence for support, or as a free-standing shrub, provided you stake the canes.
Size: 6'x6'	Bloom Time: spring	Light : Full Sun	Uses: Edible berries
	Salix integra 'Hakuro Nishiki' <i>Hakuro Nishiki Dappled Willow</i>	\$6.97 Container: 1Gal	The Hakuro Nishiki was brought from Japan in the 1980s. It's creamy white and pink mottled leaves are showy all summer and fall, while its coral-orange stems are striking and elegant in winter. It can be pruned into a tree form (standard) to great effect.
Size: 5'x5'	Bloom Time:	Light : Full Sun	Uses: Specimen, informal hedge
	Salix matsudana 'Golden Curls' <i>Golden Curls Willow</i>	\$27.97 Container: 2Gal	Golden Curls is a corkscrew type of willow, but it is smaller and more shrubby than is typical. It has bright yellowish stems that are contorted and twisted. Although often it will grow shrubby, it can easily be pruned to a tree form with wide spreading branches. Even the leaves of Golden curls are twisted and curled!
Size: 30'x30'	Bloom Time:	Light : Full Sun to Partial Shade	Uses: Specimen, garden tree
	Salix matsudana 'Golden Curls' <i>Golden Curls Willow</i>	\$29.97 Container: 2Gal	Golden Curls is a corkscrew type of willow, but it is smaller and more shrubby than is typical. It has bright yellowish stems that are contorted and twisted. Although often it will grow shrubby, it can easily be pruned to a tree form with wide spreading branches. Even the leaves of Golden curls are twisted and curled!
Size: 30'x30'	Bloom Time:	Light : Full Sun to Partial Shade	Uses: Specimen, garden tree

	Botanical Name	Common Name	Description
	Salvia argentea <i>Silver Sage</i> \$6.97 Container: 1Gal	Size: 18"x24" Bloom Time: Early to mid summer	Silver Sage is a beautiful foliage plant. The fuzzy leaves are intensely silver and soft. Keep this near the front of the border garden. It will give you a spectacular display! Light : Full Sun Uses: Accent, rock garden, border, containers, edging, specimen
	Salvia nemorosa 'Snow Hill' <i>Snow Hill Garden Sage</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time: Mid summer-Early Fall	Beautiful spikes of soft white flowers rise above fragrant, gray-green foliage. Snow Hill is a problem-free plant. The flowers attract butterflies and birds, as well as busy honeybees. This plant is also more compact than other salvias, making a nice mounded form. Light : Full Sun to Partial Shade Uses:
	Salvia x superba 'East Friesland' <i>East Friesland Salvia</i> \$6.97 Container: 1Gal	Size: 18"x24" Bloom Time: Early to mid summer	Grey green leaves are covered with tall slender spikes of deep purple flowers throughout summer. The flowers are gorgeous, and hummingbirds and butterflies are fond of them! Light : Full Sun Uses: Attracts hummingbirds and butterflies, containers, cut flower, edging
	Sambucus nigra 'Eva' <i>Black Lace Elderberry</i> \$27.00 Container: 2Gal	Size: 6'x6' Bloom Time: June-July	Black Lace is a beautiful, unusual elderberry plant. She has deeply cut dark purple foliage similar to the lace leaf Japanese maples. The leaves are fragrant, with a hint of lemon scent. When she blooms, her pink flowers look amazing against the dark leaves. These are followed by dark blackish-red elderberries that you can eat. They make great jelly or wine. Use Black Lace as a specimen plant in a border, or place them in a hedge. She prefers moist soil, so she is a good candidate for a rain garden. Light : Full Sun to Partial Shade Uses: Hedge, rain garden
	Sambucus nigra 'Variegata' <i>Variegated Elderberry</i> \$6.97 Container: 1Gal	Size: 13'x6' Bloom Time: Spring and Summer	The variegated elderberry has really nice green and white variegated leaves, beautiful from spring through fall. The flowers are creamy white and attractive to butterflies and hummingbirds. It can grow in almost any soil, but prefers partial shade. Light : Partial Shade to Full Shade Uses: Specimen
	Saxifraga x arendsii 'Purple Robe' <i>Purple Robe Rockfoil</i> \$6.97 Container: 1Gal	Size: 10"x12" Bloom Time: April-May	Purple Robe', a mossy saxifrage, is an easy care perennial that looks great in a rock wall crevice or cascading over the top. Although saxifrages are normally thought of for the rock garden, hybrid mossy saxifrages grow well in garden soils with plenty of humus that won't dry out. Light : Full Sun to Partial Shade Uses: rain gardens
