

Clover Creek Nursery - Current Plant List

As of 6/22/2017

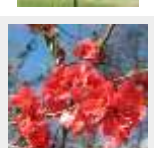

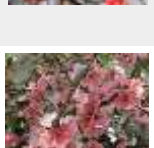

Botanical Name	Common Name	Description
	<p>Acer Palmatum Atropurpurea <i>Japanese Red Maple</i> \$6.97 Container: 1Gal</p>	<p>The beautiful Japanese Red Maple is one of the most popular plants in the world. It brings a stately charm to any garden, patio or yard with its deep burgundy foliage and arching branches. The leaves darken as they mature in summer, but may turn a bright red in fall for a splash of color that lasts several weeks before winter. Japanese maples can be grown in the yard or in a container, and will adapt well to many different conditions. They need little care but will produce beauty year after year.</p>
Size: 20'x10'	Bloom Time:	Light : Full Sun to Partial Shade
Uses: lawn tree		
	<p>Acer palmatum 'Fireglow' <i>Fireglow Japanese Maple</i> \$19.00 Container: 2Gal</p>	<p>Fireglow is a fiery, semi-dwarf upright red Japanese maple. It is similar to bloodgood, but stays smaller and more dense. The leaves come out a bright fiery red in early spring, maturing to deep maroon. In fall leaves turn orange-red but only on the backs of the leaves, giving it the appearance of glowing! Fireglow is excellent for containers and will stay about 8' tall in that case.</p>
Size: 12'x6'	Bloom Time:	Light : Full Sun to Partial Shade
Uses: Specimen, shade tree		
	<p>Agastache aurantiaca 'Tango' <i>Orange Hummingbird Mint</i> \$6.97 Container: 1Gal</p>	<p>Agastache is sometimes called hyssop, but it is also called hummingbird mint. That's because the foliage is mint-scented and the flowers will attract hummingbirds and butterflies in droves. Tango has fiery reddish-orange flowers from early June all the way until October.</p>
Size: 18"x12"	Bloom Time: Late spring to mid fall	Light : Full Sun
Uses: Attracts hummingbirds, butterflies and bees, border, accent, edging		
	<p>Agastache 'Bolero' <i>Bolero Anise-hyssop</i> \$6.97 Container: 1Gal</p>	<p>Bolero is a beautiful summer bloomer, with rose-purple flowers on spikes over a nice mound of fragrant bronze-green foliage. This beauty is slug resistant, rabbit resistant and deer resistant! The flowers are edible and make a colorful addition to salads or as garnish. Oh, and they are popular with butterflies and hummingbirds.</p>
Size: 16"x16"	Bloom Time: Mid summer to early fall	Light : Full Sun
Uses: Attracts butterflies and hummingbirds, containers, cut flower, deer		
	<p>Ajuga reptans 'Black Scallop' <i>Black Scallop Bugle Weed</i> \$6.97 Container: 1Gal</p>	<p>Mat-forming ground cover, spreading to 18" or wider, with dark maroon-purple leaves with scalloped edges. The dark violet flowers are fragrant and are a wonderful contrast to the dark purple to almost black leaves. In time Black Scallop will spread and multiply to form a 4" tall carpet stretching 3 feet or more.</p>
Size: 4"x18"	Bloom Time: May-June	Light : Full Sun to Partial Shade
Uses: Ground cover, specimen		
	<p>Ajuga reptans 'Burgundy Glow' <i>Burgundy Glow Bugleweed</i> \$6.97 Container: 1Gal</p>	<p>Ajuga, or bugleweed as it is commonly known, is easy to grow. Preferring shady locations, but also does well in full sun. Ajuga grows quickly and will spread to fill in empty areas quickly. Burgundy Glow is particularly prized for its tricolored foliage (white, pink and green). It also has a beautiful floral display of bluish-purple flowers on 6" spikes in late spring. In mass plantings the flower effect is dramatic. Also makes an excellent ground cover, and it can handle light foot traffic</p>
Size: 6-9"x1'	Bloom Time: May-June	Light : Partial Shade to Full Shade
Uses: Small area ground cover, borders, mass plantings, containers		
	<p>Alcea rosea 'Chaters Double Red' <i>Chaters Double Red Hollyhock</i> \$6.97 Container: 1Gal</p>	<p>These are part of the famous Chaters Double series of hollyhocks. They can grow to 6 feet or more tall yet remain very narrow, only 18". The flowers are fully double and fluffy, red, very beautiful!</p>
Size: 6'x18"	Bloom Time: Mid to late summer	Light : Full Sun
Uses: Attracts butterflies and hummingbirds, Accent, border, cut flower, r		
	<p>Alcea rosea 'Chaters Double Salmon Pink' <i>DbI Salmon Pink Hollyhock</i> \$6.97 Container: 1Gal</p>	<p>These are part of the famous Chaters Double series of hollyhocks. They can grow to 6 feet or more tall yet remain very narrow, only 18". The flowers are fully double and fluffy, salmon pink, very beautiful!</p>
Size: 6'x18"	Bloom Time: Mid to late summer	Light : Full Sun
Uses: Attracts butterflies and hummingbirds, Accent, border, cut flower, r		

	Botanical Name	Common Name	Description
	Alcea rosea 'Fiesta Time' <i>Fiesta Time Hollyhock</i> \$6.97 Container: 1Gal	Size: 3'x18"	Fiesta Time is more compact than other hollyhocks, so it may fit better into your garden than larger varieties. The flowers are cerise-pink, and fringed with a rosy edge that makes the double flowers glow! Bloom Time: Mid to late summer Light: Full Sun Uses: Attracts butterflies and hummingbirds, Accent, border, cut flower, r
	Amelanchier alnifolia <i>Pacific Serviceberry</i> \$6.97 Container: 1Gal	Size: 10'x8"	Serviceberry is a northwest native shrub. Sometimes called Saskatoon (by Canadians), this beautiful shrub provides sprightly white flowers followed by delicious fruit. You can eat the fruit fresh, but it also makes delicious pie or jam. You'll love the brilliant red and yellow fall color, too! Bloom Time: Spring Light: Full Sun to Partial Shade Uses: Edible fruit, native plantings, attracts birds, easy to grow
	Aquilegia SWAN 'Blue and White' <i>Swan Columbine</i> \$6.97 Container: 1Gal	Size: 18"x16"	Swan columbines have large flowers that usually have white inner petals and a darker color on the outside petals. They make beautiful cut flowers for a vase. Bloom Time: Late spring to early summer Light: Full Sun to Partial Shade Uses: Accent, hummingbirds, border, containers, cut flower, mass plantin
	Aquilegia SWAN 'Burgundy and White' <i>Swan Columbine</i> \$6.97 Container: 1Gal	Size: 18"x16"	Swan columbines have large flowers that usually have white inner petals and a darker color on the outside petals. They make beautiful cut flowers for a vase. Bloom Time: Late spring to early summer Light: Full Sun to Partial Shade Uses: Accent, hummingbirds, border, containers, cut flower, mass plantin
	Aquilegia vulgaris 'Salmon Rose' <i>Salmon Rose Columbine</i> \$6.97 Container: 1Gal	Size: 8"x12"	Salmon Rose is unlike most columbine. The flowers are fluffy doubles that resemble miniature clematis blooms. They face upward for a better view, too! Flowers are dusty-rose to salmon with a yellow center. Hummingbirds love these! Bloom Time: Spring Light: Full Sun to Full Shade Uses: Hummingbirds, rock gardens, mass plantings, borders, ground cover
	Arctostaphylos uva-ursi 'Massachusetts' <i>Kinnikinnick</i> \$6.97 Container: 1Gal	Size: 6"x24"	Kinnikinnick is an ideal ground cover for spreading over larger areas and for erosion control. This variety sports pretty little white to pink bell-shaped flowers from mid spring all the way into early summer. In summer, scarlet berries appear, also very pretty! The foliage turns a colorful bronzy red in late fall, lasting through the winter, making this a beautiful plant all year long. It is also drought tolerant and deer resistant! Bloom Time: Mid spring to early summer Light: Full Sun to Partial Shade Uses: Groundcover, erosion control
	Arenaria montana 'Avalanche' <i>Avalanche Mountain Sandwort</i> \$6.97 Container: 1Gal	Size: 6"x18"	A new and improved selection of the Sandwort, this species freely produces larger white flowers over a longer bloom period on more uniform, compact plants. It forms prostrate mats of foliage. It is the perfect substitute for moss in sunny areas and will quickly fill in the spaces between stepping stones or trail down the sides of rock walls. The bloom power of this plant creates an impressive show that has tremendous impact when grown en masse. It is even more spectacular when spring-flowering bulbs are mixed in. Bloom Time: Mid spring-mid summer Light: Full Sun Uses: Groundcover, mass plantings, rock gardens, between flag stones
	Armeria maritima 'Nifty Thrifty' <i>Nifty Thrifty Sea Thrift</i> \$6.97 Container: 1Gal	Size: 6"x8"	Nifty Thrifty is a charming variety of sea thrift. It has the characteristic pink pom-pom flowers in spring that everybody likes. But on top of that it also has a lovely variegation to the leaves. They are yellow and green and there is a hint of a crinkle to them. Bloom Time: Mid spring-early summer Light: Full Sun Uses: Accent, rock garden, containers

Botanical Name	Common Name	Description
 Aster dumosus 'Alert' <i>Alert Aster</i> \$6.97 Container: 1Gal Size: 12"x16" Bloom Time: Summer to fall Light : Full Sun Uses: Fall color, attracts butterflies, mass plantings, containers		Alert is a new hybrid New York aster, more compact than most English asters. Reddish-purple, bright flowers have yellow centers, growing to about 12" long stems, perfect for cut flowers.
 Aster KICKIN™ 'Pink Chiffon' <i>Pink Chiffon Aster</i> \$6.97 Container: 1Gal Size: 3'x3' Bloom Time: Late summer to mid fall Light : Full Sun Uses: Fall color, attracts butterflies, mass plantings, containers		Fall asters are perfect for autumn color in your perennial border. This plant forms a bushy mound that becomes covered with loads of pinkish-purple daisy-like flowers from later summer well into fall.
 Astilbe x arendsii 'Amethyst' <i>Amethyst Astilbe</i> \$6.97 Container: 1Gal Size: 2.5'x2' Bloom Time: Early to mid summer Light : Partial Shade to Full Shade Uses: Attracts butterflies, accent, border, containers, waterside, shade, m		Amethyst bears tall stalks of pink to lavender flowers in early to mid spring, rising up to 2 1/2 feet. Her plumes of flowers are particularly feathery. Astilbe are pretty enough to grow as a stand alone plant, but in a mass planting they really make a big impact. They are both deer and rabbit resistant.
 Astilbe x arendsii 'Ellie' <i>Ellie Astilbe</i> \$6.97 Container: 1Gal Size: 18"x18" Bloom Time: Early-mid summer Light : Partial Shade Uses: Mass plantings, borders, containers, rock gardens, woodland garde		Ellie produces open and airy white plumes on deeply cut deep green foliage. All astilbes are impressive, but Ellie is one of the most showy of the white-blooming varieties. Like all astilbies, Ellie prefers moist, rich soil and does well in shade. Perfect for a woodland garden, in mass plantings or even as a specimen.
 Astilbe x arendsii 'Red Sentinel' <i>Red Sentinel Astilbe</i> \$6.97 Container: 1Gal Size: 2'x2' Bloom Time: Mid Summer Light : Partial Shade to Full Shade Uses: Accent, border, cut flowers, mass plantings, rain garden		Red Sentinel flowers are a strong, bold scarlet-red. They are nice, full plumes of flowers thar rise above the bushy mound of lovely green foliage. As an added bonus, the stems of the flower plumes are also a mahogany-red. Grow these in a shady spot with moist soil for best results. They also do really well in a tub or other container.
 Astilbe x arendsii 'Rheinland' <i>Rheinland Astilbe</i> \$6.97 Container: 1Gal Size: 2'x2' Bloom Time: May to June Light : Partial Shade to Full Shade Uses: Mass planting, rain garden		Rhienland is a solid, medium-sized astilbe with a bold pink flower. Their flowers rise in plumes above the plant, reaching 2 feet in height or more. Astilbe are great plants for shade gardens and they like moist soil, filling an important niche.
 Athyrium nipponicum 'Red Beauty' <i>Japanese Painted Fern</i> \$6.97 Container: 1Gal Size: 18"x18" Bloom Time: Light : Partial Shade to Full Shade Uses: Rock garden, borders, containers, edging, mass plantings, woodlan		Red Beauty is noted for its broad habit with attractive, arching triangular fronds of silvery-green. These contrast nicely with the stems and frond veins, which are bright burgundy red, and just a tad of silver mixed in. It can take up to 3 years for the color to fully develop. Ferns make a great ground cover for moist, shady spots. These are small enough to use in mixed containers, or even in indoor arrangements. The leaves maintain their color well, and they have a spicy fragrance.
 Aubrieta hybrida 'Axcent Blue' <i>Blue Axcent Rock Cress</i> \$6.97 Container: 1Gal Size: 6"x12" Bloom Time: Early spring - Early summer Light : Full Sun to Partial Shade Uses: Ground cover, massing, containers, borders		Bright bluish-purple flowers cover this rock cress hybrid all spring. They look beautiful spilling over containers or rock walls. They are evergreen and will spread to fill in an area about 1 foot around pretty quickly to choke out weeds.
 Aucuba japonica 'Goldstrike' <i>Mr. Goldstrike Gold Dust Plant</i> \$6.97 Container: 1Gal Size: 4'x4' Bloom Time: None Light : Full Shade Uses: Specimen, shade, hedge		Who says shade plants have to be dull and dark? Mr. Goldstrike adds a burst of brightness to any shady spot. Light green leaves are splattered heavily with gold dust. It really glows! Not much of a flower. Who needs flowers with this kind of awesome foliage?

	Botanical Name	Common Name	Description
	Azalea 'Cannon's Double' <i>Cannon's Double Azalea</i> \$7.97 Container: QT	Size: 4'x3' Bloom Time: May-June	Cannon's Double is so named because the flowers are double and multi-colored. Coral and pale yellow are the two main colors you will see, but there may be some apricot and cream mixed in to that. It's a pretty spectacular show on this medium-sized azalea. Light : Full Sun to Partial Shade Uses: Specimen
	Azalea 'Lemon Lights' <i>Lemon Lights Azalea</i> \$10.00 Container: 1Gal	Size: 5'x5' Bloom Time: Spring	Lemon Lights produces giant bouquets of lemon yellow flowers that are sweetly fragrant. Bloom season is mid-spring. In fall the leaves turn an outstanding purple, making this a multi-season plant. Light : Full Sun to Partial Shade Uses: Specimen, Accent
	Azalea 'Molalla Red' (Ex.) <i>Molalla Red Azalea</i> \$10.00 Container: 1Gal	Size: 5'x5' Bloom Time: Early summer	Bright Red tubular flowers smother this mounding azalea. It is part of the Exbury series of azaleas. It's flowers are wavy-edged and arranged in large ball-shaped trusses. It is a later bloomer, extending your azalea season well into June. Light : Full Sun to Partial Shade Uses: Accent, Specimen
	Azalea 'Rosy Lights' <i>Rosy Lights</i> \$10.00 Container: 1Gal	Size: 6'x4' Bloom Time: Late spring	Rosy Lights flowers are (surprise!) rosy pink in color. They are strongly fragrant with a spicy sweet scent. The flowers make great center pieces in a vase or bouquet. Light : Full Sun to Partial Shade Uses: Specimen, accent
	Azalea 'Weston's Lemon Drop' <i>Weston's Lemon Drop Azalea</i> \$10.00 Container: 1Gal	Size: 4'x4' Bloom Time: July	Lemon drop features peach colored buds that open to soft yellow flowers that have a slight lemony fragrance! It blooms in mid summer, usually in early to mid-July. Foliage turns reddish-pink in fall. Light : Full Sun to Partial Shade Uses: Specimen, accent, mass plantings, border hedge
	Berberis thunbergii 'Admiration' <i>Admiration Barberry</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time: April-May	Admiration deserves its name. This barberry forms a nice, compact 2' tall and wide mound of orangish-red leaves edged with yellow, really pretty. It's a great way to add bright color to a small space from spring through fall! Light : Full Sun to Partial Shade Uses: Borders, hedges, mixed gardens
	Berberis thunbergii 'Crimson Pygmy' <i>Crimson Pygmy Barberry</i> \$6.97 Container: 1Gal	Size: 2-3'x3-4' Bloom Time: April-May	A versatile low profile red-leaved barberry adaptable to many garden needs. An excellent mixed border plant to add foliage color. Also usefull as a green color alternative for a small hedge. Use in Japanese garden designs near water features, or in wild, natural areas of your garden. Group this barberry with bright yellow and gold contrasting shrubs of Juniper, Barberry and Forsythia. Pink blooming Roses, Sunrose and Peony complement the summer and fall foliage. Light : Full Sun to Partial Shade Uses: Borders, hedges, mixed gardens
	Berberis thunbergii 'Golden Rocket' <i>Golden Rocket Barberry</i> \$6.97 Container: 1Gal	Size: 5'x2' Bloom Time: spring	This is one barberry that you will not miss! Everything about it stands out. Bright golden foliage lights up the garden. It looks especially stunning against the coral colored stems. And the branches grow almost straight up like a pillar, or a rocket! The overall shape is a tall, narrow plant reaching for the sky. Finally, bright red berries in fall finish off the season nicely. Light : Full Sun to Partial Shade Uses: Hedge, privacy, specimen,
	Berberis thunbergii 'Helmond Pillar' <i>Helmond Pillar Barberry</i> \$6.97 Container: 1Gal	Size: 4'x1' Bloom Time: April - May	Unlike other barberrys, this one grows like a pillar, straight up to about 4-5' but only 12-18" wide. This creates a unique effect that adds excellent texture to your garden. The burgundy leaves are attractive from March to October, especially in fall when they turn to orange, yellow and red. Bright red berries form in fall and last into winter. The dense foliage and sharp thorns make it a good choice for a protective hedge. Light : Full Sun Uses: Hedge, specimen