	Schizophragma hydrangeoides 'Moonlight' <i>Moonlight Hydrangea Vine</i> \$10.97 Container: 1Gal	Size: 30'x9' Bloom Time: July to August	Moonlight is so named because its leaves have sort of a moonlight effect. They are silvery, blue-green, wide heart shaped leaves. The flowers are huge, lace cap hydrangea-like flowers that reach 8-10" across. Leaves turn yellow in fall. You can grow this as a vine, and it will scale up flat surfaces like brick walls. You can also grow it as a ground cover. Just make sure it has the space to spread out! Light : Partial Shade to Full Shade Uses: Climbing vine, ground cover
	Sedum 'Autumn Joy' <i>'Autumn Joy' Sedum</i> \$6.97 Container: 1Gal	Size: 3'x2' Bloom Time: Late summer/Early Fall	Sedums are fascinating plants. Their waxy succulent leaves are thick and rubbery. They are drought tolerant. They are fun to look at and it is fun to watch them grow. And in the fall, when everything else is quieting down, they give a blast of vibrant color in pinks and mauves. In fact the color of the blooms starts out light pink, but it deepens each week until it is a dark magenta by October. Truly a spectacular plant! Light : Full Sun Uses: Border, rock garden, container, indoor plant

	Botanical Name	Common Name	Description
	Sedum reflexum 'Sunsplash' <i>Sunsplash Sedum</i> \$6.97 Container: 1Gal	Size:	Bloom Time: Light : Uses:
	Sedum SUNSPARKLER® 'Firecracker' <i>Firecracker Sedum</i> \$6.97 Container: 1Gal	Size:	Bloom Time: Light : Uses:
	Silene dioica 'Clifford Moor' <i>Clifford Moore Catchfly</i> \$6.97 Container: 1Gal	Size: 18"x12"	Bloom Time: Spring, summer Light : Full Sun to Partial Shade Uses: Accent, mass planting, woodland garden, container The foliage alone make this a wonder plant! Dark green edged with creamy gold, and the foliage is semi-evergreen, so most winters it will last all the way through. Silene makes a good neighbor to hostas and hellebores. He will also give you several weeks of cheerful rosy-pink flowers in late spring and summer.
	Spiraea japonica 'Neon Flash' <i>Neon Flash Spirea</i> \$6.97 Container: 1Gal	Size: 3'x3'	Bloom Time: Early to late summer Light : Full Sun to Partial Shade Uses: Low hedge, accent, border, attracts butterflies and bees A neat mound of dark green foliage is covered in neon-red/magenta flowers all summer long, from early June well into September or longer. In fall the leaves turn a dark burgundy before falling off. Spireas are a favorite of bees, butterflies and birds.
	Spiraea x bumalda 'Goldflame' <i>Gold Flame Spirea</i> \$6.97 Container: 1Gal	Size: 2'x3'	Bloom Time: Late Spring-Early Fall Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees Goldflame is most beloved for its leaves, which emerge in flaming reds, bronzes and yellows in mid-spring. They fade to a soft green during the summer, but return to flaming hues in fall once again. They also show off pink clusters of flowers throughout the summer. Goldflame is one of the smallest of the spireas, usually reaching a maximum height of less than 3 feet, but easily maintained to as small as 18". They form niceley shaped rounded mounds without much effort.
	Spiraea x bumalda 'Dart's Red' <i>Dart's Red Spirea</i> \$6.97 Container: 1Gal	Size: 2'x3'	Bloom Time: Late spring-mid summer Light : Full Sun to Partial Shade Uses: Low hedge, accent, border, attracts butterflies and bees The striking feature of the Dart's Red spirea is, no surprise, the bright reddish pink color of the flowers. This is one of the more striking floral displays by a spirea, and they are a great addition to any garden because of it.
	Spiraea x bumalda 'Gold Mound' <i>Gold Mound Spirea</i> \$6.97 Container: 1Gal	Size: 3'x4'	Bloom Time: June to July Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees Gold Mound is just like it sounds. It forms a low mound that is easy to maintain, and the leaves spend most of their time colored a gold, or yellow-gold. They do get kind of fiery colored in the fall, too! Flowers are pink, blooming in mid-summer and attracting the butterflies.
	Stachys byzantina 'Helene von Stein' <i>Lamb's Ear</i> \$6.97 Container: 1Gal	Size: 18"x24"	Bloom Time: Mid summer Light : Full Sun to Partial Shade Uses: Borders, accent, edging, mass plantings, cut flowers Lamb's ears don't flower very often, but that's OK because everybody loves lamb's ears for their leaves. The foliage is luxuriously soft, velvety and silver-green, like a lamb's ear. Kids love the leaves, and they make a nice addition to flower arrangements. They make a good ground cover or edging in a border. They are deer resistant.
	Syringa meyeri 'Palibin' <i>Dwarf Korean Lilac</i> \$6.97 Container: 1Gal	Size: 5'x6'	Bloom Time: April to May Light : Full Sun Uses: Attracts hummingbirds and butterflies, specimen, drought tolerant, The dwarf Korean lilac is much more compact and shrubby than the common lilacs. It grows only to about 4 or 5 feet tall and stays mounded, with little pruning needed. Red buds open to pink flowers that are a little different, smaller and more tubular. Like all lilacs, the flowers come in large clusters, and they are very fragrant.

	Botanical Name	Common Name	Description
	<p>Syringa pubescens subsp. Patula 'Miss Kim'</p> <p><i>Miss Kim Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 8'x8'</p> <p>Bloom Time: May</p>	<p>Miss Kim is one of the most popular varieties of lilac available. This is because the flowers are especially fragrant, the light-purple flowers are very attractive and in the fall the leaves turn a vibrant maroon. It is also a fairly compact lilac, typically reaching a maximum size of 8 feet by 8 feet, though it is easily pruned to smaller sizes if desired. Lilacs attract butterflies and hummingbirds when in bloom. Miss Kim will tolerate partial shade, but blooms best in full sun.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum</p>
	<p>Syringa vulgaris 'Aucubaefolia'</p> <p><i>Dappled Dawn Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 8'x10'</p> <p>Bloom Time: May</p>	<p>Dark green leaves are splashed with gold and yellow. The flowers are a lavender-blue, similar to Miss Kim Lilacs. Flowers are usually in May, fragrant and beautiful. They make great cut flowers, especially when you include some of this excellent foliage in the cutting.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum</p>
	<p>Syringa vulgaris 'Charles Joly'</p> <p><i>Charles Joly Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 10'x8'</p> <p>Bloom Time: Late spring/Early summer</p>	<p>One of our favorite red-purple lilacs, with large, very fragrant double flowers that last several weeks in May. The flowers are wine-red that gradually turns purple.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, butterflies and hummingbird</p>
	<p>Syringa vulgaris 'Congo'</p> <p><i>Congo Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 10'x8'</p> <p>Bloom Time: Late spring/Early summer</p>	<p>One of our favorite red-purple lilacs, with large, very fragrant single flowers that last several weeks in May. The flowers are wine-red that gradually turns purple.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, butterflies and hummingbird</p>
	<p>Syringa vulgaris 'Edward J. Gardner'</p> <p><i>Edward J. Gardner Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 8'x6'</p> <p>Bloom Time: May</p>	<p>One of our favorite pink lilacs, with sweetly fragrant double flowers that last several weeks in May.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum</p>
	<p>Syringa vulgaris 'Krasavitsa Moskvya'</p> <p><i>Krasavitsa Moskvya Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 12'x6'</p> <p>Bloom Time: Spring</p>	<p>Krasavitsa Moskvya has gorgeous, fragrant white flowers that open from lavender and pink buds. This lilac keeps a somewhat narrow form, about half as wide as it is tall. It can grow to 12' in height or be kept to 6' with regular pruning.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, cut flowers, hedge, borders</p>
	<p>Syringa vulgaris 'President Lincoln'</p> <p><i>President Lincoln Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 10'x6'</p> <p>Bloom Time: Spring</p>	<p>President Lincoln is an honorable lilac choice to represent our 16th president. The single blue flowers are beautiful and the fragrance is delightful.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Hedge, specimen</p>