	Botanical Name	Common Name	Description
	Berberis thunbergii 'Rosy Glow' <i>Rosy Glow Barberry</i> \$6.97 Container: 1Gal	Size: 3-6'x4-7' Bloom Time: April-May	Rosy Glow is one of the most striking of the barberries. It's leaves are not just burgundy, but they are red and purple and crimson and pink, with streaks and stripes mixing it all together. And the red stems are almost as colorful as the leaves. The yellow flowers in spring are nice, but unnecessary, as the leaves are the star of this plant. Watch out for the thorns when pruning, but they do make this a great choice for deer resistance. Light : Full Sun Uses: Specimen, hedge, borders
	Blechnum spicant <i>Deer Fern</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time: None	Deer ferns are a northwest native. They are perfect for shady spots. Two kinds of fronds give this fern some pizzazz. A nice, stately mound of sterile fronds are topped with wispy fertile fronds that sway in the wind. This evergreen beauty is also deer resistant! Light : Partial Shade to Full Shade Uses: Accent, woodland garden, shade
	Buxus microphylla japonica 'Koreana' <i>Korean Boxwood</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: April	Korean littleleaf boxwood has a compact, dense habit ideal for low growing formal hedges. It is usually grown to 2 or 2 1/2 feet tall for border or walkway edging. It is a very slow grower, only about 2" a year, making it easy to maintain with light, infrequent trimming. Light : Full Sun to Partial Shade Uses: Hedge
	Buxus microphylla japonica 'Winter Beauty' <i>Winter Beauty Boxwood</i> \$6.97 Container: 1Gal	Size: 4'x4' Bloom Time: April	Winter Beauty boxwood is a mounded form of the common hedge plant. Its foliage is dark green. This plant grows slowly and keeps to its intended form well, so it does not need much pruning. What really sets Winter beauty apart, however, is the fall and winter color, which is a lustrous bronzey green. It is also a versatile plant that can be used for topiary, pruned into a tree form, or used for bonsai, as well as a low hedge or edging around the garden. Light : Full Sun to Partial Shade Uses: Hedges, edges, topiary, bonsai, specimen
	Calamagrostis acutiflora 'Avalanche' <i>Avalanche Feather Reed Grass</i> \$6.97 Container: 1Gal	Size: 4-6'x3' Bloom Time: Early summer-mid fall	Avalanche is a variegated form of the beloved Karl Foerster feather reed grass. It gives a magnificent display of wheat-like seed heads that appear in summer and last into winter. It makes a great backdrop behind smaller perennials, or mixed in with taller ones. It will slowly spread to about 2-3 feet wide and stay in one place, not reseeding. Best in full sun. It can get floppy if it has too much shade. It can grow in moist soil. Light : Full Sun to Partial Shade Uses: Specimen, back of borders, containers
	Calamagrostis acutiflora 'Karl Foerster' <i>Feather Reed Grass</i> \$6.97 Container: 1Gal	Size: 4-6'x3' Bloom Time: Early summer-mid fall	Karl Foerster feather reed grass was the Perennial Plant of the Year in 2001. It gives a magnificent display of wheat-like seed heads that appear in summer and last into winter. It makes a great backdrop behind smaller perennials, or mixed in with taller ones. It will slowly spread to about 2-3 feet wide and stay in one place, not reseeding. Best in full sun. It can get floppy if it has too much shade. Light : Full Sun to Partial Shade Uses: Specimen, back of borders, containers
	Calluna vulgaris 'Firefly' <i>Firefly Heather</i> \$6.97 Container: 1Gal	Size: 6"x12" Bloom Time: July-August	Firefly is a true heather that is a stunning beauty any time of year. In the spring and summer the foliage is lime green underneath and they almost glow with orange and yellow on top and everywhere that is exposed to sun. In fall, and especially in winter, though, the leaves develop such an intense red you might think your kids melted crayons on them! Light : Full Sun Uses: Alpine and rock gardens, groundcover, winter color
	Calluna vulgaris 'Wickwar Flame' <i>Wickwar Flame Heather</i> \$6.97 Container: 1Gal	Size: 6"x12" Bloom Time: July-August	Wickwar Flame is a true heather that is a stunning beauty any time of year. In the spring and summer the foliage is lime green underneath and they almost glow with orange and yellow on top and everywhere that is exposed to sun. In fall, and especially in winter, though, the leaves develop such an intense red you might think your kids melted crayons on them! Light : Full Sun Uses: Alpine and rock gardens, groundcover, winter color

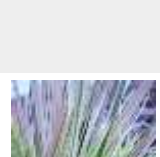

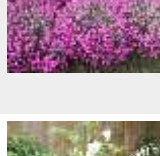

Botanical Name	Common Name	Description
 <p>Camellia x williamsii 'Debbie' <i>Debbie Camellia</i> \$6.97 Container: QT Size: 5'x6'</p>	<p>Debbie has beautiful semi-double, peony-like flowers that are 5 inches wide and rose-pink. She usually blooms starting in late January or early February and can continue to bloom all the way to the end of March or later. Camellias can tolerate sun in the Puget Sound region, but are typically a good choice for shade or partial shade areas of the garden.</p>	<p>Bloom Time: Late winter to early spring Light : Uses: Specimen, hedge</p>
 <p>Campanula glomerata 'Superba' <i>Superba Bellflower</i> \$6.97 Container: 1Gal Size: 2'x2'</p>	<p>Bellflowers are super popular, beautiful summer blooming perennials. Superba forms a lush mound of large green leaves that, in summer, is topped by tall stems of large, beautiful clusters of purple flowers. The plants will quickly fill out to 2 feet or more wide.</p>	<p>Bloom Time: Early to mid summer Light : Full Sun to Partial Shade Uses: Accent, border, cut flower, mass planting, woodland garden</p>
 <p>Carex oshimensis 'Evergold' <i>Evergold Japanese Sedge</i> \$6.97 Container: 1Gal Size: 8'x12"</p>	<p>Evergold sedge has sharply variegated leaves that somehow look brighter than if the dark green edges were not there. Easy to grow, it forms low spreading clumps that choke out all the weeds. They prefer full to part shade. Although the brown "flowers" are not much to look at, the butterflies like them.</p>	<p>Bloom Time: Late spring to early summer Light : Partial Shade to Full Shade Uses: Ground Cover, shade garden, woodland garden, borders, rock gar</p>
 <p>Caryopteris 'Inoveris' GRAND BLEU™ <i>Grand Bleu Bluebeard</i> \$6.97 Container: 1Gal Size: 3'x3'</p>	<p>Bluebeard loves full sun and dry soil. It can handle anything but wet, heavy clay, and it is very drought-tolerant. Grand Bleu is a smaller, easily managed compact form of bluebeard. It needs very little pruning, and the blue-purple flowers will bloom without fail from midsummer until first frost.</p>	<p>Bloom Time: Mid summer to early Fall Light : Full Sun Uses: Attracts butterflies, border, container, cut flower, drought tolerant,</p>
 <p>Cercidiphyllum japonicum <i>Katsura Tree</i> \$6.97 Container: 1Gal Size: 70'x50'</p>	<p>The Katsura is one of the most ornamental of ornamental trees. It naturally grows into a rounded form, the leaves are also rounded, and they may have a bronze tint in early spring. Spectacular fall color of brilliant red, apricot and yellow leaves. The fall leaves also produce a sweet fragrance that will fill your yard.</p>	<p>Bloom Time: Light : Full Sun to Partial Shade Uses: Specimen</p>
 <p>Chaenomeles japonica 'Texas Scarlet' <i>Texas Scarlet Flowering Quince</i> \$6.97 Container: 1Gal Size: 4'x5'</p>	<p>Texas Scarlet flowering quince is an attractive option for a protective hedge. Thorns will keep out intruders and wildlife. Texas Scarlet stays relatively small, reaching 3-4' in height, maybe a foot wider than tall. The flowers bloom in early spring, from March to April with scarlet red or watermelon red.</p>	<p>Bloom Time: March to April Light : Full Sun to Partial Shade Uses: Hedge, specimen</p>
 <p>Chaenomeles japonica 'Toyo Nishiki' <i>Toyo Nishiki Flowering Quince</i> \$15.97 Container: 2Gal Size: 6'x6'</p>	<p>Toyo Nishiki is our favorite flowering quince. Nishiki is a Japanese word that means 3 colors. The flowers of this beautiful plant can be white, pink, and red all at the same time! It is breathtaking! The flowers bloom slightly later than other quince, stretching into late April. The thorns make this a great protective hedge.</p>	<p>Bloom Time: Mar or April Light : Full Sun to Partial Shade Uses: protective hedge, specimen</p>
 <p>Chamaecyparis obtusa 'Gracilis Nana' <i>Dwarf Hinoki Cypress</i> \$9.97 Container: 1Gal Size: 4-6'x3-4'</p>	<p>Beautiful and fun! The dwarf hinoki grows slowly to no more than 4 or 5 feet usually, forming a beautiful, dark green narrow pyramid. The foliage is shiny and grows in tight overlapping fans, making them look really cool! Hinoki is also very drought tolerant, once established. Even in long summer drought-periods it won't need watering.</p>	<p>Bloom Time: None Light : Full Sun to Partial Shade Uses: Specimen</p>

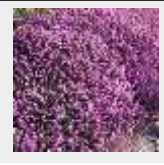

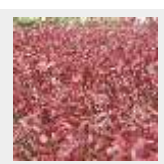

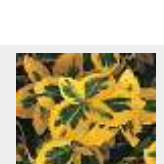

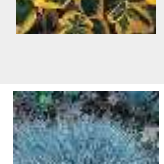

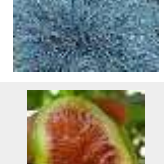

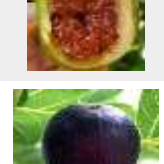

Botanical Name	Common Name	Description
 Chamaecyparis pisifera 'Golden Mop' <i>Golden Mop Cypress</i> \$6.97 Container: 1Gal Size: 3'x3' Bloom Time: None		Slow growing, mounded dwarf shrub with beautiful golden yellow foliage that is stringy and whip-like. The yellow color is maintained throughout the year. One of the best accent plants. Grow in full sun for best, brightest color. Light : Full Sun to Partial Shade Uses: Rock garden, edging, containers, accent, border front, evergreen
 Clematis 'Ascotiensis' <i>Ascotiensis Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time: July to September		Bluish-periwinkle flowers bloom late in the season, starting in July and often lasting to September. The flowers are about 5" across. Ascotiensis grows well with a yellow climbing rose, such as Golden Showers. Use Group 3 pruning method. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Haku Ookan' <i>Haku Ookan Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time: Spring, Summer, Fall		Large semi-double Purple-plum flowers are 6-8 inches across! Use group 2 (optional light pruning after flowering) method of pruning. Typically blooms in mid spring and again in fall. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Horn of Plenty' <i>Horn of Plenty Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time: May-June; August to September		Flowers of Horn of Plenty are 6-8 inches across, colored a light purple/lavender with rosy ting, and a reddish bar through each petal. It blooms in May to June, and again in late August or early September. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Jackmanii Superba' <i>Jacmanii Superba Clematis</i> \$12.97 Container: 1Gal Size: 12'x3' Bloom Time: Group 3: Blooms in late spring and early fall		At a distance, Jackmanii Superba appears to have pure purple flowers. Up close, however, you will see there is a faint stripe of lighter purple or reddish purple in the center of each petal. Jackmanii Superba blooms in late spring and again in early autumn, possibly as late as October. Light : Full Sun to Partial Shade Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Joan Picton' <i>Joan Picton Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time: July-August		Joan's flowers are of moderate size, 4-6" across. It blooms in early June and again in early Septbember. It is a group B2 clematis (for pruning). The main colors are lilac and pink, but you can also find ivory, yellow and purple sometimes in the flowers. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Proteus' <i>Proteus Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time: Late May-June; late August-September		Fully double, lilac pink to mauve, star shaped flowers are amazing! These flowers can get 6-8" across, too! Blooms appear in late May and again in late August. Group 2 pruning method. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds
 Clematis 'Rhapsody' <i>Rhapsody Clematis</i> \$12.97 Container: 1Gal Size: 10'x2' Bloom Time:		5-7" flowers are sapphire blue that deepen as they age. Creamy yellow centers contrast nicely. These bloom profusely from June to September, and the later flowers will be smaller than the earlier ones. This is a group 3 clematis. Light : Full Sun Uses: Containers, attracts butterflies and hummingbirds

	Botanical Name	Common Name	Description
	Coreopsis grandiflora SOLANNA™ 'Golden Sphere' <i>Golden Sphere Coreopsis</i>	\$6.97 Container: 1Gal	Golden Sphere coreopsis produces tons of stems bearing large, fluffy, golden pom-pom globes of flowers. These flowers start to appear in early June and you will see heavy blooming lasting all the way to late October or later. These make great cut flowers and are butterfly magnets!
	Size: 18"x18"	Bloom Time: Early summer to late fall	Light : Full Sun Uses: Border, containers, cut flower, accent, butterflies, deer resistant, ma
	Coreopsis grandiflora 'Sunfire' <i>Sunfire Coreopsis</i>	\$6.97 Container: 1Gal	Sunfire is a bushy form of coreopsis. The foliage is a mound of leathery green leaves. Sunfire is loaded with tons of flowers from early June until late October. The bright, golden flowers have a burgundy center. Great for borders or containerns
	Size: 18"x18"	Bloom Time: Early summer to early fall	Light : Full Sun Uses: Border, containers, cut flower, accent, butterflies, deer resistant, ma
	Coreopsis verticillata 'Moonbeam' <i>Moonbeam COREOPSIS</i>	\$6.97 Container: 1Gal	Moonbeam is another great coreopsis plant, with beautiful foliage in spring that is topped - covered, really - with creamy yellow daisy-like flowers from early June right on through to fall, often lasting well into October. Butterflies go nuts over these flowers, and the honeybees like them, too! Moonbeam is tolerant of hot, dry sites, once established.
	Size: 2'x2'	Bloom Time: June to September	Light : Full Sun Uses: Cut flowers, edging, sunny border, containers, mass plantings
	Coreopsis verticillata 'Route 66' <i>Route 66 Coreopsis</i>	\$6.97 Container: 1Gal	Route 66 is a beautiful type of coreopsis with flowers that will delight you! Ferny foliage is delicate in appearance, but actually quite tough. In early summer buds open to starry yellow flowers that have deep burgundy centers. No two are quite the same! They make wonderful cut flowers. You can grow this in hot, dry places and it will keep right on producing flowers from early summer till frost!
	Size: 2'x2'	Bloom Time: Early summer to mid fall	Light : Full Sun Uses: Border, accent, specimen, mass planting, butterflies
	Coreopsis verticillata 'Zagreb' <i>Zagreb Coreopsis</i>	\$6.97 Container: 1Gal	'Zagreb' Threadleaf coreopsis typically grows in dense, bushy clumps to 1.5' tall and features bright yellow, daisy-like flowers (1-2" diameter) with untoothed rays and darker yellow center disks. Flowers appear singly in loose clusters and bloom all summer long, starting in late spring and sometimes lasting all the way until first frost. Shearing plants in early August when bloom usually tapers down will encourage a fall rebloom. Zagreb can tolerate hot, dry or humid locations once established
	Size: 2'x2'	Bloom Time: Throughout the summer	Light : Full Sun to Partial Shade Uses: Cut flowers, edging, sunny border, containers, mass plantings
	Cornus alba 'Bailhalo' <i>Ivory Halo® Dogwood</i>	\$6.97 Container: 1Gal	A more compact version of the variegated red twig dogwood, Ivory Halo has beautiful green and ivory variegated leaves and brilliant red stems in winter. It grows as a compact, dense hedge, reaching about 4 to 5 feet tall and wide. It maintains a nice, neat rounded form with very little pruning. You can use this in mass or as a low hedge.
	Size: 4-5'x4-5'	Bloom Time: Summer	Light : Full Sun to Partial Shade Uses: Hedge, mass planting, specimen, attracts birds, rain garden
	Cornus alba 'Bud's Yellow' <i>Yellowtwig Dogwood</i>	\$6.97 Container: 1Gal	Bud's Yellow is a great all-around plant. It grows densely with dark green leaves to about 8' tall and 7' wide. It stays dense from top to bottom, so makes a good hedge. Its leaves turn bright yellow in fall, and then when winter comes the bright yellow stems are attention grabbing all throughout winter. There is a small white bloom in late spring.
	Size: 8'x7'	Bloom Time: Late spring	Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, hedge
	Cornus alba 'Golden Prairie Fire' <i>Golden Prairie Fire Dogwood</i>	\$6.97 Container: 1Gal	Golden Prairie Fire is such a beautiful dogwood shrub. The leaves emerge in spring a bright golden color that fades to a soft yellow, shining all summer long. In winter the bark turns reddish-orange, providing year-round interest. The white flowers are nice. The white berries that last through winter are even nicer. This plant can tolerate very moist soils.
	Size: 5-7'x5-7'	Bloom Time: spring	Light : Full Sun to Partial Shade Uses: Specimen, Border, hedge, mass planting, wet soil

	Botanical Name	Common Name	Description
	Cornus kousa 'Beni Fuji' <i>Beni Fuji Chinese Dogwood</i> \$29.00 Container: 3 Gal	Size: 15'x12' Bloom Time: Summer	Beni Fuji is smaller than Satomi, with beautiful pink-red flowers in summer. It grows naturally as a bush, but can be trained to grow as a tree, too. This is one of the deepest pink Chinese dogwoods, with lots of flexibility! Light : Full Sun to Partial Shade Uses: Specimen
	Cornus kousa 'Greensleeves' <i>Greensleeves Dogwood</i> \$37.00 Container: 3Gal	Size: 18'x18' Bloom Time: Late spring or early summer	Greensleeves is a beautiful Chinese dogwood. It's flowers are not quite white, but more of a cream color with a hint of green tint to them. Chinese dogwoods bloom later than native forms, with flowers usually appearing near the end of May and lasting into mid or late June. The fruit of Chinese dogwoods is edible, and quite tasty! Light : Full Sun to Partial Shade Uses: Specimen tree, edible fruit
	Cornus sericea 'Baileyi' <i>Bailey Red Twig Dogwood</i> \$6.97 Container: 1Gal	Size: 10'x10' Bloom Time:	The Bailey Red Twig Dogwood is the classic with stunningly bright red stems in winter months. Dark green leaves appear in spring and the stems fade to more of a burgundy red, which makes a beautiful contrast with the green. This plant can grow almost anywhere - wet, dry, sandy, clay. White flowers are nice, and they are replace in late summer with white berries that are also nice. Plant this where nothing else grows. Light : Full Sun to Partial Shade Uses: Hedge, specimen, winter interest, attracts birds
	Cornus x 'Rutgan' <i>Stellar Pink® Dogwood</i> \$44.00 Container: 3Gal	Size: 18'x18' Bloom Time: May	Of the many pink flowering varieties of dogwood, Stellar Pink is the one most likely to take your breath away. It is a hybrid of the native dogwood and the Japanese dogwood, and the result is the best of both worlds. It is easy to grow, is resistant to most diseases that affect dogwoods, and just looks beautiful all the time! Light : Full Sun to Partial Shade Uses: Specimen
	Cornus x 'Rutgan' <i>Stellar Pink® Dogwood</i> \$44.00 Container: 7Gal	Size: 18'x18' Bloom Time: May	Of the many pink flowering varieties of dogwood, Stellar Pink is the one most likely to take your breath away. It is a hybrid of the native dogwood and the Japanese dogwood, and the result is the best of both worlds. It is easy to grow, is resistant to most diseases that affect dogwoods, and just looks beautiful all the time! Light : Full Sun to Partial Shade Uses: Specimen
	Cortaderia selloana 'Pumilia' <i>Dwarf Pampas Grass</i> \$6.97 Container: 1Gal	Size: 6'x6' Bloom Time: Late summer	Dwarf pampas grass is still a big plant, though it is more manageable than the full size for most people. Maxing out at around 6' tall and wide, with beautiful plumes of feathery flowers from later summer through the winter. Light : Full Sun Uses: Hedge, specimen, cut flowers
	Cortaderia selloana 'Rosea' <i>Pink Pampas Grass</i> \$6.97 Container: 1Gal	Size: 8-10'x8-10' Bloom Time: Summer, Fall	The flowers of pink pamaps grass are more of a silvery-pink, a really striking but not overwhelming color. It is a tough, fast growing grass that will reach a size of 8-10' in just a few years. Light : Full Sun Uses: Hedge, specimen, cut flowers
	Corydalis 'Blackberry Wine' <i>Blackberry Wine Corydalis</i> \$6.97 Container: 1Gal	Size: 14"x18" Bloom Time: Mid spring to early fall	Corydalis have elegant lacy green leaves that are evergreen. Blackberry Wine has dusky purple tubular flowers that are slightly fragrant. These are long bloomers, starting in mid spring and lasting all the way into fall, 6 or even 7 months! It grows best with some shade. Light : Partial Shade Uses: Rock garden, border, containers, edging, rabbit resistant, woodland
	Corylus avellana contorta <i>Harry Lauder's Walking Stick</i> \$22.00 Container: 1Gal	Size: 8'x8' Bloom Time: April	Harry Lauder's Walking Stick, also known as contorted filbert or corkscrew hazelnut, is one of the most unusual plants you will ever see. Its twisting and spiraling branches are almost mesmerizing. The leaves are nice, and put on a decent fall display of yellow that lasts longer than most. But it is the crazy branches, most visible in winter, that make this a Plant of Merit, and a favorite of many gardeners. Light : Full Sun to Partial Shade Uses: Specimen

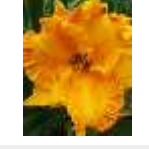

Botanical Name	Common Name	Description
 Cotinus coggygria 'Royal Purple' <i>Royal Purple Smokebush</i> \$6.97 Container: QT	Royal Purple is a compact, purple-leaved smokebush. The flowers are not so noticeable, but as they fade the plant forms billowy "smoke-like" puffs from the flowers that last throughout the summer.	Size: 10'x15' Bloom Time: May to July Light : Full Sun Uses: Specimen, hedge
 Crocsmia 'Lucifer' <i>Lucifer Crocsmia</i> \$6.97 Container: 1Gal	Lucifer is one of the hottest crocsmia because of their large size and flame-red flowers. They are a dependable heavy bloomer, with flowers rising above the plant to 4'. They make outstanding cut flowers. Grow them in full sun, but they will adapt to shady spots, too.	Size: 4'x4' Bloom Time: Mid summer to early fall Light : Full Sun to Partial Shade Uses: Mass planting, accent
 Cymbopogon citratus <i>Lemon Grass</i> \$6.97 Container: 1Gal	Lemon grass is an attractive ornamental grass with a lemony scent. It is sought out for its ability to repel dogs, cats and other animals that dislike its citrus aroma. Plant it near other plants you are trying to protect. It is only hardy to 20 degrees. So plant it in a protect frost-free place or bring it indoors in winter.	Size: 2-4'x2-4' Bloom Time: N/A Light : Full Sun Uses: Aromatic, animal deterrant, indoor plant
 Daphne odora 'Maejima' <i>Maejima winter Daphne</i> \$24.97 Container: 2Gal	Maejima is a winter daphne, blooming in early March for several weeks. Boy does it smell good, too! The evergreen variegated foliage lasts all year and is sure pretty! This is a compact daphne, growing to 3-4' tall and wide.	Size: 3-4'x3-4' Bloom Time: Late winter to early spring Light : Full Sun to Partial Shade Uses: Specimen, foundation, border
 Daphne x transatlantica 'Blafra' Eternal Fragrance™ <i>Eternal Fragrance™ Daphne</i> \$12.97 Container: 1Gal	Masses of especially fragrant flowers are the highlight of this daphne hybrid. The flowers are white blushed with pink and they bloom from mid spring all the way into fall, for 3 seasons of flowering! Its compact size allows for container growing on the patio. It is semi-evergreen, so it is a great choice for a low hedge, too!	Size: 3'x3' Bloom Time: Spring to fall Light : Full Sun to Partial Shade Uses: Specimen, edging
 Delosperma dyeri 'Psdolod' <i>Red Mountain Ice Plant</i> \$6.97 Container: 1Gal	Hardy ice plants come from the mountains of South Africa, and they grow well in our mild winter climate. This variety has bright purple flowers all summer long and it will definitely brighten up your rock garden, container, border or flower bed. Ice plants make great ground covers. They form mats of evergreen foliage that will choke out weeds and look nice all year long. These take no effort to grow, need almost no water and grow and spread quickly.	Size: 4'x8" Bloom Time: Mid spring to mid fall Light : Full Sun Uses: Ground cover, rock gardens, xeriscaping, edging. Attracts butterfly
 Delphinium 'Astolat' <i>Astolat Pacific Giant Delphinium</i> \$6.97 Container: 1Gal	If you're looking for a star for your summer garden, delphiniums are what you need, particularly a giant like Astolat! He starts out each spring with a low mound of attractive green foliage. Then giant spikes begin to rise up, reaching between 4 and 6 feet in height. These spikes are covered with satiny flowers of light and deep dark pink petals and white centers. Cutting down faded flower spike will encourage a repeat performance in the fall.	Size: 4-6'x2' Bloom Time: Early to mid summer Light : Full Sun Uses: Massed, specimen, border, cut flowers, attracts birds and butterflies
 Delphinium cultorum 'King Arthur' <i>King Arthur Giant Delphinium</i> \$6.97 Container: 1Gal	If you're looking for a star for your summer garden, delphiniums are what you need, particularly a giant like King Arthur! This one lives up to his legendary name. He starts out each spring with a low mound of attractive green foliage. Then giant spikes begin to rise up, reaching between 4 and 6 feet in height. These spikes are covered with satiny flowers of deep royal-violet petals and white centers. Cutting down faded flower spike will encourage a repeat performance in the fall.	Size: 4-6'x2' Bloom Time: Early to mid summer Light : Full Sun Uses: Massed, specimen, border, cut flowers, attracts birds and butterflies

	Botanical Name	Common Name	Description
	Delphinium elatum 'Aurora Blue' <i>Aurora Blue Delphinium</i> \$6.97 Container: 1Gal		If you're looking for a star for your summer garden, delphiniums are what you need, and Aurora Blue is a great one to start with! She starts out each spring with a low mound of attractive green foliage. Then giant spikes begin to rise up, reaching between 3-4 feet in height. These spikes are covered with satiny flowers of violet-blue petals and white centers. Cutting down faded flower spike will encourage a repeat performance in the fall. Size: 4'x3' Bloom Time: Early-mid summer Light : Full Sun Uses: Massed, specimen, border, cut flowers, attracts birds and butterflies
	Delphinium elatum 'Guardian Mix' <i>Guardian Mix Delphinium</i> \$6.97 Container: 1Gal		These delphiniums are mid-sized, usually just a bit more than 3' tall, with various shades of white to blue. They are vigorous, fast growers and will mature more quickly than many other delphiniums. The strong stems make great cut flowers. Cut the faded flowers to encourage reblooming in the fall. Size: 4'x3' Bloom Time: Early to mid summer Light : Full Sun Uses: Massed, specimen, border, cut flowers, attracts birds and butterflies
	Delphinium PACIFIC GIANT 'Galahad' <i>Galahad Pacific Giant Delphinium</i> \$6.97 Container: 1Gal		If you're looking for a star for your summer garden, delphiniums are what you need, particularly a giant like Galahad! These are as pure white as Sir Galahad the pure! He starts out each spring with a low mound of attractive green foliage. Then giant spikes begin to rise up, reaching between 4 and 6 feet in height. These spikes are covered with satiny flowers of pure white. Cutting down faded flower spike will encourage a repeat performance in the fall. He starts out each spring with a low mound of attractive green foliage. Then giant spikes begin to rise up, reaching between 4 and 6 feet in height. These spikes are covered with satiny flowers of deep royal-violet petals and white centers. Cutting down faded flower spike will encourage a repeat performance in the fall. Size: 4-6'x2' Bloom Time: Early to mid summer Light : Full Sun Uses: Massed, specimen, border, cut flowers, attracts birds and butterflies
	Deschampsia caespitosa 'Northern Lights' <i>Northern Lights Tufted HairGrass</i> \$6.97 Container: 1Gal		Northern Lights is a great choice for a small accent, when you need a little color. It stays nice and compact, around 8-12" tall is all. The colors will accent other larger shrubs or specimens nicely. Leaves are green and cream, but in spring and fall they also get a nice pink tint. Size: 1'x2' Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Accent, mass plantings, border, rock garden, container
	Dianthus gratianopolitanus 'Fire Witch' <i>Fire Witch Dianthus</i> \$6.97 Container: 1Gal		Fire Witch is so named because the flowers have jagged edges like flames of fire. The bright pink flowers are fragrant and really look fantastic against the silvery blue foliage. The flowering is heaviest in spring, but Fire Witch will repeat bloom throughout the summer and early fall. Size: 12"x12" Bloom Time: Spring, summer, into fall Light : Full Sun Uses: Containers, borders, edging, mass planting, rock gardens
	Dicentra spectabilis 'Alba' <i>Old-fashioned Bleedingheart</i> \$6.97 Container: 1Gal		Similar to the traditional bleeding heart, but with pure white flowers! Grows best in rich, moist soil with partial shade. The flowers hang like locket, dangling from arching stems in late spring and early summer. Size: 3'x3' Bloom Time: Late spring-early summer Light : Partial Shade Uses: Border, containers, cut flowers, specimen, woodland garden, rain g
	Dicentra spectabilis 'Rosea' <i>Rosea Bleeding Heart</i> \$6.97 Container: 1Gal		Old-fashioned Bleeding Hearts are one of the most popular of all old-fashioned or heirloom plants. Plants form a bushy mound of up to 3 feet in height and spread. The leaves have a somewhat ferny appearance. Dangling bright-pink flowers hang down from arching stems. The flowers look just like pink heart locket. You can shear these down to 6" after blooming to freshen up the foliage. Grow these in containers or in the yard, but keep them nearby so you can enjoy cut flowers in your home, too! Size: 3'x3' Bloom Time: Late spring-early summer Light : Partial Shade Uses: Border, containers, cut flowers, specimen, woodland garden, rain g
	Epimedium youngianum 'Roseum' <i>Rosy Barrenwort</i> \$6.97 Container: 1Gal		Want a plant that grows great in shade, has a long bloom season, is deer resistant and rabbit resistant, and needs little care? Look no further than this beautiful form of barrenwort, also known as epimedium. They are also drought-tolerant and live a long time. Size: 12"x18" Bloom Time: Early to late spring Light : Partial Shade to Full Shade Uses: Accent, rock garden, border, container, edging, ground cover

	Botanical Name	Common Name	Description
	Erica x darleyensis 'Kramer's Rote' <i>Kramer's Rote Winter Heather</i> \$6.97 Container: 1Gal		Dark evergreen foliage turns a bronze color in winter that mixes beautifully with the magenta flowers. Kramer's Rote is one of the most popular and best looking of all the Darley winter heathers. Size: 15"x24" Bloom Time: January to April Light : Full Sun Uses: Groundcover, edges, borders, accents, winter interest
	Euonymus Alatus 'Compactus' <i>Dwarf Burning Bush</i> \$6.97 Container: 1Gal		The dwarf burning bush makes a great addition to the landscape. It is ideal as a border plant, though it can also be used in hedges or as a specimen plant. There's not much of a flower to speak of. They are grown for their beautiful foliage, which looks nice and graceful throughout the spring and summer. However, it is in the fall when the "burning bush" is set on fire. Its leaves turn an extraordinarily brilliant shade of red that lasts until leaf drop. Size: 4'x4' Bloom Time: Light : Full Sun to Partial Shade Uses: Hedge, specimen, foundation
	Euonymus fortunei 'Colorata' <i>Purple Leaf Wintercreeper</i> \$6.97 Container: 1Gal		An extremely tough, hardy evergreen, clinging vine or creeping ground cover that quickly forms a dense, weed-smothering layer. The dark green leaves turn reddish-purple in fall, lasting through the winter. A great choice for shady, forested areas or for erosion control on slopes. Size: 12"x36" Bloom Time: Light : Uses: Ground cover, erosion control, shady areas
	Euonymus fortunei 'Emerald Gaiety' <i>Emerald Gaiety Euonymus</i> \$6.97 Container: 1Gal		'Emerald Gaiety' is a variegated, shrubby euonymus with a spreading habit that typically grows to 3-5' tall over time. It is erect and densely branched, featuring rounded glossy deep emerald green leaves (to 1 3/4" diameter) with attractive irregular creamy white margins. The white margins may turn bright pink as winter approaches. Inconspicuous, greenish-white flowers may appear in June. 'Emerald Gaiety' is a versatile plant that can be used in foundations, as a low hedge, as a specimen, in mass plantings and it can even be trained to climb. Size: 4'x4' Bloom Time: June Light : Full Sun to Partial Shade Uses: Low hedging, edging, containers, borders
	Euonymus fortunei 'Emerald N Gold' <i>Emerald n Gold Euonymus</i> \$6.97 Container: 1Gal		Emerald 'n' Gold euonymus shrubs are typically pruned to about 3 feet tall by 4 feet wide. The trademark of Emerald 'n' Gold euonymus shrubs is their variegated foliage – green on the inside, golden on the outside. A touch of pink may come into the leaves in fall or winter. They prefer well-drained soils. They are not fussy about sun, but will look best in full-sun. These plants are so versatile they can be used as ground cover, for erosion control, as foundation plants, or even as a low hedge. They are also showy enough to be specimen plants. Size: 2'x3' Bloom Time: June Light : Full Sun to Partial Shade Uses: Low hedging, edging, containers, borders
	Festuca glauca 'Elijah Blue' <i>Elijah Blue Fescue</i> \$6.97 Container: 1Gal		Elijah Blue is the most popular variety of blue fescue. The blades keep their blue color well, even in hot summers and cold wet winters. In our mild winters they are evergreen, though sheering them back in late winter will keep them clean and ready for spring. Size: 10"x12" Bloom Time: Late spring to early summer Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, edging, mass planting
	Ficus carica 'Desert King' <i>Desert King Fig Tree</i> \$6.97 Container: OT		Desert King is a fairly large, vigorous tree for a fig. It produces delicious fruit each year, with a heavy crop in spring and a smaller crop in the summer. The figs are large and very sweet! Desert King is an attractive fig tree, too, giving a tropical look to your garden. Size: 20'x20' Bloom Time: Spring Light : Full Sun Uses: Edible fruit
	Ficus carica 'Olympian' <i>Olympian Fig</i> \$6.97 Container: OT		The Olympian fig was discovered growing near Olympia, WA, so it is truly a local fig! It is also a dwarf compared to most fig trees, growing to a size of 8' tall and 4' wide. The sweet purple fruits are delicious and super healthy. This tree starts producing figs at an early age, too, and even the first crop is big! Because of its smaller size, you can grow Olympian in a container. Fruit appears in late summer, ripening by early fall. Size: 8'x4' Bloom Time: Spring, summer Light : Full Sun Uses: Edible fruit