	<p>Syringa vulgaris 'Primrose'</p> <p><i>Primrose Lilac</i></p> <p>\$6.97 Container: 1Gal</p>	<p>Size: 8'x10'</p> <p>Bloom Time: Early to mid spring</p>	<p>Primrose is a popular but hard to find lilac. It blooms with white flowers that can become pastel yellow and form in trusses 8-10' long. This bloom color is unique among lilacs, when it happens.</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, cut flowers, hedge, borders</p>
	<p>Syringa vulgaris 'Sensation'</p> <p><i>Sensation Lilac</i></p> <p>\$14.97 Container: 2Gal</p>	<p>Size: 8'x6'</p> <p>Bloom Time: May</p>	<p>A Sensational lilac, unlike any other! The beautiful flowers are purple with white picotee! And the fragrance is sweet. Every time it blooms you'll fall in love with it again!</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum</p>

	Botanical Name	Common Name	Description
	<p>Syringa vulgaris 'Wonderblue'</p> <p><i>Wonderblue Lilac</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 5'x4'</p>		<p>Wonderblue is a semi-dwarf lilac that is covered with sky-blue to violet-blue flowers in mid to late May.</p> <p>Bloom Time: Late Spring-Early Summer</p> <p>Light : Full Sun</p> <p>Uses: Specimen, cut flowers, hedge, borders</p>
	<p>Thuja occidentalis 'Smaragd'</p> <p><i>Emerald Green Arborvitae</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 15'x4'</p>		<p>Emerald Green Arborvitae has become one of the most popular desired privacy trees, and for many good reasons. This uniformly conical tree performs well in most any soil. Foliage is bright emerald green year round. Virtually disease-free and strong-rooted, it responds well to shearing. Durable accent or specimen tree. Evergreen. Hardy in zones 3 to 9. Grows quickly to 15 feet tall and 4 feet wide when planted as a privacy screen.</p> <p>Bloom Time:</p> <p>Light : Full Sun</p> <p>Uses: Privacy Screen, hedge, specimen</p>
	<p>Thymus serpyllum 'Coccineus'</p> <p><i>Creeping Thyme</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 2'x18"</p>		<p>If you want something special from your groundcover, then look no further. Creeping Thyme is an excellent choice. It stays very close to the ground, only 1-2" tall, but a single plant will spread to about 12-18". It is evergreen with a lush deep green foliage. The leaves are also fragrant, with a spicy delicious scent. And then there's the flowering. The best word for it is 'smothered'. The plant is completely smothered by bright magenta-red flowers in early summer. It is drought-tolerant, can tolerate moderate foot traffic, and grows great as a lawn substitute or between stepping stones. It's even deer resistant and it attracts butterflies! What more do you want?</p> <p>Bloom Time: June-July</p> <p>Light : Full Sun</p> <p>Uses: ground cover, rock garden, lawn replacement, edging, massed.</p>
	<p>Vaccinium corymbosum 'Bluecrop'</p> <p><i>'Bluecrop' Highbush Blueberry</i></p> <p>\$8.97 Container: 1Gal</p> <p>Size: 4'x4'</p>		<p>Bluecrop is a MIDSEASON blueberry plant with large blue berries with a "classic sweet" flavor. The fruit is ideal to eat whole, right off the bush. Bluecrop is the most widely planted variety in the U.S. and is one of the strongest performers of fruit production and quality. Nice red fall color on the leaves.</p> <p>Bloom Time: May</p> <p>Light : Full Sun to Partial Shade</p> <p>Uses: Fruit</p>
	<p>Vaccinium corymbosum 'Bluejay'</p> <p><i>Bluejay Blueberries</i></p> <p>\$8.97 Container: 1Gal</p> <p>Size: 6'x5'</p>		<p>Bluejay is an early-mid season fruiter. The berries are medium-sized and delicately sweet. Bluejay is particularly noted for being an attractive plant. It is one of the easiest blueberry plants to grow. It has a neat, upright appearance, good fall color and the stems turn bright yellow in winter. The fruit form in long, loose clusters. They can be left on the plant for long periods, making them ideal for freezing, pies and canning.</p> <p>Bloom Time: Spring</p> <p>Light : Full Sun</p> <p>Uses: Edible fruit, hedge, specimen, mass planting</p>
	<p>Vaccinium corymbosum 'Elliot'</p> <p><i>'Elliot' Highbush Blueberry</i></p> <p>\$8.97 Container: 1Gal</p> <p>Size: 4'x4'</p>		<p>Elliot is one of the LATEST FRUITING blueberries.