	Botanical Name	Common Name	Description
	Fragaria 'Eversweet' <i>Eversweet Strawberry</i>		Ever-bearing
	\$6.97 Container: 1Gal		
	Size:	Bloom Time:	Light :
	Fragaria 'Lipstick' <i>Lipstick Ornamental Strawberry</i>		Lipstick is an ornamental strawberry. It makes a great evergreen groundcover with a really long bloom time - like May to November. The reddish-purple flowers are very pretty and showy. Even though this is an ornamental plant, it still may produce some tasty, small strawberries, so watch for them in summer.
	\$3.00 Container: L3		
	Size: 6"x3'	Bloom Time: Late spring to mid fall	Light : Full Sun to Partial Shade
			Uses: Ground cover, containers, accent, rabbit resistant, massed
	Gaillardia 'Arizona Red Shades' <i>Arizona Red Blanket Flower</i>		Blanket Flowers are beloved for their long bloom season. Arizona red blooms profusely, with large crimson-red daisy flowers all summer and well into fall. It thrives in hot, sunny sites. Once it is established it is drought tolerant. Needs good drainage.
	\$6.97 Container: 1Gal		
	Size: 1'x1'	Bloom Time: Early summer to early fall	Light : Full Sun
			Uses: Accent, border, containers, cut flower, dried flower, mass plantings,
	Gaillardia 'Arizona Sun' <i>Arizona Sun Blanket Flower</i>		Blanket flowers are plants that grow pretty low to the ground and bloom profusely, covering the ground with flowers like a blanket. Arizona Sun flowers are a treat! They look like little suns of orange, red and yellow! They bloom from early summer all the way to fall. These are drought tolerant and prefer sandy or rocky soil.
	\$6.97 Container: 1Gal		
	Size: 12"x16"	Bloom Time: Early summer to early fall	Light : Full Sun
			Uses: Accent, butterflies, hummingbirds, containers, border, drought toler
	Gardenia jasminoides 'Summer Snow' [®] <i>Summer Snow Gardenia</i> [®]		Summer Snow is a more cold hardy variety of gardenia that can survive down to -10 degrees. That means we can enjoy its beautiful, double, pure white, very fragrant flowers here in the Puget Sound region.
	\$6.97 Container: OT		
	Size: 5'x5'	Bloom Time: Summer	Light : Full Sun
			Uses: Specimen, cut flowers, hedge
	Gaura lindheimeri 'Gaudi Pink' <i>Gaudi Pink Whirling Butterflies</i>		Gaudi Pink is a compact form of whirling butterflies, with a nice, neat mound of foliage topped with short spikes of pink flowers that bloom throughout the summer. Size: 2'x2' Bloom Time: Early, reblooming Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders

	Botanical Name	Common Name	Description
	Hemerocallis 'Custard Candy' <i>'Custard Candy' Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Custard Candy is a premium daylily. It is a high-performance plant, especially in the flower department. Flowers are everything you want in a daylily - vibrant, profuse, big, and reblooming. Bloom Time: Summer, reblooms Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Double River Wye' <i>Double River Wye Daylily</i> \$6.97 Container: 1Gal	Size: 2.5'x2'	These have an unusual double flower that is really cool! They are butter yellow, always cheerful and lightly ruffled. This variety is known for its abundance of flowers! Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Fooled Me' <i>Fooled Me Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Fooled Me is a high-performance daylily. It has awesome bloom performance, the flowers are vibrant and it is a vigorous plant. The flowers are golden yellow with a deep red eye and a deep red picotee edge to the petals. Bloom Time: Early midseason Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Fragrant Returns' <i>Fragrant Returns Daylily</i> \$6.97 Container: 1Gal	Size: 18"x18"	Most daylilies are somewhat fragrant, but Fragrant Returns is a lot stronger and sweeter than most of them. Flowers last into the night sometimes. This one is also slightly smaller with thinner leaves, making it an excellent container choice. Bloom Time: Early to mid summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders, containers
	Hemerocallis 'Moonlit Masquerade' <i>Moonlit Masquerade Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Make no mistake, Moonlit Masquerade is a special daylily. It is one of the more beautiful, long bloming, vigorous and pest-resistant varieties you can find. The flowers are nearly white, but with a rich burgundy-red eye and green-yellow throat. It is an early/mid-season bloomer and will repeat bloom throughout the summer. The flowers are also edible. Bloom Time: Late spring/early summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Moses Fire' <i>Moses Fire Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2'	Moses Fire has double flowers that are cherry red, but sometimes orange and other fiery colors are mixed in to make this a one of a kind daylily! It is a repeat bloomer, so you may get flowers all summer and even into fall. Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'On and On' <i>On and On Daylily</i> \$6.97 Container: 1Gal	Size: 18"x18"	On and On loves to keep on blooming, on and on! The bloom season starts in late spring and lasts for several weeks. However, it will continue to rebloom after that the rest of the summer and even into fall. Unlike most daylilies, the baby pink flowers of On and On are slightly fragrant! This is a bit smaller variety of daylily, fitting more easily into smaller spaces or even containers. Bloom Time: Late spring to summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Orange Nassau' <i>Orange Nassau Daylily</i> \$6.97 Container: 1Gal	Size: 2.5'x2'	Orange Nassau flowers are orange and gold with very ruffled and wavy edges. Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Pardon Me' <i>Pardon Me Daylily</i> \$6.97 Container: 1Gal	Size: 18"x24"	Pardon Me has lovely red flowers. They call it cranberry red. This is a good rebloomer, usually blooming from early July to mid or late October. It is a miniature daylily, growing to just 18" tall and wide. Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders

	Botanical Name	Common Name	Description
	Hemerocallis 'South Seas' <i>South Seas Daylily</i> \$6.97 Container: 1Gal	Size: 2.5'x2' Bloom Time: Summer	South Seas flowers have been described as golden orange, peach, coral, salmon, or a combination of all of these. Whatever word you use to describe them, these flowers will surely stand out and make others take notice! Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Spiritual Corridor' <i>Spiritual Corridor Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time: Early to mid-summer	A softer tone of mauve lavender, cream and yellow flowers with really frilly edges and a soft but enjoyable fragrance. Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Hemerocallis 'Whimsical' <i>Whimsical Daylily</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time:	Nice big blooms that are lavender with white stripes and a yellow eye make this a favorite at our nursery! Flowers are primarily in midsummer, but you may see some reblooming after that. The blossoms appear to be dusted with little diamonds, giving them a frosted or sparkly appearance. Light : Full Sun to Partial Shade Uses: Specimen, mass plantings, borders
	Heuchera 'Carnival Limeade' <i>Carnival Limeade Coral Bells</i> \$6.97 Container: 1Gal	Size: 18"x18" Bloom Time: Late spring	Limeade adds wonderful bright color to the garden year round. It goes well with any other plants, but especially with darker colored foliage such as other coral bells or a Japanese maple. The foliage is bright lime green. Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, cut flowers, edging, mass
	Heuchera Carnival 'Watermelon' <i>Watermelon Coral Bells</i> \$6.97 Container: 1Gal	Size: 12"x14" Bloom Time: Early to mid summer	Watermelon is a tidy, compact coral bells. It can handle full sun, and also tolerates hot, dry spots. The leaves are bronze with green undertones and silvery markings, and pink undersides for lots of color! Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, mass plantings
	Heuchera micrantha 'Palace Purple' <i>Palace Purple Coral Bells</i> \$6.97 Container: 1Gal	Size: 12"x15" Bloom Time: June-September	'Palace Purple' was chosen as the 1991 perennial plant of the year by the Perennial Plant Association, and was the first purple-leaved Coral Bells. Plants form a low mound of maple-shaped leaves, from bronzy-green to rich purple-red with some silver on the upper leaf. The flowers are small, white and bell-shaped, like little sprinkles of fairy dust hovering over the rest of the plant. Heuchera look best lined up in a row as edging, or scattered about in clusters of 3-5 plants, mixed in with other perennials. Light : Full Sun to Partial Shade Uses: Accent, Rock garden, border, containers, edging, massed, woodlan
	Heuchera 'Red Lightning' <i>Red Lightning Coral Bells</i> \$6.97 Container: 1Gal	Size: 12"x16" Bloom Time: Late spring to early summer	Wow, red lightning is a good name for this stunning coral bells! The leaves are gold and streaked with red veins. This is a great one for containers as it is slightly smaller than many other varieties, yet it's color is bold enough that it won't get overlooked. Light : Partial Shade to Full Shade Uses:
	Heuchera 'Silver Scrolls' <i>Silver Scrolls Coral Bells</i> \$6.97 Container: 1Gal	Size: 18"x18" Bloom Time: Late spring to mid summer	Silver scrolls is an especially awesome foliage plant. Put it towards the front of a shady garden to add some great color. The leaves are silvery with tints of purple, and the veining is dark purple to almost black. The sprays of flowers are longer lasting and they are ivory-pink, held on deep red stems. Light : Partial Shade to Full Shade Uses: Accent, rock garden, border, containers, cut flower, massed plantin
	Heuchera villosa 'Kassandra' <i>Kassandra Coral Bells</i> \$6.97 Container: 1Gal	Size: 18"x18" Bloom Time: Late spring to early summer	Unusual coral bells with leaves of varying sizes and colors. The overall tone is caramel to orange, but each leaf is unlike its neighbors. It makes for a colorful display. It can take a bit more sun in our Puget sound region Light : Partial Shade to Full Shade Uses: Accent, alpine and rock gardens, borders, containers, edging, mass

	Botanical Name	Common Name	Description
	Hibiscus syriacus 'Aphrodite' <i>Aphrodite Rose of Sharon</i> \$6.97 Container: 1Gal	Size: 8'x6'	Aphrodite is a beautiful rose of sharon with large pink flowers that have a dark red eye. The flowers may begin to appear in June, depending on how warm the spring is. Once the flowers emerge, though, they will last into October. Aphrodite loves to show off, so plant her as a specimen or use her as a hedge. Her flowers attract butterflies. Bloom Time: Pink with a dark red eye Light : Full Sun to Partial Shade Uses: Hedge, specimen
	Hibiscus syriacus 'Helene' <i>Helene Rose of Sharon</i> \$6.97 Container: 1Gal	Size: 6'x5'	Rose of Sharon are beautiful, long blooming plants, with flowers typically lasting from early summer well into fall. Helene's flowers are white with a red eye. They are a favorite of butterflies. She should be planted out in the open where you can appreciate her. Although a multi-stemmed plant, Helene can be trained to grow in a tree form. Bloom Time: June to October Light : Full Sun to Partial Shade Uses: Specimen, back of border, attracts butterflies, hedge
	Hosta 'Blue Angel' <i>Blue Angel Hosta</i> \$6.97 Container: 1Gal	Size: 3'x5'	Blue Angel is noted for its large size and bluish leaves. All blue hostas are more slug-resistant than other varieties. The leaves of Blue Angel can be as wide as 18", and the plant, if given enough space, can span as much as 6 feet across and 3 feet high! It will grow best in shade or partial sun and is particularly nice when grown at the base of a small tree or large shrub. We particularly like hostas when clustered with other varieties. Bloom Time: Summer Light : Partial Shade to Full Shade Uses: Specimen, under trees, woodland gardens, massed with other varie
	Hosta 'Blue Mouse Ears' <i>Blue Mouse Ears Hosta</i> \$6.97 Container: 1Gal	Size: 8"x12"	Blue Mouse Ears is definitely one of the cutest hostas. Its little rounded leaves look just like mouse ears, too! This little guy only gets about 8" tall, so place it at the front of your hosta garden or shade bed. Bloom Time: Mid summer Light : Partial Shade to Full Shade Uses: Accent, rock garden, shade border, edging, rabbit-resistant, contain
	Hosta 'Electrocution' <i>Electrocution Hosta</i> \$6.97 Container: 1Gal	Size:	Bloom Time: Light : Uses:
	Hosta 'First Frost' <i>First Frost Hosta</i> \$6.97 Container: 1Gal	Size: 18"x36"	First Frost is a lovely variegated hosta with deep blue leaves edged with a wide margin of yellow. They are more slug resistant than many hostas, and they maintain their color very well. Bloom Time: Late summer Light : Partial Shade to Full Shade Uses: Specimen, woodland garden, under trees, mass plantings
	Hosta fortunei 'Patriot' <i>Patriot Hosta</i> \$6.97 Container: 1Gal	Size:	Bloom Time: Light : Uses:
	Hosta 'Island Breeze' <i>Island Breeze Hosta</i> \$6.97 Container: 1Gal	Size:	Bloom Time: Light : Uses:
	Hosta 'Little Sunspot' <i>Little Sunspot Hosta</i> \$6.97 Container: 1Gal	Size: 12"x36"	Bloom Time: Light : Partial Shade to Full Shade Uses:

	Botanical Name	Common Name	Description
	Hosta 'Loyalist' <i>Loyalist Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'Revolution' <i>Revolution Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'St. Elmo's Fire' <i>St. Elmo's Fire Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'Stained Glass' <i>Stained Glass Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hosta 'Sum and Substance' <i>Sum and Substance Hosta</i> \$6.97 Container: 1Gal	Size: Bloom Time:	Light : Uses:
	Hydrangea anomala petiolaris <i>Climbing Hydrangea</i> \$9.97 Container: 1Gal	Size: 30'x5' Bloom Time: May to July	The beauty of a hydrangea on a climbing vine! Climbing hydrangeas are quite vigorous. They will typically cling to whatever you grow them on, reaching a length of as much as 50'! You can also grow it as a ground cover, and a single plant can spread to cover a 200 square foot area. Flowers emerge as flattened clusters, usually by mid-May. The flowers are fragrant and the floral display is spectacular. In winter, the bark is exfoliating, reddish brown, adding some winter interest. Light : Partial Shade to Full Shade Uses: Climbing vine
	Hydrangea arborescens 'Annabelle' <i>Annabelle Hydrangea</i> \$6.97 Container: 1Gal	Size: 4-6'x4-6' Bloom Time: Mid summer-mid fall	Annabelle is a stunning white hydrangea, often producing flower heads over 10" in diameter. Unlike most hydrangeas, Annabelle blooms on the current season's growth, which means you can prune it heavily and it will still bloom the next season. Because it is so prunable some people use it as a hedge. Light : Full Sun to Partial Shade Uses: can be cut back hard
	Hydrangea macrophylla 'Glowing Embers' <i>Glowing Embers Hydrangea</i> \$6.97 Container: 1Gal	Size: 3-4'x3-4' Bloom Time: Mid summer	Glowing embers is a dense, compact hydrangea with bright magenta or purple mophead flower clusters in mid-summer. Often you will get a second flush of flowers in September. Leaves are large and glossy green with a red tint to the edges. The leaves turn to a deep maroon in autumn before they drop off. This is one of the few hydrangeas that can tolerate full sun. Keep away from dark foliage plants as the flowers will be less noticeable next to them. Glowing Embers is a spectacular hydrangea that is ideal for the small garden. Light : Full Sun to Partial Shade Uses: specimen, mass plantings, hedge

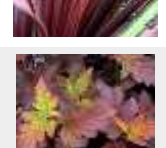

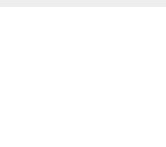

Botanical Name	Common Name	Description
 <p>Hydrangea macrophylla 'Nikko Blue' <i>Hydrangea 'Nikko Blue'</i> \$6.97 Container: 1Gal</p>	<p>Size: 4-6'x4-6' Bloom Time: July-August</p>	<p>Nikko Blue is one of the best hydrangeas for blue color. Usually aluminum sulfate is added to the soil to turn a hydrangea blue. It is fast growing 4 to 6 ft high and wide, and should bloom consistently when grown in partial shade. Look for spots in your yard that only get morning or evening sun for about 4 hours a day. You can grow a single plant as a specimen, or try a mass planting for a huge late-summer impact!</p> <p>Light : Partial Shade Uses: specimen, mass plantings, hedge</p>
 <p>Hydrangea paniculata 'Pink Diamond' <i>Pink Diamond Hydrangea</i> \$6.97 Container: 1Gal</p>	<p>Size: 8'x8' Bloom Time: July to October</p>	<p>Pink Diamond has large cone shaped panicles of flowers starting in mid summer and lasting into fall. They start out white, but age to a deep pink and even rose color. They make great cut flowers! It blooms on old wood, so prune it only lightly in late summer. Pink Diamond is an easy to grow and care for hydrangea.</p> <p>Light : Full Sun to Partial Shade Uses: Specimen, informal hedge, border, large container</p>
 <p>Hydrangea quercifolia 'Munchkin' <i>Munchkin Hydrangea</i> \$6.97 Container: 1Gal</p>	<p>Size: 3'x3-4' Bloom Time: Summer</p>	<p>Munchkin is a dwarf variety of the oakleaf hydrangeas. Most oakleaves get to be 8-10' tall, but Munchkin stays a nice, compact 3' tall and about the same wide. Even though the plant is smaller, the flower clusters are still just as big, reaching 6-7 wide of pink to dusty-rose and lasting all summer long.</p> <p>Light : Partial Shade Uses: Specimen, border, hedge, foundation</p>
 <p>Hydrangea quercifolia 'Snow Queen' <i>Snow Queen Hydrangea</i> \$6.97 Container: 1Gal</p>	<p>Size: 4'x6' Bloom Time: Late spring to mid summer</p>	<p>Snow Queen is an 'oak leaf' hydrangea, meaning the leaves look like the leaves of an oak tree. She has a regal appearance, for sure. Massive panicles of white flowers appear in late spring, usually late May, and will last into July or August. The leaves turn beautiful shades of bronze, maroon and purple in the fall!</p> <p>Light : Full Sun to Partial Shade Uses: Specimen, border</p>
 <p>Hypericum calycinum 'Fiesta' <i>Variiegated St. John's Wort</i> \$6.97 Container: 1Gal</p>	<p>Size: 18"x6' Bloom Time: Early-Mid summer</p>	<p>This shrub makes a great ground cover that spreads by underground runners. Individual plants grow to between 6-9 inches, and produce bright yellow 3" flowers in early-mid summer. These plants will choke out all weeds. The dark green and yellow leaves turn bronze in fall. St. John's Wort is also excellent for edges along borders. Their consistent height provides a smooth, rounded texture that looks nice all year long. They are particularly useful for extreme slopes where erosion control is needed.</p> <p>Light : Full Sun to Partial Shade Uses: Ground cover, erosion control</p>
 <p>Iberis sempervirens 'Purity' <i>'Purity' Candytuft</i> \$6.97 Container: 1Gal</p>	<p>Size: 8"x3' Bloom Time: Mid spring-Early summer</p>	<p>Candytuft is a spring-blooming favorite. It makes a beautiful, stunning ground cover, and is especially nice cascading over a wall or rock garden, or spilling over the edge of a container. The 'Purity' variety is known for profuse blooming of especially bright white flowers for a longer bloom period than most other candytufts. Candytuft is easy to care for. It is drought tolerant, once established. It can grow in full shade, but flowering will not be as strong. Candytuft makes a great neighbor with Lithadora and other blue flowering plants.</p> <p>Light : Full Sun to Partial Shade Uses: Rock garden, border, containers, edging, ground cover, massed</p>
 <p>Imperata cylindrica 'Red Baron' <i>Japanese Blood Grass</i> \$6.97 Container: 1Gal</p>	<p>Size: 18"x15" Bloom Time: Mid Fall</p>	<p>An unusual and dramatic grass, slowly forming a low clump. Leaves are green at the base, with red tips that become more intense over the summer and fall until they appear to glow. Ideal for edging, in the rock garden, but especially mass plantings for maximum impact. Japanese Blood Grass prefers a moist soil, but one that also drains well.</p> <p>Light : Full Sun to Partial Shade Uses: Accent, rock garden, border, containers, edging, massed, specimen</p>
 <p>No image Available</p> <p>Iris pallida 'Aureo-variegata' <i>Variiegated Iris</i> \$6.97 Container: 1Gal</p>	<p>Size: Bloom Time:</p>	<p>Light : Uses:</p>

	Botanical Name	Common Name	Description
	Iris Siberica 'Ceasar's Brother' <i>Caesars Brother Iris</i> \$6.97 Container: 1Gal	Size: 4'x2'	The thing about Caesar's Brother is that he's a big iris. These grow tall and slender, often reaching 4 feet in height, with the flowers right above that. Flowers are a rich purple with white mixed in. Keep in moist soil, or make sure they are well watered. Blooming usually begins in May. Bloom Time: Late spring to early summer Light : Full Sun Uses: Borders, mass plantings, waterside, rain garden
	Iris siberica 'Snow Queen' <i>Snow Queen Iris</i> \$6.97 Container: 1Gal	Size: 4'x2'	Snow Queen is another giant of an iris. She reaches to 3' or more in height with long slender leaves, and the flowers topping out at 4'. She has the most beautiful snow white flowers with just a touch of yellow in her throat. Snow Queen is a very reliable bloomer and will sometimes rebloom later in summer. Plant in masses for a huge impact! Bloom Time: Late spring Light : Full Sun to Partial Shade Uses: Borders, mass plantings, waterside, rain garden
	Isotoma fluviatilis <i>Blue Star Creeper</i> \$6.97 Container: 1Gal	Size: 1'x12"	Blue star creeper is the perfect creeping ground cover for your rock garden or to grow around stepping stones. It stays flat, only an inch or so, but still spread out to fill in spaces nicely. It can take fairly high foot traffic, too. And it is completely smothered in light blue starry flowers all summer long. This can even be used as a lawn substitute! Bloom Time: Late spring to early fall Light : Full Sun to Partial Shade Uses: Ground cover, container, rock garden, steps
	Jasminum officinale 'Fionas Sunrise' <i>Fionas Sunrise Jasmine</i> \$9.97 Container: 1Gal	Size: 10'x4'	Fionas Sunrise is a beauty! It can be grown as a climber or as a trailer/scrambler on the ground. The foliage is a lovely golden color that keeps well all season long. Flowers are white and very fragrant. As a climber, she pairs well with clematis, especially purple flowered varieties such as The President or Jackmanii. Bloom Time: Summer Light : Full Sun to Partial Shade Uses: Climbing vine, ground cover, informal hedge, fragrant flowers, attra
	Juniperus squamata 'Blue Star' <i>Blue Star Juniper</i> \$6.97 Container: 1Gal	Size: 3'x4'	Blue Star is a slow-growing, dwarf evergreen shrub with beautiful silver-blue foliage. It grows to about 1 foot tall in 5 years, but will eventually reach 2-3' tall. It is easily grown in average, well-drained soils in full sun. It is somewhat drought-tolerant and is also deer resistant. Pruning is not needed. Bloom Time: Light : Full Sun Uses: Specimen, borders, edging. Rock gardens when young. Also masse
	Kalmia latifolia 'Keepsake' <i>Keepsake Mountain Laurel</i> \$8.97 Container: 1Gal	Size: 4.5'x4.5'	This mountain laurel has found a way to lengthen the bloom season by having buds that are almost as pretty as the flowers themselves! Raspberry red buds last for several weeks before opening to dark reddish burgundy flowers edged with white. The floral display is amazing as every bit of the plant is covered in flowers! One more dash of beauty - the new foliage emerges a bright bronze-red before fading to green. Bloom Time: Late spring, early summer Light : Uses: Specimen, hedge
	Kalmia latifolia 'Tiddlywinks' <i>Tiddlywinks Mountain Laurel</i> \$8.97 Container: 1Gal	Size: 3'x3'	Tiddlywinks is a dwarf mountain laurel, only growing to 3' tall and wide. It grows quickly when young and will reach mature size in just a couple of seasons. Beautiful pink and rosy flowers form massive clusters that smother this shrub in May and early June. It is a breathtaking display! Bloom Time: Late spring to early summer Light : Partial Shade Uses: Specimen, hedge
	Kerria japonica 'Pleniflora' <i>Japanese Kerria</i> \$14.97 Container: 4	Size: 5'x5'	Japanese Kerria is a very easy plant to grow. It will grow quickly and fill in a space of 4-6 feet in a couple seasons. It produces long arching branches that fill with bright yellow, or yellowish-orange 1-2" pompoms in mid summer. Once the main blooming season is done they will continue sporadic blooming the rest of the season until fall. They bloom brightest in full sun, but they also thrive in shady locations. You can grow these as specimen plants, or train them into hedges. Bloom Time: Early to mid summer Light : Full Sun to Partial Shade Uses:

	Botanical Name	Common Name	Description
	Knautia macedonica 'Thunder and Lightning'	<i>Crimson Scabious</i>	A variegated form of a poplular plant, this is a very drought-tolerant plant, likes dry soil and blooms lon, from early summer to early fall. Butterflies love these, but deer and rabbits don't!
	\$6.97	Container: 1Gal	
	Size: 18"x20"	Bloom Time: Early summer to early fall	Light : Full Sun
			Uses: Attracts butterflies, containers, border, accent, mass planting
	Kniphofia uvaria 'Flamenco'	<i>Flamenco Torch Lily</i>	Torch lilies are unusual plants, with their exotic looking foliage and flowers that rise up on stalks in mid summer looking like a flaming torch. The Flamenco flowers are mixtures of orange, red and yellow and they change colors as they mature, so you may have several different blooms of different colors on the same plant. They are also hummingbird magnets. Hummingbirds will ignore nearby feeders and go for these flowers!
	\$6.97	Container: 1Gal	
	Size: 3'x3'	Bloom Time: Mid summer	Light : Full Sun
			Uses: Specimen, borders, attracts hummingbirds, cut flowers
	Laburnum anagyroides	<i>Golden Chain Tree</i>	Do you want to make a huge, stunning impact of flowers in your yard in May? The Golden Chain Tree will knock your socks off with its profusion of flowers that hang down in "chains" 6 to 12 inches long. The whole tree is covered by these chains! Once the flowering is done the flowers fade and are replaced with bright green seed pods that continue the visual interest for several more weeks.
	\$6.97	Container: 1Gal	
	Size: 20'x15'	Bloom Time: Late spring-Early summer	Light : Full Sun to Partial Shade
			Uses: Specimen
	Lamium maculatum 'Orchid Frost'	<i>Creeping Lamium</i>	Creeping Lamium is a great choice for a tough yet showy groundcover. It spreads quickly and chokes out other weeds, even weeds that are already there. The small leaves are stunning blue-green covered with silver. Rose-pink flowers appear in spring and continue off and on all summer until fall. Once established it is drought-tolerant.
	\$6.97	Container: 1Gal	
	Size: 8"x24"	Bloom Time: Late spring to fall	Light :
			Uses: Ground cover, attracts butterflies, containers, mass planting, evergr
	Lavandula angustifolia 'Mini Blue'	<i>Mini Blue Lavender</i>	Mini blue is a very compact form of the beloved English lavender, growing to only about 10-12 inches tall, and maybe 14 inches wide. It is great for containers as well as in the ground. It needs good drainage, can handle some shade, and will bloom all summer long.
	\$6.97	Container: 1Gal	
	Size: 12"x14"	Bloom Time: Early to late summer	Light : Full Sun to Partial Shade
			Uses: Fragrant, cut flowers, dried flowers, edging, borders, attracts bees a
	Lavandula angustifolium 'Hidcote'	<i>Hidcote Lavender</i>	Hidcote is the most popular english lavender. It is more compact than other kinds, keeping neat and tidy. Flowers are deep purple and the fragrant foliage is gray-green, making a pleasant contrast.
	\$6.97	Container: 1Gal	
	Size: 18"x18"	Bloom Time: June to August	Light : Full Sun to Partial Shade
			Uses: Fragrant, cut flowers, dried flowers, edging, borders, attracts bees a
	Lavandula x intermedia 'Goodwin Creek'	<i>Goodwin Creek Lavender</i>	
	\$6.97	Container: 1Gal	
	Size:	Bloom Time:	Light :
			Uses:
	Leucanthemum x superbum 'Alaska'	<i>Alaska Shasta Daisy</i>	Shasta daisies are a must in any border garden. They are beautiful yet familiar. Alaksa is the most popular shasta daisy. The flowers are large, single white flowers with yellow eyes. Great for cut flowers. They butterflies go nuts over these!
	\$6.97	Container: 1Gal	
	Size: 3'x2'	Bloom Time: Early summer to early fall	Light : Full Sun to Partial Shade
			Uses: Accent, border, containers, butterflies, mass planting

	Botanical Name	Common Name	Description
	Leucothoe SCARLETTA® 'Zeblid' <i>Scarlet Fetterbush</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: Spring	Scarlet fetterbush is a great foliage plant for shadier spots. It can handle some sun and does well under trees where there is dappled sun. The green leaves are glossy and pretty, and the new growth is scarlet. White bell-shaped flowers in spring are nice, but the foliage is even better. Light : Partial Shade to Full Shade Uses: Hedge for shady spots
	Lonicera japonica 'Mint Crisp' <i>Mint Crisp honeysuckle</i> \$9.97 Container: 1Gal	Size: 20-30' Bloom Time: Mid Summer - mid fall	Year round beauty sets this honeysuckle apart! The variegated foliage is green with cream speckling, plus touches of pink in winter! The flowers open pure white, then maturing to cream and then yellow. Super fragrant, long lasting, this one is a winner! Light : Full Sun Uses: Specimen, vine
	Lonicera periclymenum 'Harlequin' <i>Harlequin Honeysuckle</i> \$9.97 Container: 1Gal	Size: 20-30' Bloom Time: Summer and fall	Harlequin is a spectacular honeysuckle, with perky green and white variegated leaves and fragrant pink and yellow flowers all summer and into fall. This kind of honeysuckle has a more spreading and shrubby habit, so it can be grown as a vine, or as a ground cover, or even as a shrub. Add to this great fall color and red stems in winter, and you've got a knock out plant! Light : Full Sun to Partial Shade Uses: Specimen, vine
	Lonicera sempervirens 'Major Wheeler' <i>Major Wheeler Honeysuckle</i> \$9.97 Container: 1Gal	Size: 12' Bloom Time: Late spring to mid fall	Major Wheeler puts on an amazing show. It doesn't get as long as other honeysuckles, which makes it a bit more manageable for some people. Brilliant red-orange flowers adorn this vine in late spring and it reblooms throughout summer and often well into fall. Major Wheeler can be grown as a vine, but can also mound up like a shrub or stretch along the ground almost like a groundcover. Light : Full Sun to Partial Shade Uses: Specimen, vine
	Lupinus polyphyllus 'Russell Blue' <i>Russell Blue Lupine</i> \$6.97 Container: 1Gal	Size: 3'x18" Bloom Time: Spring to Summer	Lupine is a beloved meadow wildflower. They are quite at home amidst a grassy field. They will rise up in low mounds with in mid spring, and then send up their beautiful stalks of blue flowers. Once planted in your field they can spread on their own, eventually leaving a beautiful trail of blue throughout. They can also be grown in a border garden or even a large container. They make great cut flowers! Light : Full Sun to Partial Shade Uses: Meadow planting, container, cut flowers
	Lupinus polyphyllus 'Tutti Frutti Mix' <i>Tutti Frutti Lupine</i> \$6.97 Container: 1Gal	Size: 4'x2' Bloom Time: Late spring to mid summer	A stunning variety of lupine, these produce 2-colored mixed flowers of nearly every color in the rainbow, including some never seen in any lupine before! Red, pink, yellow, purple, blue, cream and orange. Light : Full Sun Uses: Accent, border, massed, cut flower, attracts hummingbirds and but
	Lycium barbarum <i>Goji berry</i> \$9.97 Container: 1Gal	Size: 10'x7' Bloom Time: Summer	Goji berries are one of those superfoods you hear about from time to time. The fruits are amazingly nutritious. They had a hint of tomato-like flavor to them. The plant is somewhat vining and can handle some light shade. Light : Full Sun to Partial Shade Uses: Edible fruits
	Miscanthus sinensis 'Strictus' <i>Porcupine Grass</i> \$6.97 Container: 1Gal	Size: 6'x3' Bloom Time: Early to mid fall	Porcupine grass is a type of maiden grass and grows similar to it. It forms a narrow upright clump of foliage, peaking around 5', but the flowers may rise up another 2-3' with deep pinkish plumes. But the variegated foliage is what really makes this an eye-catching plant! Light : Full Sun to Partial Shade Uses: Container, mass planting, hedge, specimen

	Botanical Name	Common Name	Description
	Nandina domestica 'Gulf Stream' <i>Gulf Stream Heavenly Bamboo</i> \$6.97 Container: 1Gal	Size: 3-4'x4-5' Bloom Time: N/A	This is one of our favorite evergreen plants. It looks great in every season, with the foliage changing constantly throughout the year. New growth in the spring is bronze with orange tints. Older leaves are blue-green, but often turn to gold or red. In winter it is at its best, all lit up with reds and oranges. Tough, easy to grow and well-adapted to urban conditions. Light : Full Sun to Partial Shade Uses: Specimen, year-round interest, hedge, evergreen
	Nepeta faassenii 'Blue Wonder' <i>Blue Wonder Catmint</i> \$6.97 Container: 1Gal	Size: 12"x12" Bloom Time: Late spring to late summer	Blue Wonder has a massive amount of lavender-blue flowers. The flowers are sterile, so no worries about spreading. Catmint is very drought tolerant, attracts bees and butterflies, is very deer and rabbit resistant, and blooms a long time - from May until frost. It is also very easy to grow! Oh, and it's also very fragrant! Light : Full Sun to Partial Shade Uses: Drought-tolerant, Cut flowers, attracts butterflies and bees. Fragran
	Panicum virgatum 'Shenandoah' <i>Red Switch Grass</i> \$6.97 Container: 1Gal	Size: 3'x2-3' Bloom Time: Late summer to mid fall	Switch grass is a native prairie grass. This variety has dark green leaves with really pretty red tips that begin to show by midsummer. Flower heads begin to appear in August, with tiny red flowers. In fall the entire plant turns deep purple-red and some of that color lasts all winter long. Light : Full Sun Uses: Accent, border, containers, drought tolerant, mass planting, watersi
	Papaver orientale 'Allegro' <i>Allegro Oriental Poppy</i> \$6.97 Container: 1Gal	Size: 2'x2' Bloom Time: Late spring to early summer	Poppies are a fun plant that grow in almost any sunny location. Their foliage is ferny and even hairy. In late spring they produce large flower buds that are also fuzzy. Once they open they produce huge bright colored orange flowers that look like they were made out of crepe paper. The insides of the flowers are black. After the blooming is done the plants go dormant and all but disapper by late summer. The make fantastic cut flowers. Light : Full Sun Uses: Accent, border, cut flower, specimen, mass planting, attracts humm
	Papaver orientale 'Coral Reef' <i>Coral Reef Oriental Poppy</i> \$6.97 Container: 1Gal	Size: 2'x1' Bloom Time: Late spring/early summer	You are going to love these Coral Reef poppies in bloom! They truly delight gardeners everywhere! The flowers are a ruffled pink and the insides are a dark black-purple that contrasts beautifully with the pink. The flowers make great cut flowers. Pick them just the buds begin to open for best results. Light : Full Sun Uses: Accent, border, cut flower, specimen, mass planting, attracts humm
	Papaver orientale 'Crimson Red' <i>Crimson Red Oriental Poppy</i> \$6.97 Container: 1Gal	Size: 3'x2' Bloom Time: Late spring	Bold Red flowers with dark black centers make this a must in the garden! They truly delight gardeners everywhere! The flowers are a ruffled and the hummingbirds go nuts over them. The flowers make great cut flowers. Pick them just as the buds begin to open for best results. Light : Full Sun Uses: Accent, border, cut flower, specimen, mass planting, attracts humm
	Penstemon barbatus 'Prairie Dusk' <i>Prairie Dusk Penstemon</i> \$6.97 Container: 1Gal	Size: 2'x18" Bloom Time: Early to late summer	Penstemons are native wildflowers, so they are super easy to grow here. Prairie dusk is especially hardy and easy to grow. Upright spikes of pruple flowers start blooming in June and last all summer. Great for a hot, dry site. Penstemons are a favorite of butterflies and hummingbirds. Light : Full Sun Uses: Attracts butterflies and hummingbirds, Accent, border, containers,
	Penstemon 'Dark Towers' <i>Dark Towers Penstemon</i> \$6.97 Container: 1Gal	Size: 3'x2' Bloom Time: Early to late summer	Dark Towers is a beautiful, taller form of pentstemon with dark purple black foliage tinted with red. The pink flowers against that dark foliage is beautiful, and can last from May all the way to September. The bell-shaped flowers grow on spikes that rise up to 3' above the ground. Light : Full Sun Uses: Attracts butterflies and hummingbirds, Accent, border, containers,

	Botanical Name	Common Name	Description
	Penstemon heterophyllus 'Electric Blue'	<i>Electric Blue Penstemon</i>	Penstemons are a fall-blooming American native that provides late-season food for hummingbirds and butterflies. These are a carefree and drought resistant plant. The flowers rise above the plant on flowering spikes and are a purple-bluish, but can sometimes turn "Electric Blue" when the conditions are right. They make great cut flowers, too!
	\$6.97	Container: 1Gal	
	Size: 18"x18"	Bloom Time: Mid-late summer	Light : Full Sun to Partial Shade Uses: Attracts butterflies and hummingbirds, Accent, border, containers,
	Perovskia atriplicifolia	<i>Russian Sage</i>	Russian Sage is a favorite of many gardeners, particularly those who want to attract bees and butterflies but have a hard time growing other aromatic plants like regular sage and lavender. Russian sage is easy to grow, is drought tolerant, and it has a really long bloom period. It starts blooming in June or early July and doesn't stop until October or even November sometimes. The grayish-green leaves are lacy and fragrant. It can be pruned to 6" in spring.
	\$6.97	Container: 1Gal	
	Size: 2-3'x2-3'	Bloom Time: Early summer to mid fall	Light : Full Sun Uses: Accent, border, specimen, mass plantings, attracts butterflies, fragra
	Philadelphus lewissii	<i>Mock Orange</i>	Mock Orange is one of the loveliest native plants, but is underused in gardens. It is a small but wide shrub that blooms with a profusion of snow white flowers in mid-late spring. The name Mock Orange comes from the flowers, which have a delicious orange scent. Best in full sun or partial shade, and placed where you can enjoy the scent of the flowers.
	\$6.97	Container: 1Gal	
	Size: 5'x8'	Bloom Time: Mid spring	Light : Full Sun to Partial Shade Uses: Specimen, hedge
	Phlox paniculata 'Blue Paradise'	<i>Blue Paradise Summer Phlox</i>	Blue paradise is a gorgeous summer phlox, perfect for a sunny border or container. Flowers are blue to purple, occasional with some reddish tints, and they last from mid to late summer. The flowers form large clusters, reaching up to 3' in height. The time of day affects the color of the flowers!
	\$6.97	Container: 1Gal	
	Size: 3'x2'	Bloom Time: Mid to late summer	Light : Full Sun Uses: Attracts butterflies and hummingbirds, Border, accent, edging, mas
	Phlox paniculata TOP SHELF™ 'Tequila Sunrise'	<i>Tequila Sunrise Phlox</i>	Large clusters of fragrant flowers with deep salmon-orange surrounding a tiny red eye. These are great for butterflies. This is a more compact form that is good for containers or at the front of the border.
	\$6.97	Container: 1Gal	
	Size: 16"x14"	Bloom Time: Mid to late summer	Light : Full Sun to Partial Shade Uses: Attracts butterflies and hummingbirds, Border, accent, edging, mas
	Phlox subulata 'Coral Eye'	<i>Coral Eye Creeping Phlox</i>	Excellent ground cover for full sun to partial shade areas. This variety is smothered with soft baby-pink flowers that have a coral-red eye. These look best when planted en masse, or you can mix and match different varieties.
	\$6.97	Container: 1Gal	
	Size: 6'x2'	Bloom Time: Mid spring	Light : Full Sun to Partial Shade Uses: Edging, accent, borders, ground cover
	Phormium 'Shiraz'	<i>Shiraz New Zealand Flax</i>	Shiraz is a compact form of the New Zealand flax, growing to about 2-3 feet tall, and slightly wider. The burgundy wine foliage maintains its color year-round, sometimes with tints of red. White flowers appear in summer. This one goes really well with smaller grasses of yellow to gold colors. Hardy to 15 degrees, so keep in a sheltered, warm, dry and sunny part of the yard.
	\$6.97	Container: QT	
	Size: 3'x3'	Bloom Time:	Light : Full Sun Uses: Specimen, accent, Dry sunny spot
	Physocarpus opulifolius 'Center Glow'	<i>Center Glow Ninebark</i>	Center glow is a new striking ninebark plant. Gorgeous new foliage come out a bright rosy red with a golden yellow center. The leaves mature to deep burgundy. White flowers bloom late spring, followed by bright red fruit. And then there's the curling layers of bark to enjoy in winter.
	\$6.97	Container: 1Gal	
	Size: 6'x6'	Bloom Time: May-June	Light : Full Sun Uses: Specimen, hedge, border, in mass

	Botanical Name	Common Name	Description
	Physocarpus opulifolius 'Monlo' <i>Diablo Ninebark</i> \$6.97 Container: 1Gal	Size: 8'x8' Bloom Time: May-June	This plant has become all the rage recently in gardening circles. It grows similarly to the species, but its leaves emerge deep purple. In our cooler-summer region those leaves will maintain that color all summer long. It can be trained to grow in a 'standard' tree form, which reveals the crème peeling bark. The pink to white flower clusters really make a huge impact against those wonderful leaves! Ninebark will respond well to heavy pruning each year. Looks best in mass plantings, or as a border. Light : Full Sun to Partial Shade Uses: Specimen, hedge, border, in mass
	Picea glauca 'Conica' <i>Dwarf Alberta Spruce</i> \$6.97 Container: 1Gal	Size: 6'x4' Bloom Time: None	Dwarf Alberta Spruce is a perfect cone-shaped dwarf conifer tree! It displays dense green needles that are soft to the touch. It always looks soft and fluffy, but in the spring the new growth is particularly soft, and bright green - really pretty! This is a slow grower, but eventually can reach 6-8 feet tall and 4-5 feet wide. This is an easy to care for plant that never needs pruning, but is a good choice for topiary. Light : Full Sun to Partial Shade Uses: Specimen, informal hedge, border, container
	Pieris japonica 'Flaming Silver' <i>Flaming Silver Pieris</i> \$6.97 Container: 1Gal	Size: 5'x5' Bloom Time: Early spring	As far as pieris plants go, Flaming Silver is pretty spectacular. It puts on a fantastic show of red foliage in spring. The flowers hang in large clusters of white bell flowers. The foliage is variegated year-round, and new growth is constantly changing color. Pieris plants are also drought tolerant, so put this one in a sunny dry spot. It will reach about 5'x5' in about 6 years. Light : Full Sun to Partial Shade Uses: Specimen, border, containers, hedge
	Pieris japonica 'Little Heath' <i>Little Heath Pieris</i> \$6.97 Container: 1Gal	Size: 2-3'x2-3' Bloom Time: Spring	Little heath is like a junior version of Flaming silver. The leaves are smaller and the plant is smaller, growing to only 2-3' tall and wide. Evergreen leaves are green with creamy margins, and new growth comes out a reddish-pink to coral color! It does that several times a year, too. Light : Full Sun to Partial Shade Uses: Specimen, border, containers, hedge
	Pieris japonica 'Mountain Fire' <i>Mountain Fire pieris</i> \$6.97 Container: 1Gal	Size: 6'x5' Bloom Time: March, April	Pieris plants are one of those rare plants that are spectacular in every season. In late winter they hang heavily with massive clusters of bell-shaped flowers. In spring new growth emerges bright red. They continue to change colors all through the summer and fall-red, yellow, orange, green. Bead-like flower buds set late in the summer and look great all winter atop the evergreen leaves. Then they start all over again. The new growth of Mountain Fire is particularly stunning, and the flower clusters particularly full. Light : Full Sun to Partial Shade Uses: Specimen, hedge
	Polemonium reptans 'Stairway to Heaven' <i>Stairway to Heaven Jacobs Ladder</i> \$6.97 Container: 1Gal	Size: 16"x18" Bloom Time: Late spring to mid summer	Stairway to Heaven is a first-class foliage plant. The variegation is amazing! Definitely put this at the front of the border garden. Heads of violet-blue flowers begin to appear in early summer. Protect from afternoon sun. New, fresh leaves continue to appear all season, so this one always looks like the first day of spring! Light : Partial Shade Uses: Accent, rock garden, attracts butterflies, border, containers, edging
	Polygonatum odoratum 'Variegatum' <i>Variegated Solomon's Seal</i> \$6.97 Container: 1Gal	Size: 3'x2' Bloom Time: Spring to early summer	The graceful, arching stems of Solomon's Seal add an elegant touch to the shade garden and are often described as being architectural. This is a variegated form that sports burgundy stems lined by green leaves edged with a creamy-white margin. Dangling white bell flowers in late spring, fragrant like a lily. Excellent for cutting. Beautiful in the woodland garden, combining well with ferns and Hosta and ferns of all kinds. Light : Partial Shade to Full Shade Uses: Good texture/form.
	Potentilla fruticosa 'Goldfinger' <i>Goldfinger Potentilla</i> \$6.97 Container: 1Gal	Size: 3'x3' Bloom Time: June-October	'Goldfinger' potentilla is a low-mounding shrub that provides summer-long color. The single, roselike, buttercup-yellow flowers bloom from early summer to frost on a mound of finely textured light-green foliage, making it a strong addition to a shrub or flower border. The potentilla is a low-maintenance plant that rarely needs pruning. Just plant in a sunny spot and keep watered! Light : Full Sun Uses: Hedge, Border, Specimen

	Botanical Name	Common Name	Description
	Potentilla fruticosa 'McKay's White' <i>McKay's White Cinquefoil</i>		A Gracefully mounded plant with creamy-white flowers that have a yellow center. Like all Cinquefoils, McKay's White have a long blooming period, from early summer all the way until first frost in mid to late fall.
	\$6.97	Container: 1Gal	
	Size: 3'x4'	Bloom Time: Late Spring-Early Fall	Light : Full Sun Uses: Hedge, Border, Specimen
	Potentilla fruticosa 'Pink Beauty' <i>Pink Beauty Potentilla</i>		Pink Beauty is a prolific bloomer, with light pink flowers that cover this shrub from early summer well into fall. Flowers fade somewhat in the hot summer months, but keep a pink tint at all times.
	\$6.97	Container: 1Gal	
	Size: 3'x3'	Bloom Time: June-October	Light : Full Sun Uses: Hedge, Border, Specimen
	Potentilla fruticosa 'Red Sunset' <i>Red Sunset Potentilla</i>		As with other potentillas, Red Sunset is a great, mounded shrub that grows well in full sun to partial shade, and is moderately drought tolerant. It is covered with large red-orange buttercup flowers all summer, usually beginning to bloom in late May and continuing into September or October. It can grow in any soil conditions and is very easy to care for.
	\$6.97	Container: 1Gal	
	Size: 3'x3'	Bloom Time: Late spring - early fall	Light : Full Sun to Partial Shade Uses: Border, Specimen, informal hedge
	Primula vialii <i>Chinese Pagoda Primrose</i>		The chinese pagoda primrose looks radically different than other primroses. Flowers emerge on upright stems as rocket-shaped spikes that are a rather shocking combination of lilac-pink and scarlet red. These prefer partial shade, but can be grown in full sun in our climate. These are great for cut flowers, or along the water's edge of a pond. Their small size makes it easy to squeeze them into shady spots anywhere in the yard where a little color is needed.
	\$6.97	Container: 1Gal	
	Size: 18"x8"	Bloom Time: Early-mid summer	Light : Partial Shade Uses: Mass plantings, edges, borders, containers, waterside, woodland
	Prunus serrulata 'Kwanzan' <i>Kwanzan Flowering Cherry</i>		Kwanzan is one of the most popular flowering trees in the Puget Sound region. It is covered in clusters of large, double deep pink blooms, surrounded by the bronze-red new foliage each spring. It makes the perfect front yard tree!
	\$6.97	Container: 1Gal	
	Size: 20'x15'	Bloom Time: Spring	Light : Full Sun Uses: Specimen, coastal areas, mass planting, small shade tree
	Prunus x cistena <i>Purple Leaf Sandcherry</i>		Similar in appearance to the cherry and plum trees, but this is a small, beautiful shrub. It opens with pink flowers that are fragrant! As the flowers fade they are replaced with deep reddish-purple leaves that last until fall. Even the bark is an attractive reddish-brown.
	\$6.97	Container: 1Gal	
	Size: 6'x4'	Bloom Time: May	Light : Full Sun to Partial Shade Uses: Specimen, container, small groupings
	Prunus x cistena <i>Purple Leaf Sandcherry</i>		Similar in appearance to the cherry and plum trees, but this is a small, beautiful shrub. It opens with pink flowers that are fragrant! As the flowers fade they are replaced with deep reddish-purple leaves that last until fall. Even the bark is an attractive reddish-brown.
	\$15.97	Container: 2Gal	
	Size: 6'x4'	Bloom Time: May	Light : Full Sun to Partial Shade Uses: Specimen, container, small groupings
	Rhododendron 'Checkmate' <i>Checkmate Rhododendron</i>		Checkmate is related to the popular PJM rhododendrons. Bright magenta to rosy pink flowers bloom in March and early April, completely smothering this dwarf compact plant. Only growing to 2' tall and wide, Checkmate will fit easily into any part of your garden.
	\$10.00	Container: 1Gal	
	Size: 2'x2'	Bloom Time: March	Light : Full Sun to Partial Shade Uses: Specimen, accent, border

	Botanical Name	Common Name	Description
	Rhododendron 'Cherries and Merlot'	<i>Cherries and Merlot</i>	Cherries and merlot is a double-beauty! Cherry red flowers are very nice. However, the leaves also put on a show as their undersides are all a wine-colored burgundy. That color keeps all year long!
	\$10.00	Container: 1Gal	
	Size: 3'x3'	Bloom Time: Spring	Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'Holden's Solar Flair'	<i>Holden's Solar Flair</i>	Solar Flair is a yellow flower with a dark red flair. Not only is this a great yellow blooming rhododendron, but the buds, which form in late fall, are a showy red that lasts all winter!
	\$10.00	Container: 1Gal	
	Size: 4'x3'	Bloom Time: Spring	Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'Ingrid Mehlquist'	<i>Ingrid Mehlquist</i>	This rhododendron has a beautiful floral display. Pink buds open to light pink flowers that quickly fade to pure white. The result is a beautiful blend of colors. Another compact rhodie, Ingrid stays only 2' tall, spreading slightly wider, to 3'.
	\$10.00	Container: 1Gal	
	Size: 2'x3'	Bloom Time: April or May	Light : Full Sun to Partial Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'Landmark'	<i>Landmark</i>	Landmark flowers are so deeply pink that from a distance they appear red. They make great cut flowers. Leaves are a rich dark green that turn bronze in fall and winter! This one is beautiful even in the coldest months of the year!
	\$10.00	Container: 1Gal	
	Size: 4'x3'	Bloom Time: Early May	Light : Full Sun to Partial Shade Uses: Specimen, accent, border
	Rhododendron 'Mardi Gras'	<i>Mardi Gras</i>	Mardi Gras flowers have a lot going on for just one plant! Buds are such a dark rosy color they are almost red. They open to dark pink flowers that gradually fade to soft pink and then white, so you end up with just about every shade of pink and rosy all at the same time!
	\$10.00	Container: 1Gal	
	Size: 3'x4'	Bloom Time: Spring	Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'PJM Regal'	<i>PJM Regal Rhododendron</i>	PJM Regal is a popular form of rhododendron. Smothered in bright clusters of lightly-fragrant purple-fuschia flowers in mid-spring. Leaves turn purplish in fall, lasting through winter. The foliage has a slight lemon fragrance. PJMs are the easiest varieties of rhododendrons to grow, requiring very little care. PJMs also prefer a little more sun than most rhodies.
	\$10.00	Container: 1Gal	
	Size: 6'x7'	Bloom Time: Spring	Light : Full Sun to Partial Shade Uses: Specimen, mass planting, accent
	Rhododendron 'Purple Gem'	<i>Purple Gem Rhododendron</i>	Purple Gem is a true dwarf rhododendron. It grows slowly to 2' tall and 3' wide, and it maintains a neat, compact form. It is a little-leaf rhododendron and it adds a formal character to the garden. Purple flowers begin to appear in early May and cover the plant.
	\$10.00	Container: QT	
	Size: 2'x3'	Bloom Time: Spring	Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'Purple Passion'	<i>Purple Passion Rhododendron</i>	Bright purple flowers with a white flare are amazing! Sometimes there is a smattering of maroon freckles thrown in for good measure. One of the best purples rhodies!
	\$10.00	Container: QT	
	Size: 5'x5'	Bloom Time: Spring	Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation
	Rhododendron 'Sapporo'	<i>Sapporo Rhododendron</i>	Sapporo has some gorgeous flowers that are bright white, but with a hint of purple glow to them. Each flower is graced with a dark purplish-red blotch! We love these flowers! Sapporo is vigorous, compact and wide spreading, reaching about 5' in height, but wider than it is tall.
	\$22.00	Container: 3Gal	
	Size: 5'x3'	Bloom Time: April-May	Light : Full Sun to Partial Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation

Botanical Name	Common Name	Description
 Rhododendron 'Trocadero' <i>Trocadero Rhododendron</i> \$10.00 Container: 1Gal Size: 4'x4' Bloom Time: Mid to late May Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation		Red flowers open from coral buds. More like they explode! This is a vibrant, powerful flower! Black-red markings add a little additional zest!
 Rhododendron 'Wine and Roses' <i>Wine and Roses Rhododendron</i> \$15.97 Container: 2Gal Size: 3'x3' Bloom Time: Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation		A unique rhody! Not only does Wine and Roses present beautiful rosy pink flowers, but the underside of the leaves are a deep wine red that is gorgeous all year long!
 Rhododendron 'Wine and Roses' <i>Wine and Roses Rhododendron</i> \$10.00 Container: 1Gal Size: 3'x3' Bloom Time: Light : Partial Shade to Full Shade Uses: Specimen, hedge, attracts butterflies and hummingbirds, foundation		A unique rhody! Not only does Wine and Roses present beautiful rosy pink flowers, but the underside of the leaves are a deep wine red that is gorgeous all year long!
 Rhododendron 'Yaku Prince' <i>Yaku Prince</i> \$10.00 Container: 1Gal Size: 3'x3' Bloom Time: April-May Light : Full Sun to Partial Shade Uses: Specimen, accent, border		Yaku Prince flowers are pink, with darker freckles for extra beauty. These are just lovely flowers, and they bloom a little later, usually in late April and early May.
 Ribes 'Pixwell' <i>Pixwell Gooseberry</i> \$9.97 Container: 1Gal Size: 4'x4' Bloom Time: May to June Light : Full Sun to Partial Shade Uses: Fruit, Hedge		Pixwell is one of the best producers of gooseberries. The berries begin to ripen in July, large, tart, pink fruit that is nutritious. Pixwell has higher than normal fruit yields, and the plant grows quickly. Gooseberries are eaten fresh, as well as being used in baking, jams and even wine.
 Rodgersia pinnata 'Chocolate Wing' <i>Chocolate Wing Rodgersia</i> \$14.97 Container: 2Gal Size: 3'x4' Bloom Time: Early to mid summer Light : Full Sun to Partial Shade Uses: Specimen, border, foundation		Chocolate Wings rodgersia will make a dramatic impact on your garden. It gives an exotic look with its bold, divided leaves that begin a deep cocoa bronze in spring. The leaves change to dark green in mid summer before turning bronze again in the fall. It produces big plumes of deep-pink flowers in early summer. This is an ideal plant for a pond-side planting as it prefers moist soil in a dappled shade. It will handle full sun, however, if it is in a constantly moist site.
 Rosa 'Joseph's Coat' <i>Joseph's Coat Climbing Rose</i> \$24.97 Container: 2Gal Size: 12'x4' Bloom Time: Spring to Summer Light : Full Sun Uses: Specimen, climbing plant		Wow, what a beautiful rose! Flowers are red, orange, yellow, all at the same time, making the plant look like it is on fire! This is a climbing rose, so make sure to give it a trellis or fence to grow on. It will reward you with summer long glorious beauty!
 Rosa x 'Radcor' <i>Rainbow Knock Out Rose</i> \$11.00 Container: 1Gal Size: 3'x3' Bloom Time: May to frost Light : Full Sun to Partial Shade Uses: Specimen, mass planting, hedge, large container		Knock Out roses are beloved for solving many of the troubles people have with roses. They have very few disease problems, don't need much fuss and can grow in partial shade as well as full sun. They tend to fit into today's smaller gardens, too. Rainbow rose typically grows to around 3-4' tall and wide. Flowers are single, 5-petaled, coral pink with yellow centers. It will rebloom from May until late October.

	Botanical Name	Common Name	Description
	Rosmarinus officinalis 'Arp' <i>Arp Rosemary</i> \$6.97 Container: 1Gal		Arp is one of the most cold-hardy rosemarys, so it is the best one for us in the mild Puget Sound region. Arp is an upright shrub, it can grow to 4' tall or more, but in our climate it will usually stay a little shorter than 4'. Rosemary is great for cooking, going well with most meats. You can grow Arp in a large container where you can take clipping easily when cooking. Rosemary also blooms off and on all year long. Size: 3-4'x2-3' Bloom Time: Repeatedly throughout the year Light : Full Sun Uses: Herb gardens
	Rudbeckia fulgida 'Goldsturm' <i>Goldsturm Black-eyed Susan</i> \$6.97 Container: 1Gal		Goldsturm Black-eyed Susan is one of the best plants you will find for your borders. They form bushy clumps of foliage and put on a display of profuse flowering of their famous golden flowers with a black "eye" in the center. These flowers are a favorite of butterflies and some birds. They have a long late-season bloom period, from mid summer well into fall. Their seedheads can be left over winter to provide more visual interest. Goldsturm is especially stunning when used in mass plantings, or in pockets throughout your landscape. Goldsturm was selected as Perennial Plant of the Year in 1999. Size: 3'x2' Bloom Time: Mid summer to mid fall Light : Full Sun to Partial Shade Uses: Specimen, mass planting, border, container
	Rudbeckia hirta 'Cherry Brandy' <i>Cherry Brandy Black-Eyed Susan</i> \$6.97 Container: 1Gal		Cherry Brandy is a newer variety of black-eyed susan that bears striking flowers cherry-red petals around a dark black center. They attract butterflies, resist deer and bunnies, and they look fantastic in mass plantings, especially when mixed with other black-eyed susans. They can be grown in a border, used as an accent or planted in a container. They bloom for months on end starting in early summer. Size: 2'x16" Bloom Time: Mid summer to mid fall Light : Full Sun to Partial Shade Uses: Specimen, mass planting, border, container
	Rudbeckia hirta 'Chocolate Orange' <i>Chocolate Orange Black-Eyed Sue</i> \$6.97 Container: 1Gal		Chocolate Orange is a newer variety of black-eyed susan that bears striking dark chocolate flowers dipped in orange. They attract butterflies, resist deer and bunnies, and they look fantastic in mass plantings, especially when mixed with other black-eyed susans. They can be grown in a border, used as an accent or planted in a container. They bloom for months on end starting in early summer. Size: 3'x2' Bloom Time: Mid summer to mid fall Light : Full Sun to Partial Shade Uses: Specimen, mass planting, border, container
	Sagina subulata 'Aurea' <i>Scotch Moss</i> \$6.97 Container: 1Gal		Scotch moss is not really a moss, but it grows very low to the ground and has an appearance of moss. It is an extremely popular groundcover, forming almost a carpet of growth that is quite durable. It can handle moderate foot traffic and grows great between flagstone paving, in the rock garden or as a lightly used lawn. It is evergreen. Don't grow in full shade. Size: 1'x12" Bloom Time: Late spring Light : Full Sun to Partial Shade Uses: Ground cover, rock gardens, around steps, mass plantings
	Salix integra 'Hakuro Nishiki' <i>Hakuro Nishiki Dappled Willow</i> \$6.97 Container: 1Gal		The Hakuro Nishiki was brought from Japan in the 1980s. It's creamy white and pink mottled leaves are showy all summer and fall, while its coral-orange stems are striking and elegant in winter. It can be pruned into a tree form (standard) to great effect. Size: 5'x5' Bloom Time: Light : Full Sun Uses: Specimen, informal hedge
	Salvia argentea <i>Silver Sage</i> \$6.97 Container: 1Gal		Silver Sage is a beautiful foliage plant. The fuzzy leaves are intensely silver and soft. Keep this near the front of the border garden. It will give you a spectacular display! Size: 18"x24" Bloom Time: Early to mid summer Light : Full Sun Uses: Accent, rock garden, border, containers, edging, specimen
	Salvia x superba 'East Friesland' <i>East Friesland Salvia</i> \$6.97 Container: 1Gal		Grey green leaves are covered with tall slender spikes of deep purple flowers throughout summer. The flowers are gorgeous, and hummingbirds and butterflies are fond of them! Size: 18"x24" Bloom Time: Early to mid summer Light : Full Sun Uses: Attracts hummingbirds and butterflies, containers, cut flower, edging

	Botanical Name	Common Name	Description
	Sarcococca ruscifolia <i>Sweetbox</i> \$6.97 Container: 1Gal		Sweetbox is a beautiful evergreen hedge plant. It can grow in any light condition, but excels at full shade. As nice as the foliage is, it hides a sweet winter secret! Tiny white flowers hidden amongst its glossy, dark-green foliage, open to release a delightful perfume of sweet vanilla in January and February. It is really mouth-wateringly delicious! Following flowering, small scarlet berries appear.
	Size: 6'x6'	Bloom Time: January-February	Light : Uses: Hedge, Specimen
	Sedum spectabile 'Matrona' <i>Matrona Sedum</i> \$6.97 Container: 1Gal		A good perennial should have foliage that is as attractive as its flowers. Matrona Sedum fits that bill completely. It's thick, succulent foliage forms rosettes of blue-gray leaves containing a tinge of burgundy. As the plant grows throughout the season, green flower buds will appear in mid summer. These are almost as attractive as the flowers themselves! Then, towards the end of summer the buds begin to open with pink flowers that will last for several weeks, changing colors to deep rose, red and magenta.
	Size: 3'x2'	Bloom Time: Late summer to mid fall	Light : Full Sun to Partial Shade Uses:
	Sempervivum 'Hurricane' <i>Hurricane Hens and Chicks</i> \$6.97 Container: 1Gal		
	Size:	Bloom Time:	Light : Uses:
	Silene dioica 'Clifford Moor' <i>Clifford Moore Catchfly</i> \$6.97 Container: 1Gal		The foliage alone make this a wonder plant! Dark green edged with creamy gold, and the foliage is semi-evergreen, so most winters it will last all the way through. Silene makes a good neighbor to hostas and hellebores. He will also give you several weeks of cheerful rosy-pink flowers in late spring and summer.
	Size: 18"x12"	Bloom Time: Spring, summer	Light : Full Sun to Partial Shade Uses: Accent, mass planting, woodland garden, container
	Spiraea bumalda 'Firelight' <i>Firelight Spirea</i> \$6.97 Container: 1Gal		Firelight is constantly catching your attention with wardrobe changes. In spring, the new growth is mixtures of orange, red and yellow. Leaves turn bright golden yellow in late spring, in time for the bright pink flowers. Then in fall the foliage changes again to a deep orangish-red for its fall finale.
	Size: 2-3'x4'	Bloom Time: Late spring to early summer	Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees
	Spiraea nipponica 'Snowmound' <i>Snowmound Spirea</i> \$6.97 Container: 1Gal		Snowmound is a different kind of spirea than most others. It does not have a long blooming season like most. Instead it puts on a spectacular show of white blossoms in spring that line its branches and cover the entire plant, similar to a dogwood or viburnum. Instead of a neat, compact mound, it has arching branches yet still maintains a tidy appearance. It is also a fast and hardy grower, requiring little care or maintenance. Its flowers are a butterfly magnet! Snowmound makes an excellent hedge with its rounded leaves and dense foliage.
	Size: 4'x4'	Bloom Time: Late spring/Early summer	Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees
	Spiraea x bumalda 'Goldflame' <i>Gold Flame Spirea</i> \$6.97 Container: 1Gal		Goldflame is most beloved for its leaves, which emerge in flaming reds, bronzes and yellows in mid-spring. They fade to a soft green during the summer, but return to flaming hues in fall once again. They also show off pink clusters of flowers throughout the summer. Goldflame is one of the smallest of the spireas, usually reaching a maximum height of less than 3 feet, but easily maintained to as small as 18". They form niceley shaped rounded mounds without much effort.
	Size: 2'x3'	Bloom Time: Late Spring-Early Fall	Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees
	Spiraea x bumalda 'Dart's Red' <i>Dart's Red Spirea</i> \$6.97 Container: 1Gal		The striking feature of the Dart's Red spirea is, no surprise, the bright reddish pink color of the flowers. This is one of the more striking floral displays by a spirea, and they are a great addition to any garden because of it.
	Size: 2'x3'	Bloom Time: Late spring-mid summer	Light : Full Sun to Partial Shade Uses: Low hedge, accent, border, attracts butterflies and bees

	Botanical Name	Common Name	Description
	Spiraea x bumalda 'Gold Mound' <i>Gold Mound Spirea</i> \$6.97 Container: 1Gal	Common Name	Gold Mound is just like it sounds. It forms a low mound that is easy to maintain, and the leaves spend most of their time colored a gold, or yellow-gold. They do get kind of fiery colored in the fall, too! Flowers are pink, blooming in mid-summer and attracting the butterflies. Size: 3'x4' Bloom Time: June to July Light : Full Sun Uses: Low hedge, accent, border, attracts butterflies and bees
	Stipa tenuissima <i>Mexican Feather Grass</i> \$6.97 Container: 1Gal	Common Name	Beautiful accent for the front of a sunny border, the rock garden or in a container. A nice, compact mound of thin hair-like leaves produce pale-yellow grassy flowers that bloom all summer and into fall. Mexican feather grass has a soft, silky appearance. Size: 24"x18" Bloom Time: Early summer to early fall Light : Full Sun Uses: Accent, rock garden, border, containers, butterflies, mass, cut flower
	Syringa pubescens subsp. Patula 'Miss Kim' <i>Miss Kim Lilac</i> \$6.97 Container: QT	Common Name	Miss Kim is one of the most popular varieties of lilac available. This is because the flowers are especially fragrant, the light-purple flowers are very attractive and in the fall the leaves turn a vibrant maroon. It is also a fairly compact lilac, typically reaching a maximum size of 8 feet by 8 feet, though it is easily pruned to smaller sizes if desired. Lilacs attract butterflies and hummingbirds when in bloom. Miss Kim will tolerate partial shade, but blooms best in full sun. Size: 8'x8' Bloom Time: May Light : Full Sun to Partial Shade Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum
	Syringa vulgaris 'Aucubaefolia' <i>Dappled Dawn Lilac</i> \$6.97 Container: 1Gal	Common Name	Dark green leaves are splashed with gold and yellow. The flowers are a lavender-blue, similar to Miss Kim Lilacs. Flowers are usually in May, fragrant and beautiful. They make great cut flowers, especially when you include some of this excellent foliage in the cutting. Size: 8'x10' Bloom Time: May Light : Full Sun to Partial Shade Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum
	Syringa vulgaris 'Charles Joly' <i>Charles Joly Lilac</i> \$6.97 Container: 1Gal	Common Name	One of our favorite red-purple lilacs, with large, very fragrant double flowers that last several weeks in May. The flowers are wine-red that gradually turns purple. Size: 10'x8' Bloom Time: Late spring/Early summer Light : Full Sun to Partial Shade Uses: Specimen, border, hedge, cut flowers, butterflies and hummingbird
	Syringa vulgaris 'Edward J. Gardner' <i>Edward J. Gardner Lilac</i> \$6.97 Container: 1Gal	Common Name	One of our favorite pink lilacs, with sweetly fragrant double flowers that last several weeks in May. Size: 8'x6' Bloom Time: May Light : Full Sun to Partial Shade Uses: Specimen, border, hedge, cut flowers, attracts butterflies and hum
	Syringa vulgaris 'Krasavitsa Moskv' <i>Krasavitsa Moskv Lilac</i> \$6.97 Container: 1Gal	Common Name	Krasavitsa Moskv has gorgeous, fragrant white flowers that open from lavender and pink buds. This lilac keeps a somewhat narrow form, about half as wide as it is tall. It can grow to 12' in height or be kept to 6' with regular pruning. Size: 12'x6' Bloom Time: Spring Light : Full Sun to Partial Shade Uses: Specimen, cut flowers, hedge, borders
	Syringa vulgaris 'President Lincoln' <i>President Lincoln Lilac</i> \$6.97 Container: 1Gal	Common Name	President Lincoln is an honorable lilac choice to represent our 16th president. The single blue flowers are beautiful and the fragrance is delightful. Size: 10'x6' Bloom Time: Spring Light : Full Sun to Partial Shade Uses: Hedge, specimen
	Syringa vulgaris 'Primrose' <i>Primrose Lilac</i> \$6.97 Container: 1Gal	Common Name	Primrose is a popular but hard to find lilac. It blooms with white flowers that can become pastel yellow and form in trusses 8-10" long. This bloom color is unique among lilacs, when it happens. Size: 8'x10' Bloom Time: Early to mid spring Light : Full Sun to Partial Shade Uses: Specimen, cut flowers, hedge, borders

	Botanical Name	Common Name	Description
	Syringa vulgaris 'Wonderblue' <i>Wonderblue Lilac</i>	\$6.97 Container: 1Gal Size: 5'x4'	Wonderblue is a semi-dwarf lilac that is covered with sky-blue to violet-blue flowers in mid to late May. Bloom Time: Late Spring-Early Summer Light : Full Sun Uses: Specimen, cut flowers, hedge, borders
	Taxus x media 'Densiformis' <i>Dense Spreading Yew</i>	\$6.97 Container: 1Gal Size: 4'x6'	Yews are beautiful conifers with dark green foliage. This one makes a beautiful, perfect hedge plant, with scarlet berry-like cones that are really pretty. You can prune this one hard like a boxwood or laurel. Bloom Time: Light : Full Sun to Partial Shade Uses: Hedge, specimen
	Thuja occidentalis 'Smaragd' <i>Emerald Green Arborvitae</i>	\$6.97 Container: 1Gal Size: 15'x4'	Emerald Green Arborvitae has become one of the most popular desired privacy trees, and for many good reasons. This uniformly conical tree performs well in most any soil. Foliage is bright emerald green year round. Virtually disease-free and strong-rooted, it responds well to shearing. Durable accent or specimen tree. Evergreen. Hardy in zones 3 to 9. Grows quickly to 15 feet tall and 4 feet wide when planted as a privacy screen. Bloom Time: Light : Full Sun Uses: Privacy Screen, hedge, specimen
	Thymus citriodorus <i>Lemon Thyme</i>	\$6.97 Container: 1Gal Size: 12"x18"	Lemon thyme has rich, lemon-scented leaves. They can be used fresh or dry as a seasoning for salads, soups, stews, sauces, and for meats and fish. They also make an attractive, low-growing plant that can be used as a ground cover or a small edging plant. Bloom Time: July Light : Full Sun Uses: Herb
	Thymus serpyllum 'Coccineus' <i>Creeping Thyme</i>	\$6.97 Container: 1Gal Size: 2"x18"	If you want something special from your groundcover, then look no further. Creeping Thyme is an excellent choice. It stays very close to the ground, only 1-2" tall, but a single plant will spread to about 12-18". It is evergreen with a lush deep green foliage. The leaves are also fragrant, with a spicy delicious scent. And then there's the flowering. The best word for it is 'smothered'. The plant is completely smothered by bright magenta-red flowers in early summer. It is drought-tolerant, can tolerate moderate foot traffic, and grows great as a lawn substitute or between stepping stones. It's even deer resistant and it attracts butterflies! What more do you want? Bloom Time: June-July Light : Full Sun Uses: ground cover, rock garden, lawn replacement, edging, massed.
	Thymus serpyllum 'Purple Carpet' <i>Creeping Thyme</i>	\$6.97 Container: 1Gal Size: 2"x18"	If you want something special from your groundcover, then look no further. Creeping Thyme is an excellent choice. It stays very close to the ground, only 1-2" tall, but a single plant will spread to about 12-18". It is evergreen with a lush deep green foliage. The leaves are also fragrant, with a spicy delicious scent. And then there's the flowering. The best word for it is 'smothered'. The plant is completely smothered by bright magenta-red flowers in early summer. It is drought-tolerant, can tolerate moderate foot traffic, and grows great as a lawn substitute or between stepping stones. It's even deer resistant and it attracts butterflies! What more do you want? Bloom Time: June-July Light : Full Sun Uses: ground cover, rock garden, lawn replacement, edging, massed.
	Vaccinium corymbosum 'Bluecrop' <i>'Bluecrop' Highbush Blueberry</i>	\$6.97 Container: QT Size: 4'x4'	Bluecrop is a MIDSEASON blueberry plant with large blue berries with a "classic sweet" flavor. The fruit is ideal to eat whole, right off the bush. Bluecrop is the most widely planted variety in the U.S. and is one of the strongest performers of fruit production and quality. Nice red fall color on the leaves. Bloom Time: May Light : Full Sun to Partial Shade Uses: Fruit
	Vaccinium corymbosum 'Bluejay' <i>Bluejay Blueberries</i>	\$9.97 Container: 1Gal Size: 6'x5'	Bluejay is an early-mid season fruiter. The berries are medium-sized and delicately sweet. Bluejay is particularly noted for being an attractive plant. It is one of the easiest blueberry plants to grow. It has a neat, upright appearance, good fall color and the stems turn bright yellow in winter. The fruit form in long, loose clusters. They can be left on the plant for long periods, making them ideal for freezing, pies and canning. Bloom Time: Spring Light : Full Sun Uses: Edible fruit, hedge, specimen, mass planting

	<p>Vaccinium corymbosum 'Chandler'</p> <p><i>'Chandler' Highbush Blueberry</i></p> <p>\$9.97 Container: 1Gal</p> <p>Size: 6'x6' Bloom Time: May</p>		<p>Bluecrop is a Mid to Late season blueberry plant with large blue berries with a "full robust" flavor. In fact, Chandler produces the world's largest blueberries. The fruit is ideal to eat whole, right off the bush or with a specialty dessert. Chandler has a long ripening season, up to six weeks of delicious berries! Fall color is wine and orange.</p> <p>Light : Full Sun to Partial Shade Uses: Edible fruit, hedge, specimen, mass planting</p>
	<p>Vaccinium corymbosum 'Duke'</p> <p><i>'Duke' Highbush Blueberry</i></p> <p>\$6.97 Container: QT</p> <p>Size: 4'x4' Bloom Time: Late</p>		<p>Duke is an EARLY season blueberry with large fruit that tastes "savory and sweet". It is the best early-season variety because it is a heavy producer of attractive, firm, high quality berries. Duke blooms late but ripens early which ensures the fruit is protected from late frosts. When the branches droop low to the ground with heavy fruit you will know it is time to pick berries! Fall leaves turn orange and yellow</p> <p>Light : Full Sun to Partial Shade Uses: Whole berries</p>
	<p>Vaccinium corymbosum 'Elliot'</p> <p><i>'Elliot' Highbush Blueberry</i></p> <p>\$6.97 Container: QT</p> <p>Size: 4'x4' Bloom Time: May</p>		<p>Elliot is one of the LATEST FRUITING blueberries. With Elliott you can expect fresh fruit through September! The fruit is medium large and best described as zesty. Red and orange fall color is a highlight, but so is the burgundy colored stems, gray-green foliage and sky blue berries. 4-6 feet</p> <p>Light : Full Sun to Partial Shade Uses: Whole berries</p>
	<p>Vaccinium corymbosum 'Jersey'</p> <p><i>Jersey Highbush Blueberry</i></p> <p>\$9.97 Container: 1Gal</p> <p>Size: 6'x6' Bloom Time: Late spring</p>		<p>Jersey is one of the oldest and most widely grown of the blueberries. It is a LATE season fruit producer with medium sized berries that taste "lush and sweet" and are ideal for baking. Jersey is an EASY to grow bush that tolerates a wide range of soil conditions. The fall color is described as "orange flame".</p> <p>Light : Full Sun to Partial Shade Uses: Fruit, fall color, border</p>
	<p>Vaccinium corymbosum 'Pink Lemonade'</p> <p><i>Pink Lemonade Blueberry</i></p> <p>\$6.97 Container: QT</p> <p>Size: 5'x5' Bloom Time:</p>		<p>Pink Lemonade blueberries are not blue, but reddish-pink! They are a mid to late season fruiter. The berries have a mild flavor. The plant itself is ornamental genius! The bright fruit is very showy, the leaves are attractive, and the fall color is a spectacular orange-red. The stems turn a reddish-brown in winter. The flowers and berries will attract butterflies and hummingbirds. For best fruiting, plant at least 2 varieties of blueberries near each other.</p> <p>Light : Full Sun Uses: Edible fruit, specimen, hedge</p>
	<p>Vaccinium ovatum</p> <p><i>Evergreen Huckleberry</i></p> <p>\$6.97 Container: QT</p> <p>Size: 6'x6' Bloom Time: Spring</p>		<p>The evergreen huckleberry is a Northwest native that is extremely versatile. It can be grown in any sun condition, from full sun to full shade, and can handle any soil type. Spring growth is reddish-bronze, fading to dark green. Huckleberries are similar in taste to blueberries, but are particularly good in deserts and jams. Left to its own, these can grow to 12' or more, but can easily be maintained to 4-6 feet with regularly pruning. You can even use them as a hedge plant!</p> <p>Light : Uses: Fruit, native plant, woodland garden, hedge, attracts birds, bees an</p>
	<p>Veronica 'Perfectly Picasso'</p> <p><i>Perfectly Picasso Speedwell</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 2'x2' Bloom Time: Mid to late summer</p>		<p>Beautiful selection of the "spike" Veronicas. A rounded, bushy clump of foliage produces upright spikes of white buds that open to brightpink flowers. It blooms from mid to late summer, but deadheading will keep the blooming going until fall. This is a good one for the middle of the border.</p> <p>Light : Full Sun to Partial Shade Uses: Accent, mid-border, attracts butterflies and hummingbirds, contain</p>
	<p>Vinca minor 'Bowles'</p> <p><i>Bowles Periwinkle</i></p> <p>\$6.97 Container: 1Gal</p> <p>Size: 6"x24" Bloom Time: Spring to summer</p>		<p>Bowles is the variety most people think of when they think of periwinkle. It is the classic form - dark green evergreen leaves, bluish-purple flowers that bloom off and on all spring and summer, and pretty much grows in any condition, even in deep shade underneath a taller shrub. Plant 4 to 6 plants per square yard to quickly fill in an open space.</p> <p>Light : Full Sun to Full Shade Uses: Ground cover, accent, containers, mass planting</p>

Botanical Name	Common Name	Description
 Weigela florida 'Variegata Nana' <i>Dwarf Variegated Weigela</i> \$6.97 Container: 1Gal Size: 3'x3' Bloom Time: May-June		Deservedly popular for its compact rounded habit, delightful variegated foliage and rose-pink tubular flowers in spring. This hardy deciduous shrub brings a splash of colour to mixed borders, woodland gardens, and containers. Versatile and easy to grow, Weigela also makes a colourful low maintenance hedge. You really can't go wrong with this beautiful plant! Light : Full Sun to Partial Shade Uses: Specimen, border, foundation
 Wisteria floribunda 'Hon Beni' <i>Hon Beni Wisteria</i> \$24.97 Container: 2Gal Size: 20-30'x10' Bloom Time: Late spring to early summer		Hon Beni flower tresses can reach up to 2 feet long!, packed with pale rose flowers tipped with purple. This is the most romantic of the wisteria! Light : Full Sun to Partial Shade Uses: Vine, specimen
 Wisteria floribunda 'Lawrence' <i>Lawrence Japanese Wisteria</i> \$24.97 Container: 2Gal Size: 20-30'x10' Bloom Time: Late spring to early summer		Lawrence is one of the best pale-blue wisteria on the planet! Flower tresses can reach up to 20 inches long, packed with blue-violet blooms with deeper violet-purple and yellow mixed in. Light : Full Sun to Partial Shade Uses: Vine, specimen
 Wisteria floribunda 'Longissima Alba' <i>White Wisteria</i> \$24.97 Container: 2Gal Size: 20-30'x10' Bloom Time: Late spring to early summer		A spectacular white flowering wisteria, with tresses up to 2 feet long, packed full of fragrant white flowers. Light : Full Sun to Partial Shade Uses: Vine, specimen
 Wisteria floribunda 'Royal Purple' <i>Royal Purple Wisteria</i> \$24.97 Container: 2Gal Size: 20-30'x10' Bloom Time: Late spring to early summer		Royal Purple is one of the best purple wisteria on the planet! Flower tresses can reach up to 20 inches long, packed with purple blooms with deeper violet-purple and yellow mixed in. Light : Full Sun to Partial Shade Uses: Vine, specimen
 Wisteria frutescens 'Amethyst Falls' <i>Amethyst Falls Wisteria</i> \$24.97 Container: 2Gal Size: 20-30'x10' Bloom Time: Late spring-early summer		Strong growing vine, reaching 30' in length. It is not invasive like asian varieties. Amethyst Falls is also less vigorous than other varieties, and is not a danger to nearby trees. Vivid violet-blue fragrant flowers hang down in 6" racemes. The main bloom time is mid-spring, but it will rebloom throughout the summer. Light : Full Sun to Partial Shade Uses: Vine, specimen
 Wisteria frutescens 'Amethyst Falls' <i>Amethyst Falls Wisteria</i> \$12.97 Container: 1Gal Size: 20-30'x10' Bloom Time: Late spring-early summer		Strong growing vine, reaching 30' in length. It is not invasive like asian varieties. Amethyst Falls is also less vigorous than other varieties, and is not a danger to nearby trees. Vivid violet-blue fragrant flowers hang down in 6" racemes. The main bloom time is mid-spring, but it will rebloom throughout the summer. Light : Full Sun to Partial Shade Uses: Vine, specimen
 Yucca filamentosa 'Color Guard' <i>Color Guard Yucca</i> \$6.97 Container: 1Gal Size: 18"x2' Bloom Time: Mid summer		This is a spectacular variety of yucca that looks great the whole year. With its striking yellow and green variegated leaves, which are evergreen, you will never be without a stunner in your landscape, even in winter! And, as if that weren't enough, in mid summer flowers form on stalks that rise up above the plant to 6'. These flowers are fragrant and are like butterfly magnets! Use these yuccas wherever you want to make a huge impact! Light : Full Sun Uses: themed gardens, specimen, attracts butterflies
